WANTON CRUELTY

Man on Head St. Said to be Indulg ing in an Inhuman Destruction of Robins-Should be investigated.

If current rumors are correct, and there seems to be no doubt of it, there is a case of wanton cruelty to birds going on in North Chatham, near the Wagon Works. The case is at least worthy of investigation from the Humane Officer. It is said a certain resident of Head St., who owns some cherry trees, claims to have a permit to protect his fruit from the ravages of the robins. He has therefore purchased an air rifle and amuses himself by sitting out in his back yard, picking off the robins as they appear. Every man has a right to protect his fruit, but it is claimed that the man in question does not kill the birds outright, and several of them are hopping helplessly around on the flats of the river with broken wings and broken legs. A man who has interested himself somewhat in the case is Geo. Shea, who has the contract for piling staves and headings in the flats near the above mentioned man's cherry, threes. Mr. Shea and his men have several times had narrow escapes from being hit by the bullets that miss their intended mark, and Mr. Shea also is loth to see such wanton cruelty prevail under his very eyes. It is expected that a complaint will be made to the police.

The new primany asked the Council. of the chief movers in the concern. The new company asked the Council to grant them an exclusive franchise for 40 years, and, upon motion, this was passed by the Council Monday evening. Last night, however, the Council resoluted that motion and passed another resolution grant-ling them a franchise—net exclusive—for 50 years.

"I don't know what our people will think of this proposition," said Mr. Kipp. "In fact it is doubtful if they will entertain it at all. I do not think we were asking too much in a

QUESSING HIS WEIGHT

Tis said that a well-known barrister, quite a celebrity in footracing circles and very popular with
all lovers of good, clean, healthy
athleticism, has generously purchased a box of cigars for a physician and business man as the reauti
of a practical joke, of which he
laughingly claims he was the goodhumored victim,

The burrister had challenged all
and sundry to a fat man's race.
Four had entered the lists and ther
was much speculation as to their respective weights. Several guesses
were made on the results and the
barrister laughingly promised to

Rev. Mr. Rutledge wife and family errived in the city at noon to-day on the C. P. R. They were met at the depot by several members of the Ladies Aid of the Park street church and conducted to their new abode, the parsonage, Dufferin avenue.

The young son of Hugh Montgomery, of Oungah, sustained a severe injury the other day. He was playing sround the house when he fell and it was some time afterwards that he was found by his mother. The Ittle fellow's hip was badly fractured.

Segood-naturedly did he take the scales with the result that the guitleman in question, who is a thorough sportsman, insisted on doing the generous to his friends who are now all smoking fine perfectos. He has since found out that he was the victim of a practical joke and that a friendly physician again had his foot on the scales.

So good-naturedly did he take the discovery that he forthwith duplicated his generosity and a second box of Havanas was the result.

His friends all vote the barriater a genuine devotee of healthy athleticism and a prince of good fellows. If you don't believe it, ask him,
