## CAN GET SUPPLY OF MILK FROM OTHER SOURCES

**Local Dealers Say They Are Not Dependent on Kings County Producers—Will Take Radical Steps if Demands Are Not Dropped**

That an adequate supply of milk from other sources than Kings county can and will be secured if the present demands for fifty-six cents a can are continued, was the statement made today by one of the prominent milk dealers.

So far there has been no change in the local situation. The producers are standing firm in their demand for the increased price, and the dealers are just as firmly refusing to pay. This morning the quantity of milk which arrived from Kings county was only about one-quarter of the usual supply.

The consumers have been accepting the reduction with very little complaint. Asked this morning what the outcome of the situation is liable to be, a dealer said that they had been making inquiries and that they had learned that it would be quite possible to secure an adequate supply of milk from other sources and that they would proceed to do so if the Kings county men do not recede from their position. A few days might be required to make the necessary arrangements, but if the producers continue to hold out, the dealers certainly will take this step in the interests of their customers.

## Stumer Dead

One of Russians Responsible For Revolution

Had Been In Prison

**Indicted Last June—Internal Situation in Russia Regarded as Gloomy by London Times' Correspondent**

Petrograd, Sept. 4.—Former Premier and Foreign Minister Stumer died yesterday.

M. Stumer, with the late Monk Rasputin, and former Minister of the Interior Protoloff, formed the trio known as "The Dark Forces," which aroused the Russians to revolt against the regime of Emperor Nicholas.

In last June Stumer was indicted under a law which provided severe punishment for the arbitrary transgression, by a Russian official, of the limits of his rightful power.

Recently he had been incarcerated in the fortress of St. Paul and St. Peter, and late in August was reported to be imprisoned as the result of his illness, with little hope for his recovery.

London, Sept. 4.—The Petrograd correspondent of the Times, in a despatch dated Sunday, views the internal situation pessimistically. "The government," he says, "is still dominated by irresponsible forces. General Korniloff has been obliged to take personal measures to victual the army and has ordered the seizure of cereals from the peasants within the war zone, and is negotiating with the railway men with a view to satisfying their just grievances. His programme of army reforms is still in progress."

## PAINFULLY INJURED

Friends of Mrs. Clement L. Murphy will regret to hear that she was quite painfully injured last evening. She had been spending the week end at Mrs. P. Edwards', Chapel Grove, while walking in the yard tripped over an iron hoop and was thrown forcibly to the ground injuring her knee. As she was unable to get up, she was carried to the river and placed on board the auxiliary yacht Winoque and brought to the city. When she arrived at the home in an automobile and upon her arrival was attended to by Dr. M. Barry. He used the X-ray and would have to be used. Today her condition was unchanged and she was suffering great pain.

## POLICE COURT.

Three fines were struck in the police court this afternoon in cases of intoxication. The case of Charles Livingstone and William McAuliffe, charged with assault of Norman McLeod, was not finished at the time of going to press. Livingstone said he had nothing to do with the case. Norman McLeod pleaded guilty to being drunk. McAuliffe admitted being drunk and said he did not remember what he did that night. The testimony showed that a soldier was seen kicking a man who was lying in a gutter near the old grave yard.

## NOT GOING NOW.

"That the draft from No. 8 Siege Battery, which was expected to leave in a very short time for overseas, is not likely to leave Canada for some time, was the information that military officials in the city received this morning."

**The Danger of "Far Sight"**

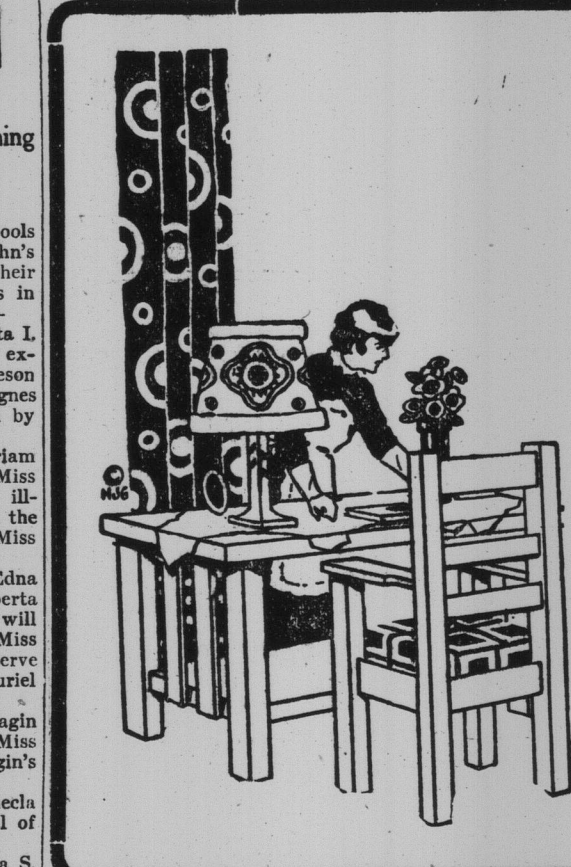

This defect is called Hypermetropia, and means not that one can see farther, but that the eye is adjusted to a point beyond the common one for close work. Instead of seeing best when a book is 12 or 15 inches from the eye, it must be farther away.

"Far Sight" is especially common among school children and is dangerous because of the severe eye-strain it causes. Proper glasses will correct "far sight."

Have us examine your child's eyes now, before he settles down to the hard work of the new term.

## NEWS OF MORE SOLDIERS IN CASUALTY LIST

(Continued from page 1.)

**Sergt. Harry McCrory**  
Mrs. Margaret McCrory, 68 Hawthorne avenue, was advised this morning that her husband Sergt. Harry McCrory, a member of an Irish infantry battalion, had died of wounds on August 9.

Sergt. McCrory was twenty-four years old and prior to enlistment was employed in the shipbuilding yards in Belfast.

That Sergt. McCrory was a very efficient soldier is evinced by the fact that he joined the army as a private and won his stripes on the field. Upon joining the forces and going to France his wife came to this country and is now residing in the city. Besides his wife, he leaves one small child.

**Private James H. Brown**  
The news that her son, Private James Henry Brown, aged thirty years, was officially reported wounded on August 24, was received this morning by Mrs. Robert Brown of 107 Newman street.

He was last heard from him he was with a working battalion back of the lines but the fact that he is wounded is taken to indicate that he has again been transferred to the infantry. Before enlisting he was employed with James Lewis & Sons.

**Gunner H. W. Seely**  
Mrs. Lillian Seely has been advised that her husband, Gunner Harry Walton Seely, has been admitted to No. 22 Casualty Clearing Station, where he has gunshot wounds in the face. Gunner Seely who was a member of the staff of the James Fleming foundry before enlisting, went overseas with a draft from the 65th battery and was transferred to another unit. He crossed last summer and has been at the front since last December. There was a little delay in the receipt of the telegram owing to the fact that he had been transferred to Fredericton where Mrs. Seely had been staying with friends while her husband was in training in Woodstock, although she has since returned to St. John.

**Private T. Keleher**  
Mrs. Margaret Keleher of North street, Fairville, was advised on Saturday that her second son, Private Timothy Keleher, had been wounded by gunshot and admitted to a hospital in France. Private Keleher is about twenty-three years old and prior to going overseas was in the employ of the West St. John Water Works Department. ## REPLICA OF COLUMBUS' FLAGSHIP FIGURES IN P. E. ISLAND CASE

Charlottetown, P. E. Island, Sept. 4.—An interesting case comes up before the Admiralty Court here today, the first to be brought before Justice Stewart, the newly appointed assistant judge.

It is the Neville's Canneries Company of Halifax vs. the Santa Maria. The latter is a replica of the flagship of Christopher Columbus. The model was built by the Spanish government and sent to the World's Fair in Chicago in 1893. She is now owned by the Park Commissioners of Chicago, was chartered by Captain Charles Stevenson and left Chicago for Panama to take part in the opening of the canal. She never reached that destination, but called at many ports, where she was on exhibition. On arriving at Cape Cod she turned back, bound for Quebec, but, owing to bad weather and the ship leaking, she put into Charlottetown last fall. She was laid up here all winter and was arrested by a warrant issued by the Admiralty Court, on a claim for towage for \$4,250, the claimants being the Neville's Canneries Company, whose tug had been hired for \$75 a day.

The ship is still at the wharf in this city. She contains Columbian relics, including the original anchor of the old flagship.

An unusual opportunity to aid in advertising St. John has been suggested in an interesting communication received by Mayor Hayes from N. B. Colcock of "Canada," the Mount, Guilford, Surrey, England. The writer says that his residence, which he named after the dominion in recognition of forty years of residence in this country, is situated on the highest elevation on the road between Portmouth and London, near the camps of Aldershot, Bramshott, Borden and Willey. There he receives many visitors from Canada as well as many others, and he has been interested in conversing with them regarding Canada, the fact that he is an invalid depriving him of the opportunity to engage in active pursuits. The name "Canada" in large letters across the face of the building has attracted much attention, and he suggests that he might add to the interest of passersby by displaying pennants bearing the names of the provinces and chief cities, and invites the mayor to send one bearing the name of this city and also a supply of literature relating to the city and its surroundings.

**CASE OF SMALLPOX ON THE NORTH SHORE**
