The Full Mail Gazette says it is reported the Government intends to appoint the Duke of Connaught Viceroy of Ireland.

A Dublin despatch states that the Catholic bishop informed the Lord Lieutenant of Ireland that the Catholics were not prepared to sign any compromise with the Government.

It is reported that the Emperor of Austria has accepted a treaty with Prussia regarding the fifth clause of a treaty of Prague.

The Berlin National Gazette says it is highly probable that the remarkable attitude of the Danish Court at the Duke of Cumberland's marriage has prompted Germany to ask Austria to abrogate clause five of the Treaty of Prague.

A group of English financiers through Sir A. H. Lydell, British Ambassador at Constantinople, have offered the Porte a much better financial scheme than that offered by the French syndicate.

The marriage of the Duke of Windsor will be expected to take place at Windsor Castle early in the month of March.

Several of the state apartments of the palace have already been put in readiness for the royal party, and other preparations will be made prior to the ceremonial.

A Berlin despatch says there is a credible rumour that Dr. Falk, Minister of Public Worship, has proposed, and the Emperor has accepted, a scheme of reconciliation making France, instead of South Germany, the centre of gravity in ecclesiastical affairs, and detaching the sees of Metz and Strasburg from the Church of France.

The Legal Committee of the German Federal Council have finished consideration of the Parliamentary budget bill.

They have so far eliminated its most objectionable clauses and otherwise softened its harshness until it is scarcely regarded as likely to test the present disposition of the Austrian Government, which supports the determination of the committee to protest against the bill.

There is good reason to hope that the attitude of Russia will, on an English point of view, be more conciliatory than that of Prussia.

A Rome despatch says:—The completion of the straitened condition of the political situation in Italy.

Sunday energetic appeals were made from the pulpits in all the parishes, chorals, followed by special collections after mass and vespers. The work has been undertaken by the Confraternity of St. Peter's, its members being assisted by a large number of Catholic gentlemen who attended the service with various bags ornamented with gold crosses.

Amid the reports of deactivation, strikes and bad trade received from England, it is pleasant to perceive any hopeful sign. Rumours have been circulated that the Budget would reveal an enormous deficit. On this point the London Times, received by the last mail, declares that if political difficulties are settled and peace brought about, there seems also a fair chance that the balance may be inclined favourably. It adds that the fact that the same taxes as now, the revenue next year will be close on £84,000,000 against a probable deficit of £31,000,000, and that the Government is expected to throw the Army and Navy estimates are cut down, prove the financial situation to be very far from desperate.

The Sheriff attempted to serve the warrant, but the Justice refused to deliver it. At present, Justice Chalmers has no more than 14,000 men under his command, and the proportion of whom are unfortunately British pack and skill will no doubt conquer as of yore.

THE CATTLE DISEASE.

Live Stock from Portland Passed at Liverpool.

It is an understood thing that the Government are determined to, as far as possible, reduce the cost of collecting the revenue. Offices found to be useless will not therefore be likely to be filled up on a vacancy occurring.

BERLIN FISHERY EXHIBITION. The Marine and Fisheries Department is in receipt of an invitation from Berlin asking the fishery officers to send specimens of Canadian fish and fishing implements to an exhibition under the patronage of the Crown Prince, to be held in Berlin in 1880. It is hardly likely that the Government will feel disposed to make the necessary outlay unless circumstances should render an acceptance of the invitation fitting.

DEVALUATIONS BY ISLAND EXHIBITION. It is with regret that it is announced that in addition to Mr. Dunbar Browne, of Montreal, two other collectors of Island Revenue are in like circumstances. Both are in Nova Scotia. One has been suspended from his duties, the other has found good security for his default.

THE PACIFIC RAILWAY CONTRACTS. No awards have yet been made in the matter of the Pacific railway contracts. The usual crop of slanders is rising.

THE RINDERPEST. Of course there is correspondence going on in regard to the action of the Government in relation to the rinderpest. The Americans do not like it. The railways do not like it. Those whose business may be injuriously affected do not like it. But the necessity of the case overrides all minor considerations. It is not improbable that the result will be a large export trade over the Intercolonial railway, and such a guarantee of the healthiness of Canadian stock as will be of the highest value commercially.

THE SCOTLAND QUESTION. Messrs. Drummond, Redpath & Duffell have been appointed to investigate the question of the rinderpest. The Minister has seen a good representative of the importing interests. What passed at the interview is not yet known, but it is believed that the Minister will give his best attention to the question of reviving a great trade and establishing a most profitable industry.
