HOW TO GET RID OF RHEUMATISM

"Fruit-a-lives" Point the Way to Quick Relief

VERONA, ONT.

"I suffered for a number of years with Rheumatism and severe Pains in my Side and Back, caused by strains and heavy lifting.

When I had given up hope of ever being well again, a friend recommended 'Fruit-a-lives' to me and after using the first box I felt so much better that I continued to take them; and now I am enjoying the best of health, thanks to your wonderful fruit medicine."

W. M. LAMPSON.

"Fruit-a-lives" are sold by all dealers at 50c. a box, 6 for \$2.50, trial size 25c.—or sent postpaid by Fruit-a-lives Limited, Ottawa.

OPERATIVE EXPERIMENTS IN WEED ERADICATION

This experimental work was commenced in 1912 and has been conducted now for seven successive years. The object of this work is to have carried on by men on their own farms experiments in the eradication of weeds, the results of which will furnish data from which definite information may be obtained regarding the best methods of controlling the various troublesome weeds of the Province. Before the results of these experiments began to accumulate there was very little or no definite knowledge concerning the eradication of weeds.

The weeds experimented with are: Perennial Sow Thistle, Twitch Grass, Bladder Campion or Cow Bell, Wild Mustard, Ox-eye Daisy, Field Bindweed or Wild Morning Glory, Wild Oats and Chess.

Each spring leaflets are sent out to numerous farmers of the Province inviting all who have any of these troublesome weeds on their farms to co-operate with us in this work and try the experiment outlined for the particular weed which is giving them trouble. Application forms for the experiments accompany the leaflets. To those who fill in these and return them detailed directions for the carrying out of the experiment selected are sent and in the fall they are supplied with blank forms on which to report the results of their work.

In the past seven years (1912-18) over sixty farmers have co-operated in this work and some valuable information has been obtained. It may be briefly summarized as follows:

1. That good cultivation followed by rape sowing in drills provides a means of eradicating both Perennial Sow Thistle and Twitch Grass.

2. That rape is a more satisfactory crop to use in the destruction of Twitch Grass than Buckwheat.

3. The thorough, deep cultivation in the fall and spring, followed by a well cared for hoed crop, will destroy Bladder Campion.

4. That Mustard may be prevented from seeding in oats, wheat and barley by spraying with a 20% solution of iron sulphate without serious injury to the standing crop or to fresh seedlings of clover.

The following are the experiments outlined for this year.

1. The use of rape in the destruction of Perennial Sow Thistle.

2. A system of intensive cropping and cultivation, using winter rye followed by turnips, rape or buckwheat, for eradicating Perennial Sow Thistle.

3. The use of rape in the destruction of Twitch Grass.

4. A method of cultivation for the eradication of Twitch Grass.

5. Method of cultivation for the eradication of Bladder Campion or Cow Bell.

6. Spraying with iron sulphate to destroy Mustard in cereal crops.

7. A method of cultivation for the destruction of Ox-eye Daisy.

8. A method of cultivation and cropping for the suppression of Field Bindweed or Wild Morning Glory (requires two years to compete).

9. A method of cultivation and cropping for the eradication of Wild Oats (requires two years to complete).

10. A method of cultivation for the destruction of Chess.

All who have any of these weeds on their farm are invited to join with us in this work. By so doing they should be able to clean the field of the weed experimented with and demonstrate to their own satisfaction the effectiveness of the method tried and at the same time their results will be of great value to others. Full information can be obtained concerning these experiments by writing to the director of Co-operative Weed Experiments, Ontario Agricultural College, Guelph.

The cut in Hydro power rates will save London consumers \$20,000 a year.

Cure That Cold Don't Get Grippe

You know how quickly Zutoo tablets cure headache and break up colds—how soon they allay the fever. Take them at once when you feel the first pain or shiver—the first symptom of a cold.

Taken then, they will prevent the Grippe. Taken after it has developed, there is nothing better for the pain and fever.

Take Zutoo

A GILT-EDGED TRADE FOR CANADA IN 1919

Tourist "trade" gives quickest returns for service of any commerce any land can undertake. Payment, cash "on the spot" is for exactly those things which the people produce and originate themselves. In that sense tourist traffic forms a most valuable national asset of "gilt-edged import" of practically nothing but dollars.

It is an aspect of Canadian trade which must not be overlooked in this year of difficult re adaptation to peace conditions.

The Trade Adviser of the Pan American Union, an international organization maintained by the twenty Latin-American republics and the United States for the development among other things of friendly intercourse, writes to the Canadian Trade Commission as follows:

"I am inclined to think that all parts of Canada could receive thousands of tourists from the United States during the coming summer if special efforts were made by the Dominion to let it be known generally in this country that Canada wants tourists to come. Possibly articles in journals and magazines, calling special attention to the delightful climate of Canada, the fishing possibilities, the scenery and other attractions would induce more than usual thought being given to that country.

Our people who may be a bit more settled than during the war years "wish to go somewhere," and as they cannot go to Europe, or Mexico, and as South America is too far away and passports too difficult to obtain, our own western country and Canada then become more or less Mecca.

Canada's Asbestos Output

The production of asbestos in the Dominion has increased very greatly during the past four years, and average prices in 1918 were about three to four times those of 1914, as shown by the preliminary report on the mineral production of Canada during 1918, issued by the Department of Mines. The total value of the shipments of asbestos and asbestine in 1918 was \$8,970,779, as against \$7,230,383 in 1917. A total of 3,074 men were employed in 1918 in the asbestos industry, and the total wages paid were \$2,871,643.

Of Interest to Bakers

Bakers will be interested to know that one of the benefits instituted by the Canada Food Board under the licensing system is to be continued as a private undertaking. This is the educational side of baking, in which an effort was made to improve the standard of bread-making by applying latest knowledge of processes and methods. Mr. W. H. Linn, late Chief of the Bakery Section of the Food Board, is now consulting and advisory taking expert at Ottawa, and will deal with any trade difficulties.

Forest Destruction in War

A recent survey by Percival Ridsdale, Secretary of the American Forestry Association, shows that there are some 1,500,000 acres of forest lands in France destroyed by the Germans, or about ten per cent of the total standing timber in that country. But he found that in England no less than 450,000 acres have been deliberately destroyed by Englishmen themselves, and this means no less than half the total standing timber in that country. Even the venerable giants in Windsor Park were leveled, and the seven thousand acres of the Park would have been laid bare had not fire destroyed the Canadian sawmill there just before the remaining trees were reached.

GLYCERINE MIXTURE FOR APPENDICITIS

Carleton Place people can prevent appendicitis with simple buckthorn bark, glycerine, etc., as mixed in Adler-ika. ONE SPOONFUL flushes the ENTIRE bowel tract so completely it relieves ANY CASE sour stomach, gas or constipation and prevents appendicitis. The INSTANT, pleasant action of Adler-ika surprises both doctors and patients. Leaves stomach clean and strong. W. J. Hughes, druggist.

It Made a Difference

A noted physician particularly expeditious in examining and prescribing for his patients was sought out by an army man whom he "polished off" in almost less than no time. As the patient was leaving he shook hands heartily with the doctor and said: "I am especially glad to have met you, as I have often heard my father, Colonel Blank, speak of you." "What!" exclaimed the physician, "are you old Tom's son?" "Certainly," "My dear fellow," cried the doctor, "fling that infernal prescription in the fire and sit down and tell me what is the matter with you."

Will Meet in Canada

The National Fire Prevention Association, which has a large membership in both Canada and the United States, will hold its annual meeting about the middle of May. It is due to the efforts of the Commission of Conservation that the association is to meet in Ottawa, according to officials of the commission. At the meeting the whole question of fire prevention will be discussed by experts and further measures will be taken in the interest of reducing fire losses, it is stated.

Rev. Dr. J. H. Hazlewood, of Toronto, died suddenly.

Robinson Crusoe had just rescued the savage from the cannibals. "Whatever they do they shan't touch a bit of meat on Friday!" he exclaimed, having already thought up a suitable name for his dark complexioned protege.

SUMMARY OF NEWS

Hydro rates are to be reduced in fifty municipalities.

The C.T.C. slogan for Canadian men and women is: "Buy Made-in-Canada goods."

Goodwins Limited, Montreal, had an increase of \$34,000 in net profits in the past year.

The Mayor of Sudbury gave the casting vote in the Council against daylight saving.

The Canadian Pacific Ocean services will resume in May a service of freight steamers to Antwerp.

Federal Ministers have intimated that they realize that the Hudson Bay Railway must be completed.

Seventy-eight Canadian officers and men of the Siberian Force have arrived at Vancouver, invalided home.

Mrs. A. Hamilton Gault has obtained in a French court a divorce from Lieut. Colonel A. Hamilton Gault, organizer of the P.C.L.L.

The Ontario Government brought in the supplementary estimates, which provide for increased improvements in rural schools.

Mr. C. O. Stillman, Vice-President of the Imperial Oil Company, has been appointed President to succeed the late Hon. W. J. Hanna.

A new Jewish synagogue was opened in Welland, and \$1,400 was received by auctioning off certain privileges in connection with the ceremonies.

The Orange Order in Hamilton has decided to allow no more public dances in the Orange Hall, on the ground that the order is a religious institution.

Saskatchewan's bond issue of \$3,000,000 was sold to R. C. Matthews & Company and Amelius Jarvis & Company, whose tender was on a 5.41 per cent. basis.

The preliminary peace treaty will require Germany to make an immediate indemnity payment on account of 25,000,000,000 francs in cash and raw material.

The Mayor and an ex-Alderman of Kitchener have been served with summons for contempt of court in alleged failure to carry out an order to abate a nuisance.

To conserve bird life for economic as well as sentimental reasons, the Canadian Government is offering prizes to school children for bird-houses and photographs of birds in their habitat.

Mayor Booker of Hamilton was advised that practically all Ontario is under daylight saving through an Ontario statute which makes time east of 80 degrees west longitude five hours later than Greenwich time.

As women make 90 per cent. of the purchases for the homes, their action in this is the most important single factor in righting our adverse balance with the United States. "Buy Canadian goods and products" is the recommendation of the C.T.C.

As the Boys Come Home

"I understand that you have taken on a number of returned soldier boys to work here on the farm."

"Sure I did. I needed help and it was a patriotic thing to do."

"How is the scheme working out?"

"Fine, I have my son blow on a bugle at 5 o'clock every morning, and the girls dress up as Red Cross nurses and I named every rock and stump in that fresh ground over there after some German general."

Rather Different

Some time ago a resident in Dublin entertained an old Presbyterian minister, who was rather short sighted, and loved to prattle about the city by himself.

On returning home one evening, his host found him reading the Bible and muttering to himself:

"Very strange. Remarkably strange! I have read Genesis XXX through three times and fail to find the allusion."

The host naturally enquired what was troubling his visitor.

"Why I cannot understand why so many of the shops have the reference Genesis XXX inscribed upon them. I have seen it everywhere, even on barrels."

Light dawned on the host at last.

"Oh!" he explained laughingly. "You mean Guinness's XXX!"

BEECHAM'S PILLS

Keep the stomach well, the liver active, the bowels regular, and the breath will be sweet and healthy. But let poisons accumulate in the digestive organs, the system becomes clogged, gases form in the stomach and affect the breath.

Correct

these conditions with Beecham's Pills. They promptly regulate the bodily functions and are a quick remedy for sour stomach and
