pole is 12 years, it follows that for the maintenance of the lines now in operation there are needed each year more than 2,650,000 poles. Such an enormous demand must soon deplete the available supply. This is fully recognized by the different companies.

The American Telephone and Telegraph Company, in co-operation with the United States Forestry Bureau, has been carrying on elaborate experiments to determine the best means of prolonging the life of poles.

These experiments show that seasoned timber in contact with the ground will outlast unseasoned, and that dry wood is more receptive of preservative fluids than green wood.

Experiment stations were established at Dover, N. J.; Thorndale, Pa.; Pisgah and Wilmington, N. C. As a part of the terms of co-operation the American Telephone and Telegraph Company supplied a fixed number of poles each month. A Dreadnought for Japan.

NIGHT RIDERS WHIP WOMEN.

of Missing Husbands.

Clauds Landing, Ky., Sept. 24.—
"Night riders" whipped Mrs. Kate
Williams and Mrs. Jennie Freeman last
night because they would not reveal the
whereabouts of their husbands. The
women were dragged from their beds
and taken to the road in front of their
homes, where switches were applied by
several men who wore masks over their
faces. Despite their suffering the women
would not tell where their husbands were
and the baffled men rode away.

The husbands of the women had been
warned to join the "association," a local
organization of the Planters' Protective.
Asosciation, on pain of torture. The
warning sent to them was accompanied
by a bundle of switches and left on their
front porch. They would not join the
association and had been talking against
the organization, which is claimed to
secure better prices for tobacco. When
they suspected that the "riders" would
search for them last night they went to
the home of a brother of Williams' apnile
away. The women remained at home,
thisking that their homes and barns
might be burned if there was no one towitness the depredations of the "riders."

Women are hard to understand. In
fact no woman likes to make hers."

Archbishop Lynch's Opinion of the Man Who Won't Pay Up. (Ottawa Citizen.)

(Ottawa Citizen.)
Twenty years ago to-day, Saturday,
Sept. 17, 1887, the Citizen reproduced
the following letter from the Archbishop of Toronto to the editor of the
Catholic Weekly Review, which has lost
none of its pertinancy by the lapse of a
score of years:

"St. Flichael's Palace,
"Toronto, Sept. 13, 1887.
"To the Editor of the Catholic Weekly
Review:

"To the Editor of the Catholic Weekly Review:
"Sir.—I have been often pained and astonished at the frequent appeals of editors and proprietors of newspapers to their subscribers, urging them to pay their just debts. Catholics at least cannot be unaware of their obligations in this matter, and that absolution to a penitent heartily sorry for his sins does not free him from the obligation of paying his just debts. The atonement for oblivion of justice in this world will certainly be extracted in the next. The editors and proprietors of newspapers, on their part, give their time, the product of a high education and experience, together with their money for stationery, printing and wages to employees, and gether with their money for stationery printing and wages to employees, an they expect and should have in commo justice, a return, often by no mean adequate for their outlay. A man wh will not pay for a paper he subscribe for, read, and whose contents he en joyed, is a retainer of another man' goods and is on a level with a thief.

Yours faithfully,

"John Joseph Lynch,

"Archbish of Toronto."
