Blood Vessels of the Eye. Purkinje discovered a very simple

and highly entertaining experiment by means of which the retina, with all its veins and blood vessels standing out in relief against it, can be thrown into the air before one's eyes. It is called the aborescent figure, to its likeness to a many branched tree, and is produced in the following manner: In a dark room at night move a candle backward and forward before the eyes. After a few seconds the air will assume a reddish appearance, and running over it in all tions may be seen the veins and blood vessels in bold relief, while toward the center of the figure there rises up a dark trunk, from which the veins branch out on all sides.

The trunk is visible where the optic nerve enters the eye, and this experiment is chiefly interesting to the student as proving that the parts of the retina which actually receive and produce the sensation of light must lie behind the blood vessels, since these cast their shadow on to it and cen be seen as clearly as any other object exter-

They Didn't Interfere. Governor Bob Taylor of Tennesse had a heart as tender as a woman, and the way he pardoned out convicts was something awful. He was waited upon by a committee of the legislature, who

very flatly and in no uncertain way told him that this "wholesale pardoning must stop."
"Gov'ner Bob" looked at the commit tee, tapped a bell, asked for his pardon

clerk and when he came said: "Make out pardons for every man in the penitentiary. The clerk bowed and withdrew. Then the governor looked at the committee, who were staring as if they thought he

was going mad.
"Gentlemen," he said finally, "I am governor of Tennessee, and if this com-mittee or any other ever again seeks to interfere with my constitutional right to pardon I'll sign every one of those pardons which the clerk is making out. Good morning."

### NATURE'S BLE-SING

IS FOUND IN HEALTH, STRENGTH AND FREEDOM FROM PAIN.

This Gift is Meant for All-On It the Happiness and Usefulness of Life Depend-Without it Life is an Existence Hard to Endure.

Health is nature's choicest gift nan and should be carefully guarded, Ill-health is a sure sign that the blood is either insufficient, watery or impure, for most of the diseases that afflict mankind are traceable to this cause. Every organ of the body requires rich, red blood to enable it to properly perform its life-sustaining functions, and at the first intimation that nature gives that all is not well, the blood should be cared for. Purgative medicines will not do this-it is a tonic that is needed, and Dr. Williams' Pink Pills have been proved, the world over to surpass all other medicines in their tonic, strengthening, and health-renewing qualities. From one end of the land to the other will be found grateful people who cheerfully acknowledge that they owe their good health to this great medicine. Among these is

Mr. Elzear Robidoux, a prominent young man living at St. Jerome, Que. He says:-"For some years I was a great sufferer from dyspepsia. My appetite became irregular and everything I ate felt like a weight on my stomach. I tried several remo-dies and was under the care of doctors, but to no avail, and I grew worse as time went on. I became very weak, grew thin, suffered much from pains in the stomach and was frequently seized with dizziness. One young girl who had suffered greatly from this trouble, but who, through the use of Dr. Williams' Pink Pills had fully regained her health and strength, and strongly advised me to try these pills. I was so eager to find a cure that I acted on his advice and procured a supply. From the very first my condition improved and after using the pills for a couple of months I was fully restored to health, after having been a constant sufferer for four years. It is new

in that time I have enjoyed the best of health. This I owe to that greatin that time I have enjoyed the best of health. This I owe to that greatest of all medicines, Dr. Williams' Pink Pills, and I shall always have a good word to say on their behalf."

Through their action on the blood and nerves, these pills cure such diseases as rheumatism, sciatica, St. Witney, desce, indigestion, kidney. Vitus' dance, indigestion, kidney trouble, partial paralysis, etc. Be sure that you get the genuine, with the full name, "Dr. Williams' Pink Pills for Pale People" on every box. If your dealer does not keep them they will be sent post paid at 50 cents a box or six boxes for \$2.50 by addressing the Dr. Williams Medicine Co., Brockville, Ont.

Have something to say; say it, and op when you're done.

KEEP THE BALANCE UP. It has been truthfully said that any listurbance of the even balance of health causes serious trouble. body can be too careful to keep the balance up. When people begin to lose appetite, or to get tired easily, the least imprudence brings on sickness, weakness, or debility. The sys tem needs a tonic, craves it, and should not be denied it; and the best tonic of which we have any knowledge is Hood's Sarsaparilla. What this medicine has done in keeping healthy people healthy, in keeping up the even balance of health, gives it the same distinction as a preventive that it en joys as a cure. Its early use has illustrated the wisdom of the old say

ing that a stitch in time saves nine Take Hood's for appetite, strength One of the sublimest things in th world is plain truth.

"DRINK GRANO, CEREAL COF-A SONG OF CHOICE.

When up the valleys Spring Comes laughing lovingly, And gold and tawny wing

Make melody. Then hey for meadow air, With my love there! When Summer's haze and heat

The dreamy landscape blurs, and drowsing in the wheat The crickets charr, Then hey for mountain air, With my love there!

When largess from her urn
The lavish Autumn spills,
And sunset splendors burn
On all the hills,
Then hey for woodland air,
With my love there!

When Winter grips the land,
And chains the long blue lakes,
And sows with open hand
The fleece-white flakes,
Then hey for ingle air,
With my love there!

International Bible Lesson for To-Morrow-Paul at Antioch in Pisidia-Acts xiii., 43-52.

Golden Text-"Through this man i preached unto you the forgiveness of

missionaries, Paul, Barnabas and Mark, entered Antioch, the capi tal of the Province of Pisidia, in Asia Minor. The ruler of the Jewish Syragogue invited them to address the congregation. Paul did so, and in such a way that when the service closed numbers of Jews and Gentiles followed them, requesting another sermon the following Sabbath, when the crowd was so great and the interest so deep that it touched the relig ious envy and pride of the unbelieving Jews. They disputed and blas-phemed so much that Paul and his company were constrained to turn to the Gentiles, quoting Isaiah's pro-phesy, which they were delighted to hear, and those disposed unto eternal life amongst them believed unto salvetion; their testimony speedily evan-gelized that region. The envious crafty Jews used devout and honorable women as tools and stirred up the chief men of Antioch against Pavl and his company expelling them, who on leaving, shook the dust from their feet as polution and as a witness against these rejectors of the grace of God, while the disciples were filled with joy and the Holy Ghost, as all disciples should be, and, as Jesus said, rejoice and be exceeding glad.

No holiday in the year comes at a happier time than Victoria Day—the day devoted to the memory of Victoria the Good, and associated for all time with the tender green of young leaves and the promise of springing wheat fields.
