SMALL DEALINGS NARROWER SCOPE ON WALL STREET

Rails Under Severe Pressur Because of Attitude of Railway Labor Board.

SLIGHT INTEREST IN SPECULATIVE ISSUES

Call Money Remained at 7 p.c. But Private Funds Available at 6 p.c.

New York, Feb. 10—Business on the stock exchange today was again out tremely sluggish and irregular, the small dealings and contracted scope dending to an unusual degree the absence of initiative from any responsible quarter.

The only constructive feature was turnished by metal issues, that group displaying visible improvement as a result of the fraction of a banking syndicate to market huge stores of copper abroad.

On the other hand rails were at sected to renewed pressure following the announcement that the railro labor board had rejected the application of the railroads for immedia shrogation of the war-time agreement yet another adverse development with publication of the United Stat Steel's tonnage statement for Jar ary, disclosing an additional decrea in unfalled orders of 575,000 to despecial interest attached to deliver a statement of the statement

Such speculative interests as a stated concentrated mainly in the of steels, shippings and several of a steels, shippings and several to consiste strength was shown by Californ Petroleum, which rose steedily, maing a net gain of 2.7.3 points. She coverings was also helpful to rails the firm close. Sales, amounted 375,000 shares.

Money is Cheaper.

The open market was hardly a barometer of actual money conditions, call loans helding, on the stock exchange at seven per cent, while free offerings were made privately at six per cent. British exchange washrm, French, Belgian and Dutch rates were strong and the Swiss and Scandina vian quotations were appreciably better. The Barak of England's weekly report showed a marked strengthinging of liabilities reserves. Total shies:

Bonds, par value, were \$9,450,000.
