

U.S. TARIFF BILL HIGHEST EVER

Washington, April 11—Carrying what are regarded here as the highest duties of any tariff bill in recent years and giving the president power to enforce rates even fifty per cent higher in case these duties are not sufficient, the tariff revision bill as overhauled by the senate finance committee was reported to the senate late today. Many of the duties and features of the bill have already been announced. A leading feature is the high agricultural rates, including higher rates on grains and live stock which are aimed in part at Canadian competition. High fish duties are also curbed.

The senate bill is based not on the American valuation as the house bill is, but on the foreign wholesale selling price. How long it will take to pass it is uncertain and opinion is divided whether it can be enacted before the congressional elections. A declaration by Chairman Fordney, of the ways and means committee, that he will fight for American valuation until snow flies, cools like prolonged delay, but it is a close question whether in a show-down the house would uphold Fordney in such tactics. If it becomes law the bill will hit Canada even harder than the Fordney measure, for it calls for a levy of thirty cents per bushel on wheat, as against the twenty-five cents in both the Fordney and Payne-Aldrich tariffs, the latter being the last Republican tariff.

Under the Underwood tariff wheat was free.

Wheat Flour Tax.
The new bill also raises the duty on wheat flour. It would charge 78 cents for every hundred pounds of flour brought across the border. The Fordney bill carried a duty of 60 cents per hundred pounds, the Payne-Aldrich 48 cents, and the Underwood 48 cents per one hundred and ninety-six pounds. The duty on oats, barley and rye would be jacked up five cents per bushel over the Fordney rate of 25 cents. The duty on the metals which Canada produces

Helps digestion —and cleans a coated tongue

Thousands of men and women have found relief from various digestive disturbances by eating Fleischmann's Yeast.

It is human nature to want to find out "why." So far as science can tell us this is the reason: Fleischmann's Yeast is a food abundant in certain elements which are necessary to health and life itself. It promotes the flow of bile and of pancreatic juice. It has a remarkably beneficial effect on the whole digestive process. It cleans a coated tongue.

Try Fleischmann's fresh yeast in orange juice or in milk. Men like it in milk shakes and malted milk. Women like it spread on bread or crackers.

Keep your digestion in the pink of condition and your tongue clean and healthy by eating 2 or 3 cakes of Fleischmann's Yeast fresh every day before or between meals. Be sure it's Fleischmann's Yeast—the familiar tin-foil package with the yellow label. Place a standing order with your grocer today.

there is a slight decrease from the rate ruling in the Fordney tariff. While chemical wood pulp was free in the Fordney tariff, the new bill levies five per cent. Newspaper is free, as is also mechanical wood pulp or "ground wood."

Two automobile trucks belonging to Murray & Gregory, Ltd., collided just before the noon hour yesterday at Simms' corner, at the foot of Fairville. One of the trucks was proceeding around the curve toward the city and the other was turning up on to Lancaster Heights. They crashed head-on and the lighter truck was badly damaged. Both drivers escaped unhurt.

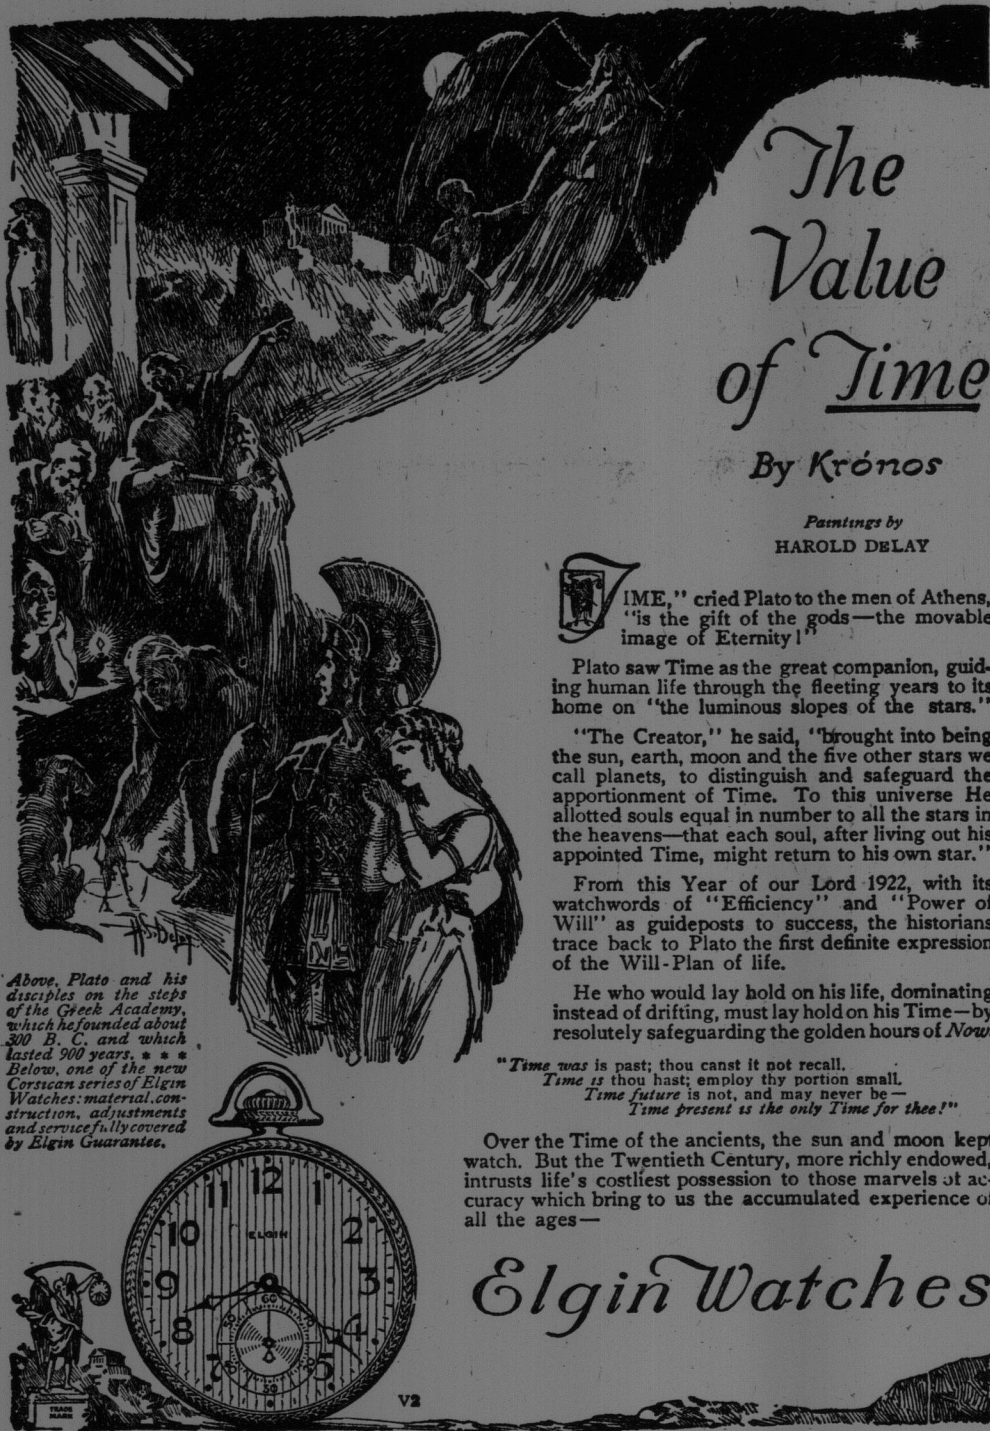

DISTANT PLACES WANT INFORMATION ABOUT PROVINCE

Many Requests Received by Tourist and Resources Association — Some From Florida and California.

The new booklet of the New Brunswick Tourist and Resources Association now is in the hands of the publishers, and it is expected that it will be ready for distribution very soon. It contains a fine assortment of pictures, illustrating different parts of the province. It is believed to be the best and most attractive booklet yet issued by the association. The secretary of the association, C. B. Allan, said yesterday that already he had received a large number of requests for literature on New Brunswick and the requests had come from all parts of the neighboring republic, even as far south as Florida and Texas and as far west as Oregon and California. There were a great many requests for literature from school teachers, students and librarians. Each request had been complied with and all the literature available was sent. One of the requests from Oregon came from the Oregon Agricultural College librarian, who asked for literature dealing with every phase of life and industry in New Brunswick. The pamphlets sent dealt with tourist interests, natural resources, picturesque features, geographical features, industries, commercial facts, history, and sports. The literature, the librarian said, was to be placed on one of the tables in the library for ready and handy reference.

TWO W. C. T. U. MEETINGS.

The W. C. T. U. held two meetings yesterday, the regular meeting in the afternoon and a parlor meeting at the residence of Mrs. Porter, 31 Prince Edward street. Mrs. David Hipwell presided at both. In the afternoon Mrs. Hope Thompson gave an interesting report of her hospital visits and a sum of money was voted to her to carry on this important work. A general religious talk followed. At the evening meeting Mrs. Hipwell spoke helpfully of "Reverence," pointing out the difference between the reverence felt for the House of God in

The Value of Time
By Krónos

Painted by HAROLD DELAY

"TIME," cried Plato to the men of Athens, "is the gift of the gods—the movable image of Eternity!"

Plato saw Time as the great companion, guiding human life through the fleeting years to its home on "the luminous slopes of the stars."

"The Creator," he said, "brought into being the sun, earth, moon and the five other stars we call planets, to distinguish and safeguard the apportionment of Time. To this universe He allotted souls equal in number to all the stars in the heavens—that each soul, after living out his appointed Time, might return to his own star."

From this Year of our Lord 1922, with its watchwords of "Efficiency" and "Power of Will" as guideposts to success, the historians trace back to Plato the first definite expression of the Will-Plan of life.

He who would lay hold on his life, dominating instead of drifting, must lay hold on Time—by resolutely safeguarding the golden hours of Now.

"Time was is past; thou canst it not recall. Time is thou hast; employ thy portion small. Time future is not; and may never be— Time present is the only Time for thee!"

Over the Time of the ancients, the sun and moon kept watch. But the Twentieth Century, more richly endowed, intrusts life's chiefest possession to those marvels of accuracy which bring to us the accumulated experience of all the ages—

her childhood days and the casual manner in which it is regarded today. Miss Marguerite Collier gave a temperance recitation entitled "The Face on the Bar-room Floor." Mrs. Seymour gave a reading entitled "A Little Pilgrim, or Jesus Paid the Fare," and Mrs. W. H. Humphrey read a paper entitled "The Heart of a Stranger." In the discussion of this paper it was suggested that all mothers should have a watch-tower or quiet place for prayer, and Mrs. H. N. Lawson related how a mother's prayers had sustained a daughter. Two needy cases were spoken of and relief measures discussed.

**MORE NEWSPAPER
ADVERTISING NEEDED**

Montreal, April 11—Speaking before the Association of Canadian Advertisers here today, R. W. Ashcroft, assistant to President Rider of the Ames-Holden-McCreedy, Limited, put up a strong plea for newspaper advertising as a vital sales aid. He said that it was as necessary to the successful distribution of a trademarked piece of merchandise as food, raiment and shelter are to the well-being of an individual.

Word was received yesterday, by a member of the Coburg street Christian

church, that Rev. G. W. Titus, a former resident of this city, had accepted a call to that church. Mr. Titus, who is at present in England, is a native of Ireland, was formerly pastor of the Coburg street church, and is a member of the Coburg street Christian church.

ST. GEORGE'S DAY PLANS.

Arrangements for the honoring of England's patron saint on St. George's Day were completed at the regular quarterly meeting of the St. George's Society last evening, with the president, Dr. James Manning, in the chair, and with one of the largest attendances in the history of the society. The organization will attend divine service in the Mission church on that day, and the special preacher will be the society's chaplain, Rev. John V. Young. On the following day the society will observe the occasion by a dinner at the Union Club. Several new members were elected to the society last evening. After the business session, the company listened to an entertaining programme by the concert party from the Melita. Refreshments were served towards the close.

Adila Temple, D. O. K. K., held their regular business meeting last evening in the K. of P. castle, matters of a routine nature coming before the meeting. Grand Chancellor James S. Lord, of St. Stephen, head of the New Brunswick Pythians, was an honored guest.
