Department of Municipal Commissioner.

WINNIPEG,

August 3rd, 1922.

W. R. Grieve, Esq.,  
Secretary-Treasurer.,  
City of Portage la Prairie,  
Portage la Prairie, Man.

Dear Sir:-

-Re Sewer Outlet-City of  
Portage la Prairie.

I enclose you herewith a copy of a communication addressed by R. W. McKinnon, District Engineer, Department of Public Works, to Mr. Bowman, Chief Engineer, in that department, relative to the dangerous conditions of the sewer outlet into the bed of the Assiniboine River in your City.

You will note the observations of Mr. McKinnon to the effect that unless something is done immediately to overcome the existing conditions a menace will be created involving the public health of your citizens.

In view of the fact that the Dominion Government is largely responsible for the conditions by excavating the overflow channel in the narrow part of the loop, I think that it should take prompt steps in order to remedy the existing dangerous conditions.

Will you be kind enough to see that some action is taken in respect to this matter at the earliest possible date.

Yours truly,

SGD. E. M. Wood

Deputy Municipal Commissioner
