#### £++++++++++++++++++++ BRINGING UP FATHER.

When a manager essays to be revolutionary and attempts to offer the public something that is new in the way of theatricals, he is certain to be rewarded provided he of course elects to make his wares come within easy access of the humblest pocket. This does not necessarily mean that he must upset convention and cut prices down to the bone. The public is always willing to pay for the good things in the entertainment line, but it wants that entertainment to be really the best and not a misrepresentation.
