**Labatt's India Pale Ale**

Is an excellent nutrient tonic. Physicians desiring to prescribe will hardly find anything superior to this.—*Health Journal.*

"We find that the Ale uniformly well agreed with the patients, that it stimulated the appetite, and thereby increased nutrition. The taste likewise was always highly spoken of. In nervous women, we found that a glass at bedtime acted as a very effective and harmless hypnotic."—*Superintendent of large United States hospital.*

SCIENCE IN COOKING.

It is admitted that cooking to day has become a science. If the food we eat is to do the good intended, it must be properly cooked.

The skilful cook has worked wonders by her skill. But the cook cannot do everything. She must rely on the stove in which the cooking is done. The Souvenir Kitchen Range has combined with science, and given Canadian cooks a stove scientifically constructed, and on which they can rely at all times. It cannot fail.

Souvenirs are sold everywhere. One will last a lifetime. The aerated oven is the great scientific principle of Souvenir Stoves—making them an absolutely perfect cooker.
