Advertising Copy

Advertisers in The Times are requested to note that it is necessary to have change of copy or new copy delivered at the advertising department of The Times before 2.30 p.m. to ensure insertion in the next day's paper.

LOCAL NEWS

DIED IN NEW YORK

There has come from New York the sad news of the death of John G. Moore of that city, which occurred last week. Burial took place there on Saturday. Mr. Moore's wife was formerly Miss Irene Stewart of this city.

HELPED THE ORPHANS

Three little girls, Beatrice McKinney, Helen McFarlane and Jean Johnston, held a bazaar quite recently, and the proceeds, \$9, a very nice sum, were given to the British street orphanage to provide a Halloween treat for the children. It was a kindly and thoughtful act by little girls in remembering others less fortunate than themselves.

THE DREAM

The steamer Dream was partially raised on Saturday afternoon and towed to Indintown yesterday. She is now moored at Jordan's wharf, on the Pleasant Point side of the river, and is supported by two lighters. It was expected that she would be towed through the falls today and placed in Market slip where she will be repaired.

A GOOD STRING

The pin hitters on the Y. M. C. I. alleys are getting their stride. It takes a pretty good string now to win the weekly prize which the manager, Joe Harrington, has been offering. Last week Waldo Reid climbed to 129 and a nice pipe was his. Next in order was J. Wall, with 123.

DOCTORS RETURN

Dr. John H. Allingham, Dr. L. D. V. Chipman and Dr. Albert E. Macaulay, three local physicians, who were recently admitted as fellows of the American College of Surgeons, at their congress held in Boston, arrived home at noon today. Dr. Donald C. and Mrs. Malcolm, who attended the congress, also arrived home. Dr. G. A. B. Addy, who was in attendance, returned home last week.

C. P. R. MEETING

The C. P. R. district monthly meeting is being held today at McAdams. Those in attendance from this city are J. M. Woodman, general superintendent of the N. B. district; W. S. Elliott, divisional freight agent; D. H. Ryan, assistant superintendent of the Brownville division; Dr. W. Newcomb, local freight agent; and J. S. Clayton, agent in West St. John, in addition to some employees.

WILL PREACH IN LONDON

Rev. Dr. Hutchinson will leave tonight for Toronto to attend a meeting of the Baptist Foreign Mission Board. By special invitation he will preach the special anniversary of the Baptist Church in London South, Ont. Baptist church on next Sunday. While in that city he will be the guest of his son, who is manager for the Manufacturers' Life Association in that district.

AN ANNIVERSARY

Thirty-two years ago today, on October 30, 1890, John Frederick Young lost his life in a brave though futile endeavor to rescue Frederick E. Munder from the waters of Courtenay Bay. In King Square there stands a monument to the memory of that hero that all who pass may know that by that stone is commemorated an act which there is none to equal. "Greater love hath no man than this; that a man lay down his life for his friend."

AWAY TO EUROPE

Among the passengers on the S. S. Majestic which sailed from New York on Saturday for Cherbourg and Southampton were Dr. J. E. Leger, Miss Anna McFarlane and Miss Laura Gaudet of Moncton. Dr. Leger, was for some time on the staff of the General Public Hospital here to take a post graduate course in surgery at a Paris University in accordance with the terms of a scholarship which he won. The two young ladies will study music at a Parisian academy.

POLICE COURT

Four men were charged with drunkenness this morning, and one with assault. They were fined \$8 for being drunk, and three of them were fined an additional \$8 for being out late. A postponed case against Michael Michaeluk, charged with having liquor in his possession unlawfully was taken up in the police court this morning and again postponed until tomorrow afternoon at two o'clock. W. M. Ryan appeared for the prosecution and E. S. Ritchie for the defense. A case against Young Swanton, charged with assault was also postponed until tomorrow afternoon at the same hour. E. S. Ritchie appeared for the defense.

A MOTHER'S DEFENCE

A juvenile, who gave his age as fourteen, was before the magistrate this morning, charged with the theft of coal on information laid by D. W. Land. The alleged theft occurred from a C. N. R. car. The boy pleaded guilty. His mother and father were in court, as well as his employer. The latter said he had always found the boy obedient and honest. The lad's mother told a story of attempts to bring her family up right in the face of almost insurmountable obstacles and broke down several times during the recital. The boy said there had been another one with him, whose name he gave. The magistrate said the father was liable to a fine of \$20, and the boy to four years' imprisonment.

HERE THIS WEEK

Word was received at the local Board of Trade today that they might expect Major E. A. Robles, C. B. E., manager of the British Empire Exhibition Association, on Friday on his way through the province on a tour of inspection. He has been touring the empire with the hope that all parts will be represented as well as possible at the empire exhibition in London. It is his purpose in Canada to acquaint the governments of the various provinces with good working knowledge of the exhibition and its aims and aspirations as well as to gather some word of what each province's natural products are. While Major Robles is here the Board of Trade will co-operate with the government to see that he is given every opportunity to pick up the information he needs.

"Who Said Taxes?"

The N. B. Power Co. and its agents. Why? In an endeavor to stampede the citizens into a refusal of this great opportunity offered to them, and a continuance of the present high rates for light and power. Read the history of Windsor, Ont.

Population, 1915 22,000
Population, 1922 44,000
New power users, 1915-1922 255

This is a direct result of hydro, with its low rates for power attracting manufacturers. And remember that St. John can buy power 20 p.c. cheaper than Windsor.

What has been St. John's growth in the same period—practically nothing. Why? To a large extent the high cost of power.

Yet the N. B. Power Co., not satisfied with having denied low rates in the past, apparently wishes to prevent them today.

What would a growth similar to Windsor mean to St. John and your taxes and living conditions?

Mr. Taxpayer—Think it over.

DELEGATIONS AT CITY HALL

Three Heard by the Commissioners This Morning

The Courtenay Bay Dredging, International Skating Meet and West Side Playgrounds—Guarantee Against Skating Meet Deficit.

The whole time of this morning's committee meeting of the city council was taken up with the hearing of delegations. One committee appeared to ask the city's aid relative to the building of a dredge working in Courtenay Bay; another was heard in connection with the securing of a playground for West St. John, while a third asked the city to guarantee any deficit from the holding of the International Skating Championships, should they be granted to St. John.

Courtenay Bay Noise
Five residents of King street east appeared in connection with a petition from people living along Courtenay Bay, asking the city take action to have a bucket dredge cease operations during the night so as not to disturb the peace of the community, the city might take action. He thought at least it might be stopped from 10 p.m. to 6 a.m. If the bucket dredge was replaced by one of the suction type, he thought seventy-five per cent. of the noise would be stopped.

The mayor said that the city had no legal authority to stop the noise, but it might take the matter up with the federation of the contractors. David M. Magee said that if the dredge was operating two shifts the night hours might be eliminated. F. W. Levine said that during the day the dredge was idle a great many hours, but seemed to operate all the time.

The city solicitor said the city had no authority to stop the dredge. The mayor thought the government should direct the contractors to relieve the city of the nuisance, even if it was necessary to compensate for any time lost.

Dr. Baxter further said that the city could not make by-laws to work outside its jurisdiction. He said individuals could get an injunction if it was shown that the working of the dredge interfered with their comfort. He thought the best thing to do was to take the matter up with the government, or the petitioners might approach the contractor.

Commissioner Frink said that Mr. Ross, manager of the St. John Dry Dock & Shipbuilding Co. had given seventy-five carloads of gravel for road repairs free of cost to the city, and he thought he might be approached in this matter. Commissioner Frink moved that a communication be sent to the minister of public works, asking for a cessation of public works, asking for a cessation of the noise at night. Carried. Commissioner Frink was authorized to see Mr. Ross and see what could be done.

The Skating Meet.
A delegation representing the citizens' committee of Y. M. C. I., Y. M. C. A., Rotary Club and G. Y. Club, connection with the International Skating meet, was heard.

Frank White, on behalf of the committee, asked if the city would underwrite a loss, should such occur, if the meet came to St. John. He said that it was the plan to divide any surplus between the Protestant and Catholic orphanages. He said last year's meet cost about \$5,000, with gross receipts of some \$8,000. The expenses this year were estimated to be about \$6,000. To the mayor he said the meet would be under the Maritime Skating Association's auspices.

R. D. Paterson and Donald Armstrong, other members of the delegation, also spoke briefly. To Dr. Frink, the city solicitor, said that any deficit could be taken from general revenue. Commissioner Wilmore said the

meet last year did a big thing to put St. John on the map. He was willing to support the project.

Commissioner Bullock also spoke favorably. The mayor said he thought that he was sure the people would be willing to back up the idea, on account of the great advertising features in connection with such a meet. He was willing to support a \$2,000 guarantee. Commissioner Thornton said \$2,000 might be spent in advertising with much less effect. He thought there was no fear of the city being called on to pay the amount. His motion that the city guarantee an amount not to exceed \$2,000, to be taken from general revenue, was carried.

West Side Playground.
A delegation from the west side was present to ask the city's assistance in establishing a playground. W. E. Scully, M. P. P., said he understood the city had in mind a property in Lancaster near the City Line. The mayor said the surface of the property required leveling. He thought an annual grant of about \$1,000 a year would be required.

J. Fred Belyea and William Harding also spoke in favor of the matter. To the mayor, Mr. Scully said Queen square could be developed at less cost, but there was opposition to using the square for this purpose. He thought last spring the matter of the mill pond filling had been brought before the council, but had evidently been forgotten.

The mayor protested that the matter had not been forgotten. He said it had been forced to one side by a bigger question—hydro.

Reverting to the playgrounds matter, Commissioner Frink said the proposed new site was desirable, but was in the city and was taxed to the extent of \$428 for two years. He thought \$2,000 or \$3,000 would be sufficient to put it into preliminary shape. A caretaker at a cost of at least \$500 a year would also be required. He thought legislation might be secured to exempt playgrounds from taxation.

Generally he supported the proposal, as did also Commissioner Wilmore. Commissioner Bullock thought the municipal council should co-operate by exempting the property from taxation. The mayor said he would support any reasonable expenditure to solve the leisure time problem.

On motion of Dr. Frink the application of the west side committee was referred to the committee of the whole to confer with the owners of the property and the councillors of Lancaster, and report back on Thursday.

Dr. Baxter said that to all intents and purposes, he was selling the property to the Hassan estate. It was about 10,000 feet deep and about 800 feet wide. He said the city would have to buy it on the open market as he, as city solicitor, could not make a private deal with the city.

ST. JOHN TO HULL WINTER SERVICE

Furness Steamships to Operate It—Manchester Line Announcement.

St. John's winterport business this season will be augmented by a new line of Furness steamships from here to Hull, England, starting on December 9 with the Lexington, it was announced at Furness, Withy Co's, this morning. There have been two assigned to this service and it is probable at least one more will be added later in the season. The Lexington is expected to sail for this port from London on November 15 and to commence her winter sailings to Hull on December 9. She will be followed on December 23 by the Arion and probably by others. It is planned to make this service, which corresponds to the one formerly from Portland to Hull, a fortnightly one.

The Manchester Line winter sailings will also commence on December 9 and will probably be a ten day service. The first will be the Manchester Producer, which is due to sail from Manchester for this port on November 15 and to make her first return voyage on December 9.

ALL ENJOYED IT
Choruses sung by the St. Vincent High School girls were pleasing features of the Catholic Women's League meeting on last Friday night. They first sang O Canada and then another number both of which gave much pleasure.

The Opening Day of Our Opportunity Sale Proved a Huge Success

Hundreds of customers went away delighted with their purchases.

We have hundreds of the same quality bargains left. Enough for all.

Be wise and secure your share. Take Elevator to Third Floor. NO APPROVALS NO EXCHANGES

Mail Orders Will Receive Personal Attention.

Opportunity Sale Oct. 28th to Nov. 4th

9-Piece Dining Room Suites

\$195.00

Not for many years have nine-piece dining-room suites been offered at prices anywhere near so low as those which are causing gasps of surprise on the part of nearly everyone who visits the new display room we have fitted for dining room furniture.

The suite quoted above is really finer than shown in illustration, with its massive 60 inch buffet, large china cabinet, generous-sized extension table and six chairs which have been very much improved since illustration was made. Naturally, we have many lower-priced suites and also higher-priced, but our very comprehensive showing will disclose something to suit every taste and every purse.

Electric Vacuum Cleaners to hire by the day.
