C. C. M. Steel
Ankle Support

When properly fitted—and with a little care
this can be done—C. C. M. Steel Ankle Support
immediately relieves the strain and tired
feeling. They hold the ankle in proper position
and give better control, thus improving
skating. The hinge and sliding attachment
allows the ankle to bend freely forward or
backward, but it cannot bend sideways. No
tight lacing or straps around the ankles to
interfere with the circulation.

Sizes for Ladies, Men, Boys and
Girls Per Pair \$1.25

Comparative Sizes of Shoe and Skates

There is a noticeable variation between the shoes of different
manufacturers. The best way is to select the shoes first and have
the skates fitted to them.
