OUTLOOK PROMISING

Oats Will Occupy 11,427,000 Acres, Increase of 1,365, 500, or 13 Per Cent.-Other Field Crops Make Only a Fair Showing With Some Increases and a Few Decreases

Ottawa, June 14.-A press bulletin issued by the Census and Statistics Office is of special interest as ngland's imports and experience and two years ago siving the preliminary estimate of the area sown to grain crops in Canada for the present season and the condition of these crops on May 31, as reported by correspondents. The reports received show that in the Maritime Provinces cold and rainy weather the Maritime Provinces cold and rainy weather during, May delayed farmwork, and at the end of the month a good deal of seeding had still this couple of month a good deal of seeding had still the completed.

In Quebec and Ontario cold winds and frost, coming after the exceptionally warm weather of April, retarded growth. In these provinces the frosts in-jured pastures, but did little damage to vrain crops. In the Northwest provinces growth was checked somewhat by cold and fosty nights, but, on, the whole, conditions continue to be favorable. In some parts of Manitoba and Saskatchewan the need of rain was condition of the grain crops was generally favor-

Areas Sown to Wheat.

able

Wheat is estimated to occupy this year a total area of 12,896,000 acres, which is more by 1,652,500 acres. or 14.8 per cent, than the area sown for 1911, and corrested in 1914 the area sown for least and their decreased orders naturally affect the harvested in 1914 the area sown for least and their decreased orders naturally affect the more by 2,592,100 acres, or 25 per cent, than the area sharvested in 1914, the area sown for last year having been reduced by 939,600 acres, the estimated aggregate of total failures through the winter-killing of fall wheat (211,500 acres) and through drough; affecting spring wheat (728,100 acres). Not only is the wheat area this year, under the double stimulus of tary of the Northwest Grain Dealers' Association to patriotic impulse and high prices, 25 per cent in excess of last year's harvested area; but it is also the largest area ever sown to wheat in Canada.

As previously reported the area to be harvested of fall sown wheat is 1,208,700 acres, the balance of 11,-687,300 acres having been sown this spring. Whilst every province shows an increase in the wheat area it is the three Northwest provinces which preponderate in the national effort to produce more wheat. The total area sown to wheat in these provinces is 11,-659,700 acres, an increase over last year's harvested area of 2,324,300 acres, or 25 per cent. In Manitoba the area is 3.166,900 acres, an increase of 21 per cent.: in Saskatchewan it is 6,642,100 acres, an increase of 24 per cent., and in Alberta it is 1,859,700 acres, an increase of 35 per cent. Rather more than half of London, June 14.—Stock markets inactive. Convince of Saskatchewan.

Other Field Crops.

Oats are estimated to occupy a total area in Canada of 11,427,000 acres, an increase over last year's harvested area of 1.365,500 agres, or 13 per cent, barley 1,518,400 acres, as compared with 1,495,600 acres last year, rye 106.440 acres against 111.280 acres, peas 189.470 acres, compared with 205.950 acres, mixed grains 453,000 acres, against 463,300 acres, hay and clover 7,788,400 acres, against 7,997,000 acres, and alfalfa 94,480 acres, against 90,385 acres

FIRST CAR OF NEW MAKE BUTTER SHIPPED TO VANCOUVER

Over 30,000 Pounds of Butter Being Manufacturer Weekly by Fifteen Creameries—Last Year Was

The first car of butter to be shipped by the dairy branch of the Department of Agriculture of the Pro-vincial Government was sent out last week over the C. P. R. to Vancouver.

At the present time about 30,000 pounds of butter are being manufactured weekly by the fifteen cream-(Exclusive Leased Wire to Journal of Commerce)

New York, June 14.—Primary grocery markets were comparatively quiet during the week, but prices were steady. Sales of raw sugar to refiners and other interests did not exceed 200,000 bags, but in spite of the fact that there were offerings of Parto, Rico's year over last.

Last year the first car of butter shipped outside of

the Province was sent out on April 21. Two more creameries have been added to the list now operated by the department. One is located at the demand may receive must come from export is expected that within a law and a construction. The other is the Canora creamery which has heretofore been run by a private concern.

The Canora creamery was taken over on May 24 some sugar available at a cents, but the larger part of the trade was firm at the list price. The demand for withdrawals on contracts improved considerably for the creameries, they show a total increase over during the week, owing to the warm weather.

The spot coffee market was dull and featureless of grain led the farmers to the elevators with their stail increase over last years' output of ten per cent. The high prices of grain led the farmers to the elevators with their stail increase over last years' output of ten per cent. was a scarcity of feed in several districts it was thought that the creameries would not have much cream to handle. Through the propaganda in favor

induced to pay greater attention to mixed farming, with the result that the dairy department has been forced to extend its sphere of activities. Commissioner Wilson states that at the height of the season the Department expected to handle a weekly output of from 80,000 to 100,000 pounds of
