## FOR A FIELD DAY The Y. M. C. A. are Making Preparations.

Some Twenty Different Contests to be Held-Nearly all Handicaps.

Y. M. C. A. is making arrangements for an interesting athletic and cycle tournament here on Wednesday or

tournament here on Wednesday or Thursday afternoon of next week. There will be some twenty events, including jumps, vaults, foot and cycle races, etc. A full and varied program is being arranged.

The events will all be handisapped with considerable care by the committee, thereby giving every contestant in each event an equal chance of winning. Handsome silken badges will be prepared for the victors in the various events, while a valuable en graved silver medal will be presented to the competitor winning the greatest number of points throughout the day.

These events, which will furnish a splendid afternoon's attraction to our citizens, will probably take place on the Peninsular Park, and govern the selection of a Y. M.C. A. team to represent the Maple City in the Gzowski shield competion to be held at Brantford on the 18th inst.

Secretary W. H. Walker, to whom all enteries for these events should be promptly handed, has received the records made by last years champions in this competition, which are as follows: 100 yard dash—Craucher, Brantford, 11 seconds.

High jump—McArthur, West End.

ONE ON DICK.

As Dick Pope was sweeping out his "Woodes Hotel", bar-room one morning recently, "Scotty" McGregor drifted in with a bouquet of flowers in one hand and an exaggerated thirst in the other. "Say Dick," he murmured, "ain't it your blow?" But Dick was busy and couldn't just see it that way. He continued sweeping, unmindful of the appeal, and soon discovered a quarter in the saw-dust at his feet. "Scotty" also sighted it and there was a scramble for the shiner. Dick got it. Another piece of silver showed up. Dick got that quarter as well, and another dime. "Scotty" succeeded in raking in a nickel.

"Well, Jusiness has been good this morning," remarked the proprietor, and people have left me their money just like at a bank. Come and have something with me; never mind your interest their mental that the state of the sta

something with me; never mind your nickel; keep that and epend it again."
Scotty obeyed; and it was not until Dick was at breakfast that he discovered that he had a hole in his pocketand that it was his own coin over the finding of which he and Scotty had jubilated.

Work on the bicycle track from the Grand Trunk to Indian Creek is in progress. Those members of the cycle club who were prominent in the movement to this end are to be congratulated upon the success of their efforts. Beyond Indian Creek the track is in excellent condition to Charing Cross. Very occasionally a wagon track strikes it, but drivers as a rule are careful. When the city end of the work is completed cyclists will be in touch with the good roads of the ridge.

## Races at Blenheim a Success.

MICHIGAN HORSES CAPTURE THE TROTS WHILE THE SPRINT GOES TO A CEDAR SPRINGS HORSE.

Special to The Planet. Blenheim, Sept. 9. - Yesterday's races were a decided success. Splendid weather, good horses, and a fair crowd made the meet a success. A. A. Graves, Port Huron , Mich., acted as starter, while Thomas Brady, Chatham, and Dan, Leach, Ridgetown, ofciciated as judges.

In the running race Ozark had it all his own way and won the first heat hands down. In the second heat his rider was too sure, and Marcellina came on with a rush and won by a head. The following is a summary

Rev. Mr. Murphy Resigns From Ingersoll.

for the Diocese of Huron.

Ingersoll, Sept. 8.—The congregation of St. James' Episcopal church here is without a pastor. Rev. A. Murr hy, the present rector, tendered his resignation at the close of the evening service Sunday night.

The reverend gentleman has spent three years of successful effort as rector of the church, and has made himself thoroughly popular with the citizens of the town as well as beloved by his congregation in a manner attained by few. His resignation came as a complete surprise to his congregation, and they could hardly comprehend the full import of its meaning at the time.

His immediate predecessors were Rev. J. H. Moorhouse, now of Christ's church, London; Rev. R. Kerr, of St.

"THE ARK"

Catharines, and Rev. E. M. Bland, now Canon Bland of the Cathedral of Hamilton.

Canon Bland of the Cathedral of Hamilton.

Mr. Murphy's resignation is caused by his appointment to a larger field of labor, and one in which he will prove eminently successful. He has been appointed by the Bishop as mission preacher for the Diocese of Huron. Mr. Murphy will remain here until his successor is appointed. His present idea is to travel in following his new calling, and not to have a permanent residence.

While the congregation loses an aloquent leader, the loss to the town at large will be fully as great, and if we can, as some have suggested this morning, get the rev. gentleman to make his permanent residence here, the loss will to an extent be lessened. Mr. Murphy feels called to his new field, having often received requests to come at times when he could not well forsake his duties to do so, and while regretting his loss, the congregation are unanimous that he will be in his right sphere as an evangelist.

GREAT ON HONEY.

cialties of Hugh Ma

If one may call a specialty any one article in a complete stock of groceries, where all is fresh and bright, then it may be truly said that Hugh Malcolmson is making a specialty of the best honey that bees can garner.

A prominent position upon the count-A prominent position upon the counters of this establishment is devoted to the honey in question, whose quality is such as to well deserve the place awarded it. White clover honey, extracted or in the comb, is here on sale at lowest figures, and is guaranteed perfectly pure. The extracted befruit was taken from broken combs, and goes at 10c. a pound. In the comb fruit was taken from broken combs, and goes at 10c. a pound. In the comb it is worth 12.1-2c. per box.

This is not honey from strange hives but from hives whose little occupants know and love the white clover patch, and have done their work in a manner to do credit to the firm offering the sweet product to the public.

The quantity of honey this establishment handles is generally advertising it as the great headquarters for house-keepers' supplies.

t Will Soon be Along Edgar Street in Spite of?

Preparations are being made for a granolithic walk on the north side of Edgar street. This walk is to go outside the trees, in spite of Ald. Liddy's kick, and the ditch has been already filled in to receive it, at a cost of about \$300.

The new electric light poles are in position several feet beyond where the proposed walk will be, and the width of the street from post to post will be about eighteen feet when this newest improvement is finished.

It appears that the resolution of the council, by which it was decided to place all new walks outside the trees, does not apply to this street, which is 52 and not 66 feet wide. It further appears that only two ratepayers of the street wanted the walk outside the trees, the others being opposed to it. However this may be Edgar street is left so narrow that few vehicles can turn in it. "I've got to drive a block out of my way now," shouted the driver of an ice wagon this morning, "because I can't turn in this street the way you've fixed it." And others experience the same inconvenience.
