A BLIND HORSE RACING WITH A TRAIN.

When the four o'clock train on the Cayuga Lake road whistled at McKinney's yesterday afternoon, says a recent number of the Ithaca (N. Y.) Journal, the noise frightened a horse standing in the yard connected with Wortman & Bates's slaughter house, and the animal dashed away with the skeleton wagon to which it was attached. In wheeling around to get out of the yard the wagon was overturned, and with it in this position the horse, which is blind, made direct for the railroad track, and with great speed continued to run toward town, dragging the wagon along the road bed. Just as the horse got upon the track the train appeared in view at the curve a short distance north of the slaughter house, and for a few minutes it looked as though everything was up with the poor beast. But on it run, crossing cattle guards and culverts with as much precision as though it were possessed of sight and the dangerous road a familiar one. The engineer succeeded in reversing the locomotive before overtaking the horse, although running down grade, and at Quick's slaughter house the runaway was stopped and led down from the track.

JAMES SMITH AND JUSTICE HOLROYD.—Formerly, in England, it was customary, on emergencies, for the judges to swear affidavits at their dwelling houses. Smith was desired by his father to attend a judge's chamber for that purpose; but being engaged to dine in Russell-square, at the next house to Mr. Justice Holroyd's, he thought he might as well save himself the disagreeable necessity of leaving the party at eight, by despatching his business at once; so a few minutes before six, he boldly knocked at the judge's, and requested to speak to him on particular business. The judge was at dinner, but came down without delay, swore the affidavit, and then gravely asked what was the pressing necessity that induced our friend to disturb him at that hour. As Smith told his story, he raked his invention for a lie, and finding none fit for his purpose he blurted out the truth:—"The fact is, my Lord, I am engaged to dine at the next house—and—and—" "And sir, you thought you might as well save your own dinner by spilling mine?" "Exactly so, my Lord; but—" "Sir, I wish you a good evening."

WHAT PAYS?

IT PAYS every Manufacturer, Merchant, Mechanic, Inventor, Farmer, or Professional man, to keep informed as to the improvements and discoveries of the age.

IT PAYS THE HEAD OF EVERY FAMILY to introduce into his household a newspaper that is instructive, one that fosters a taste for investigation, and promotes thought and encourages discussion among the members.

The Scientific American

which has been published weekly for the last thirty years, does this, to an extent beyond that of any other publication; in fact it is the only weekly paper published in the United States devoted to MANUFACTURES, MECHANICS, INVENTIONS and NEW DISCOVERIES in the Arts and Sciences.

Every number is profusely illustrated and its contents embrace the latest and most interesting information pertaining to the Industrial, Mechanical, and Scientific Progress of the world. Descriptions, with beautiful Engravings of New Inventions, New Implements, New Processes and Improved Industries of all kinds: Useful Notes, Receipts, Suggestions and Advice by Practical Writers Workmen and Employers, in all the various arts forming a complete history of New Inventions and Discoveries containing a weekly record, not only of the progress of the Industrial Arts in our own country, but also of all New Discoveries and Inventions, and every branch of Engineering, Mechanics, and Science abroad.

THE SCIENTIFIC AMERICAN has been the foremost of all industrial publications for the past thirty years. It is the oldest, largest, cheapest, and the best weekly illustrated paper devoted to Engineering, Mechanics, Chemistry, New Inventions, Science and Industrial Progress, published in the world.

The practical Receipts are well worth ten times the subscription price, and for the shop and house will save many times the cost of subscription.

MERCHANTS, FARMERS, MECHANICS, ENGINEERS, INVENTORS, MANUFACTURERS, CHEMISTS, LOVERS OF SCIENCE and PEOPLE OF ALL "INDUSTRIES," will find the "SCIENTIFIC AMERICAN" useful to them. It should have a place in Family, Library, Study, Office and Counting Room; in every Reading Room, College and School. A new volume commences January 1st, 1877.

A year's number contains 832 pages and several hundred Engravings. Thousands of volumes are preserved for consulting and reference. Terms, \$3.00 a year by mail, including postage. Discount to Clubs. Special circulars, giving Club rates, sent free. Single copies mailed on receipt of 10 cents. May be had of all News Dealers.

PATENTS. In connection with the SCIENTIFIC AMERICAN, Messrs. MUNN & CO. are Solicitors of American and Foreign Patents, and have the largest establishment in the world. More than fifty thousand applications have been made for patents through their agency. Patents are obtained on the best terms. Models of New Inventions and Sketches examined, and advice free. A special notice is made in the SCIENTIFIC AMERICAN of all Inventions Patented through this Agency, with the name and residence of the Patentee. Patents are often sold in part or whole, to persons attracted to the invention by such notice. A pamphlet containing full directions for obtaining Patents, sent free. THE SCIENTIFIC AMERICAN Reference Book, a volume bound in cloth and gilt, containing the Patent Laws, Cases of the U. S., and 142 Engravings of mechanical movements. Price 25 Cents.

VINEGAR BITTERS

Dr. J. Walker's California Vinegar

Bitters are a purely Vegetable preparation,

made chiefly from the native herbs found

on the lower ranges of the Sierra Nevada

mountains of California, the medicinal

properties of which are extracted therefrom

without the use of Alcohol. The question

is almost daily asked, "What is the cause

of the unparalleled success of VINEGAR

BITTERS?" Our answer is, that they remove

the cause of disease, and the patient recov-

ers his health. They are the great blood

purifier and a life-giving principle, a perfect

Renovator and Invigorator of the system.

Never before in the history of the world has

a medicine been compounded possessing

the remarkable qualities of VINEGAR BITTERS

in healing the sick of every disease man is

heir to. They are a potent Tonic, as well

as a Tonic, relieving Congestion or In-

flammation of the Liver and Visceral Organs,

in Bilious Diseases.

If men will enjoy good health, let

them use VINEGAR BITTERS as a medicine,

and avoid the use of alcoholic stimulants

in every form.

H. M. McDONALD & CO.,

Druggists and General Agents, San Francisco, California,

and cor. Washington and Clinton Sts., New York.

Sold by all Druggists and Dealers.

No Person can take these Bitters

according to directions, and remain long

unwell, provided their bowels are not de-

stroyed by mineral poison or other means,

and vital organs wasted beyond repair.

Grateful Thousands proclaim VINEGAR

BITTERS the most wonderful invigorant that

ever sustained the sinking system.

Bilious, Remittent, and Intermit-

tent Fevers, which are so prevalent in the

valleys of our great rivers throughout the

United States, especially those of the Mis-

sissippi, Ohio, Missouri, Illinois, Tennessee,

Connecticut, Arkansas, Red, Colorado, Bre-

zons, Rio Grande, Pearl, Alabama, Mobile,

Savannah, St. John's, and many others,

with their vast tributaries, throughout our

entire country during the Summer and Au-

turn, and remarkably so during seasons of

unusual heat and dryness, are invariably

accompanied by extensive derangements of

the stomach and liver, and other abdominal

viscera. In their treatment, a purgative,

exerting a powerful influence upon these

various organs, is essentially necessary.

There is no cathartic for the purpose equal

to Dr. J. WALKER'S VINEGAR BITTERS, as

they will speedily remove the dark-colored

viscid matter with which the bowels are

loaded at the same time stimulating the

secretions of the liver, and generally restor-

ing the healthy functions of the digestive

organs.

Dyspepsia or Indigestion, Headache,

Pain in the Stomach, Gout, Tightness

of the Chest, Dizziness, Sour Eructations

of the Stomach, Bad Taste in the Mouth,

Bilious Attacks, Palpitation of the Heart, In-

flammation of the Lungs, Pain in the region

of the Kidneys, and a hundred other painful

symptoms, are the offspring of Dyspepsia.

One bottle will prove a better guarantee

of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swell-

ings, Ulcers, Erysipelas, Swelled Neck,

Gout, Scrofulous Inflammations, Indolent

Inflammations, Mercurial Affections, Old

Sores, Eruptions of the Skin, Sore Eyes,

etc., etc. In cases, as in all other constitu-

tional Diseases, WALKER'S VINEGAR BITTERS

have shown their great curative powers in

the most obstinate and intractable cases.

For Inflammatory and Chronic

Rheumatism, Gout, Bilious, Remittent,

and Intermittent Fevers, Diseases of the

Blood, Liver, Kidneys, and Bladder, these

BITTERS have no equal. Such Diseases are

caused by Vitiated Blood.

Mechanical Diseases.—Persons en-

gaged in Paints and Minerals, such as

Painters, Typographers, Gold-beaters, and

Miners, as they advance in life, are subject

to paralysis of the Bowels. To guard

against this, take a dose of WALKER'S

VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter,

Salt Rheum, Blisters, Spots, Pimples, Pus-

tules, Boils, Carbuncles, Ringworms, Scald

Head, Sore Eyes, Erysipelas, Itch, Scurs,

Discolorations of the Skin, Humors, and

Diseases of the Skin of whatever name or

nature, are literally dug up and carried out

of the system in a short time by the use of

these Bitters.

For Female Complaints, in young or

old, married or single, at the dawn of wom-

anhood or the term of life, these Tonic Bit-

ters display so decided an influence that

improvement is soon perceptible.

Jaundice.—In all cases of jaundice, read

assured that your liver is not doing its work.

The only sensible treatment is to promote

the secretion of the bile and favor its re-
