

"The Waugh Way Wins"

Steel Stamina

THE efficiency of your drilling operations depends upon the "stamina" of your drill steel.

THE "stamina" of your drill steel depends not only upon the quality of the steel itself but also largely upon the way it is forged.

SUCCESSFUL sharpening depends wholly upon your blacksmith shop being equipped with a sharpener that will always strike true, sharp blows and thus produce the correct shape and preserve the uniformity of the steel structure.

THERE is only one best—the Model 8 Waugh Drill Sharpener. Ask your blacksmith. He knows the Waugh Way Wins.
