## GOVERNMENT ANALYSIS

LABORATORY OF INLAND REVENUE,  
OFFICE OF OFFICIAL ANALYST,  
Montreal, April 8, 1895.

"I hereby certify that I have drawn, by my own hand, ten samples of the ST. LAWRENCE SUGAR REFINING CO.'S EXTRA STANDARD GRANULATED SUGAR, indiscriminately taken from ten lots of about 150 barrels each. I have analyzed same and find them uniformly to contain:

99.89 TO 100 per cent. of pure Cane Sugar, with no impurities whatever."

## THOM'S PNEUMATIC AND PROPELLER Elevator Feed Cutter

Patented in Canada and the United States.

OUR machines have filled more silos, twice over, than have been filled by all the other combined families of imitation machines. It's foolish boasting for any firm to say that their machines are the only practical pneumatic cutters on the market. We are the originators and the patentees, and the only safeguard against being humbugged is to see that the machine you purchase is marked "Thom's Patent." Every honest manufacturer in Canada knows that we are the leaders, and that our machines represent all that is latest and best. We guarantee to fill any silo in Canada, we care not what the height may be, at the rate of 8 to 12 tons per hour. And we remind the farmers we make high-grade plows, Riding and Walking. Our latest is the "Ideal" two-furrow gang, for two or three horses, intended to do the work of two ordinary walking plows. Wherever our plows are not already known, special prices to introduce them. Once on the farm they prove a comfort.

The Cream from each Separator was ripened by the use of a pasteurized starter, and contained .65% of acid at the time of churning when tested by Farrington's Alkaline Tablets.
