impresses him by its earnestness and idearism. Mr. Dibdin has just returned after a visit to the Toronto exhibition which furnished him with several surprises. Like many other visitors from this country he was impressed with the dimensions of the exhibition, which was unique in his experience. He was also surprised to find how rich Montreal was in private collections of paintings and to note the fine sense of discrimination of the owners.

In Toronto, too, he found remarkably good collections, notably that of Sir Edmund Walker. Among the most representative of Canadian artists he places W. Brynmer, Robert Harris, Homer Watson, E. Wyly Grier, G. A. Reid, Robert Gagen and Archibald Browne.

Mr. Fielding left last evening for Montreal.

# The Crisp, Tasty Toast

Food science has taught us that there is much body-building nutriment in the whole wheat grain which we do not get in white flour. The only question is how to make the whole wheat grain digestible. That problem has been solved in the making of

the shredded whole wheat wafer.

It is the whole wheat, steam-cooked shredded, compressed into a wafer, and baked—the maximum of nutriment in smallest bulk. Many people prefer it to ordinary bread toast. Heated in the oven to restore its crispness it is delicious for luncheon, or for any meal, with butter, potted cheese or marmalades.

Berlin, Sept. 27—The Kaiser is the latest to lift a complaining voice against the high wages paid on the American stage. It has been a long standing grievance of European managers to see their best artists lured away by the longer American purses, and the Kaiser, as the owner of the Royal Theatre, is in the same boat with the more humble impressarios.
