

Mr. F. B. Wood -2

Another is the grouping of several companies who now have producing wells in Turner Valley, and who have expressed a willingness to contribute to the finishing of our well.

You are familiar with our unrelenting efforts to develop the Stoney Indian Reserve, and we believe you will co-operate with us, lending whatever assistance is possible to carry this out.

Will you please present this to the Department, and secure the attention required, as quickly as possible, as we may proceed with our negotiations. It is hardly necessary to explain that to such companies with whom we are dealing is quite impossible.

Yours very truly,

HECTOR GILS LIMITED,

F. F. WOOD,

President.
