ONTARIO CONFERENCE.

The Secretary of the Woman's Missionary Society for the Ontario Conference reports increased interest in the work of our Society, manifested particularly by a desire to know more of its design and workings. Several S. School Miss. circles were organized within the bounds of this Conference, but owing to either a lack of interest or a failure in the oversight, or some unknown reason, no reports have been sent for the past two years, except from that of the University Church, Belleville. This circle is doing a good work, raising quite a little sum of money, rousing a spirit of missionary enterprise in its members, teaching the children to give and work for God's cause, and setting an example worthy of imitation to other larger and wealthier schools. We would earnestly ask every school in which there has been a "Missionary Circle" formed to report progress and renew their efforts.
