and safety.

Sydney Miners Will Fight Any Wage Reduction

Ready to Meet Pres. Wolvin of Dom. Steel Co. in Round Table Talk.

Sydney, N. S., Oct. 25.—"When I talk to Mr. Wolvin I want to talk to him face to face across the conference table. There is nothing to be gained by carrying on a long distance debate in the newspapers," declared J. B. McLachlan, secretary of United Mine Workers of America, district 26, when asked today if he would make a formal reply to the Dominion Steel Corporation president's statement that wages must drop or the coal mines and the steel plants will have to close.

Robert Baxter, district president, re-affirmed McLachlan's former statement that the United Mine Workers will resist any wage cutting, and said: "Mr. Wolvin has apparently been misled by stories in the press that we would ask for general increases when the Montreal agreement runs out. It so he is on the wrong tack, as we will ask for no increase, although ready to resist reductions. Mr. Wolvin's statement seems to me unwise in that it will seriously hamper our negotiations which must open next month."

"I wish to take issue with Mr. Wolvin's statement that fifty per cent of the miners of the United States have taken wage reductions. President J. L. Lewis has stated positively that no wage reductions will be accepted by the American mine workers."

RUSSIANS HAVE ONLY HATE FOR FRENCH PEOPLE

Graudenz Finds Reds Very Cordial to All Americans Coming Their Way.

By JOHN GRAUDENZ.
(United Press Staff Correspondent.)
Moscow, Oct. 25.—"American correspondents" was all that was necessary in Moscow to open almost every door before us.

Be it a tramcar conductor or the sentry at the door, the shopkeeper or the population in general in the streets the Americans are the highest estimated foreigners in Moscow. Partly this is due to the announcement of the government papers that the Americans were the first and about the only people who came immediately to the rescue of the famine stricken sections without first investigating whether there really was a famine at all in Russia.

The French are today perhaps the most hated in Russia.

"Beecham" (one moment) might mean from a minute to a month, or even longer than that. Four American correspondents arriving at Moscow made their first acquaintance with the word while waiting for an hour at the Moscow station after the official courier, who had accompanied them from Riga to Moscow, left us there with the word "Beecham" behind.

Major Carroll of the A. R. A., too, had quite a few lessons of the real meaning of the word, whether it was the cleaning of the house for his residence and offices, the organization of his food train or for the arrival of the food itself from Riga. This, however, was partly caused through the delay at the Latvian side. Nevertheless, the Russians remarked admiringly

OLD FLAG OUT—WAVES NEW ONE IN GERMANY

Black, White and Red of Former Empire Most Popular Throughout Country.

Berlin, Oct. 25.—The black, red and gold flag of the German republic is less in evidence than any other of the dozen or more official emblems which wave from houses of every town and city of the country. The most popular banner is the black, white and red of the former empire.

In some provinces and in a number of towns the republican flag has never been flown, is not recognized, and cannot be purchased.

Even in Berlin, seat of the Government, the flying standards of the empire outnumber those of the republic, which appear generally to be restricted to necessary official use or to popular demonstrations in favor of the new regime. The red flag of the Communists usually flies side by side with the republican colors during any popular parade or manifestation.

In some quarters this situation has caused agitation against monarchical propagandists and here and there has resulted in fights between the police and adherents of the monarchy or between monarchists and republicans, but on the whole it has passed unnoticed.

The only definite effort to prevent the use of the flag of the republic has come from the mercantile interests, which are strenuously seeking authority to retain their old colors—the flag of the empire with the outline of an iron cross in the upper right hand corner. It is argued this flag was known in nearly every port of the world before the war and that

Storm of Marked Intensity Moving East North East

U. S. Weather Bureau Announces Severe One Central Over Eastern Kansas.

Washington, Oct. 25.—Advisory northeast storm warnings were ordered on lakes Superior, Michigan, Huron and Western Erie late today. A storm of marked intensity which is central over Eastern Kansas the weather bureau said, will move east-northeastward attended by increasing easterly winds becoming strong and probably reaching gale force late tonight or Wednesday, accompanied by rain.
