

**"I wish that I had bought Amatite Roofing. It needs no Painting."**

**W**HY should you buy a roofing that needs to be painted every little while to keep it tight, when, for the same money or less, you can buy Amatite which needs no painting?

Amatite is waterproofed with Coal Tar Pitch, — the greatest waterproofing material known. Water can't get through it. It gives the kind of protection that only the ideal roof can give.

The outer surface is composed of real mineral matter, which makes painting unnecessary.

Can you imagine a better combination for a good, serviceable, economical roofing than coal tar pitch and a real mineral wearing surface?

With an Amatite Roof on your buildings you end your roofing troubles. When you buy a roofing that requires frequent painting you begin them.

Smooth surfaced roofings that require painting are a nuisance and an expense. When you buy them, you buy trouble—not protection.

#### FREE SAMPLE.

We should like to send you a sample of Amatite, so that you can look it over. We know that anyone who will examine the proposition will buy Amatite ten times out of ten. We should be glad to send you this sample and booklet immediately. Write to nearest office.

## Paint That Preserves Farm Buildings

**PURE PAINT** is a sure preservative whether it covers buildings or vehicles or implements or anything else. If you use paint because it is cheap you will just as surely pay dear for it in the end as you would if you fed your stock with a mixture of corn and pumpkin seed.

Paint to preserve buildings must be made up of the right raw materials and mixed with the right skill and machinery to make it durable enough to withstand all severe weather conditions and variation of climate.

Any paint may look well but the only test is **time**. Yes, the old steady sun and the hammering storms will prove that common paint don't preserve.

Next time you're in town ask your dealer for

### Martin-Senour Paint

If he don't sell it drop us a postal and we will send you color cards and prices of one or more of the many good paint things we have ready for your use. Let us tell you all about them in our beautiful booklet "The Home Beautiful." Free upon request. Write to-day.
