Fertilize the Whole Field

ONE great feature of the McCormick spreader is that it fertilizes every particle of soil, spreading an even coat of manure, light or heavy as desired, up hill or down.

This evenness of spreading is due to McCormick design. The reversing apron is driven by a worm feed which maintains the same relative speed of apron to beater at all times. The manure is thus fed steadily to the beater, which tears it into small pieces and delivers it to a spiral beater. The spiral gives the manure a second beating, makes the pieces still smaller and spreads evenly beyond the wheel tracks. Each particle of the soil is thus properly fertilized, and the whole field put in condition to produce a bumper crop. No manure is wasted. A McCormick spreader makes twenty loads do the work of forty spread with a fork.

McCormick spreaders are made in three sizes. No. 8 is a 49-bushel machine; No. 5, 55 bushels; and No. 6, 63 bushels. All are of the popular low type, with narrow boxes, cut-under front wheels, and strong steel frames.

See the McCormick local dealer, or write the nearest branch house for catalogue and full information.

4 months free driving!

FOUR whole months of driving at no expense to you for repairs or tires. Four whole months in which there will be no depreciation in your car. This is exactly what will happen when you equip your Ford Car or Ford One Ton Truck with Hassler Shock Absorbers. They mean a saving of at least 30%—in all of these costs—the equivalent of four months of driving. Hasslers accomplish these things so easily because they protect the vital parts of the machine from road shocks and vibrations. It doesn't seem like the same car—and you'll say that Hassler Shock Absorbers far more than pay for themselves in improving the riding qualities. They will convert your Ford into an easy-riding, comfortable car for any purpose—more satisfactory—more economical—a machine that will last two or three years longer. You can satisfy yourself regarding the value of Hasslers without risking a penny.
