The stream Freshman Class. has been very low. He had about three English-Class 1, Miss M McIntosh. millions and a half. Allen, Miss Thompson. OVER A HUNDRED .- The remains of the

under the three years course; but with the four years course, we have three years for general education and the fourth year for special education. Under the old system, two years for general education was hardly enough. A certain amount of general knowledge is absolutely necessary for a foundation; but the complexity of modern life places a limit to it, and demands special-ization. Specialization is the spirit of the age, and the benefit to be derived from its application to college life can readily be seen. It gives to the student more real ed-ucation than anything else in the college course. With the majority of students, much of the regular work is to grind. He takes none of it away with him. With a sigh of relief, he forgets directly the exam-ination is passed. But with a student study-ing his favorite subject the case is different; there is no waste of mental energy. Emer-son says that we do our best things easiest. The fact that we like a subject indicates an ability in that direction. We achieve our best results when working along lines that are suited to us. Our heart is in the work. We make it a part of ourselves, and it is with us through life. To love study for study's sake, is the spirit of true education. The attainment of this end is greatly helped by allowing students in the last year to con-centrate their efforts in some one direction. FREDERICTON LADY CARRIES OFF DISTINGUISHED VISITORS. The encomia exercises at the University on Thursday were of more than usual inter-On the platform were many distinguished visitors, among them Sir Leonard Tilley, by allowing students in the last year to con-centrate their efforts in some one direction. who presided in his official capacity, Sir John C. Allen, the Chancellor, the president and members of the senate, members of the faculty, members of the Alumni society, Dr. W. Mills of McGill, Dr. Walker of St. John, Dr. Warburton of Edinburgh, Proffessors Robertson and Saunders of Ottawa Dr. Bridges delivered the oration on the Origin and Work of the University. A full report of his address will be found on our Miss Ellen Peake, winner of the Douglas gold medal read a portion of her essay on Colonial Empires of the Past and Their Lessons to Those of the Present. At the conclusion of the reading Sir Leonard pre-The examiners for the Alumni medal presented their report. A portion of the essay was read. The medal was presented by the president of the society, A. Bowman First division-F C Walker, classics; G Stead, science; G B Baxter, philosophy and political economy; D Coburn, philosophy and political economy; F Yorston philosophy and political economy; G Stead, Second division-J Johnston, mathema-French and German; E S Ruel, English Second division-F Barker, Miss M Hatt, Third division-F Berton, C McCullough, Logic-Class 1, Miss J McIntosh : class 2 Classics-Class 1, Cowperthwaite; class 2 Class Distinctions. Senior class, mathematics-Class 1, G

ninent among the recent educational

under the three years course; but with the

by allowing students in the last year to con-centrate their efforts in some one direction. The change from a three to a four year's course has been attended with many incon-veniences, and things have not worked as smoothly as some might have wished. But time has affected a cure. The little unpleas ant difficulties have passed away, and we see the wisdom of the change, but the change has not been carried far enough. The crowning feature is yet to come. With-out a blush I refer to that old timeworn question of residency. Residency in this building is a thing of the past; but residency in a new building, built close by for the purpose, should be a thing of the near future. I do not intend to argue this question, but I know I am volcing the sentiments of the present students and of the past students when I say that a new residency would be a "consummation devoutly to be wished for." I feel that I would be leaving myself open to censure from the students and from the graduates if I neglected this opportunity to utter a plea on behalf of residency. Dear to our hearts is the scheme. Living in the various boarding houses of the city may have its advantages, but it destroys our unity as a body of college students. The incidents and little excitements of city life have more effect on us, and tend greatly to draw our attention from our studies. We feel that true college life cannot be realized without residency. I hope that at no dist-ant date, the government will see its way clear to grant a sum sufficient for that pur-pose. Prominent among the recent educational years of age. ald officiating. Prominent among the recent educational advances is the university extension move-ment. The movement although new in this part of the country must be productive of good results. To take the university to those who cannot come to it, is the principle upon which the movement is founded. Caused by an interest in literature, in phil-osophy, in science, up from the mass of busy working people came the cry for a more liberal education. Those who had time and money could get it. But not so the working people. And now we see the university fulfilling its noblest duty. She goes to the masses, and gives them an op-

nection with the band of the I.S.C., died at Centreville, Carleton Co., on Sunday last, of E. B. Wright, one of the old residents of Temple, York County, died at that place on the 31st. He had reached a good old age being sixty-nine On Tuesday, May the 24th, Mrs. Anna A. Jones, wife of H. Jones died at Lower Southampton. Deceased was a daughter of Israel and Amelia Stairs and was twenty-eight Mother Vincent, Superioress of St. Dunstan's convent here for many years died at St. John on Friday, the 27th. She had reached the age of seventy, a long life spent for the welfare of the people who surround. ed her, a life of works and deeds for the benefit of humanity. On Sunday last Joseph Sutherland, young est son of James B. Sutherland, Kingsclear died of consumption at the residence of Eden Waugh, Douglas. He was in his nine teenth year, and has suffered from this in sidious disease for two years. The funeral took place on Tuesday, the Rev. Mr. McDon-A Surprise Indeed. Edgecombe & Sons are famous all over the province for their superior make of wagons, sleighs, etc., but they have turned out a "Surprise" this time for those who love nobby vehicles. Mr. y couple left ort tour, fol-	Our class history differs from that of previ- ous years. We were the second class in the four year course, and had an opportunity of seeing the working of the old, and of the new system. We received the due amount of "hazing," and endeavored, when our turn came, to give the due amount. We have shared our studies, our failures, our joys after the loyal fashion of college stu- dents. This community of interests has given birth to a tee that will exist as long as a member of '92 exists. There has been considerable change in the personnel of the class since matriculation. Some have dropped out. More have entered. On the whole, our number has increased as we ad- vanced. But, on this important day in our class history, we regret the absence of sev- eral of, what might be called, the charter members of the class. Many changes and improvements have taken place in the college, since as timid freshmen, we entered its halls. New depart- ments have been established. We now have in good working order departments of civil engineering and experimental physics.	minds in perception and reason, and crowned all by revealing to us the mysteries of philosophy. Ours the fault, have we not profited thereby. We owe it to ourselves, we owe it to the university not to stop here in the pursuit of knowledge. Lovingly, sorrowfully do we sever our connection with the college. Pleasan' recol- lections of our college life and of beautiful quiet Fredericton, must ever lnger in our minds. The old song of "Dear old alma mater standing half way up the hill" has a new meaning for us. Our best wishes are for the college. Her reputation in the past has been unblemished. May it be so in the future. From the depths of our hearts we wish her long life and prosperity. To our worthy and kind hearted chancel- lor, and to the members of the faculty, we would return our sincere thanks. They have been our guides and helpers. Charit- ably overlooking our many shortcomings, they have labored with us and led us on. Standing, now, with our feet on the thres- hold of a new life and looking back, we see this as we never say it before.	it to all. English Mail Steamers. Mr. John H. Sheldon, of York county, N. directors of sing passed a egard which Estey, who msible posi- institution, hy for the er, daughter , and J. W. , were mar- de on Wed- e Rev. Mr. couple left ort tour, fol- on the 25th t is without ce. A child by a grand- the child's is and a few tried to get t the neigh- wim has the ge, and it is Gibson wild	Our class history differs from that of previ- ous years. We were the second class in the four year course, and had an opportunity of seeing the working of the old, and of the new system. We received the due amount of "hazing," and endeavored, when our turn came, to give the due amount. We have shared our studies, our failures, our joys after the loyal fashion of college stu- dents. This community of interests has given birth to a te that will exist as long as a member of '92 exists. There has been considerable change in the personnel of the class since matriculation. Some have dropped out. More have entered. On the whole, our number has increased as we ad- vanced. But, on this important day in our class history, we regret the absence of sev- eral of, what might be called, the charter members of the class. Many changes and improvements have taken place in the college, since as timid freshmen, we entered its halls. New depart- ments have been established. We now have in good working order departments of civil engineering and experimental physics. Philosophy has been made a department of itself. The öther departments have been improved in many ways. The faculty has been strengthened by the infusion of young life and energy, fresh from the fields of ad- vanced learning. The curriculum has been improved and enlarged ; enlarged, I might say, to an awful extent. A former profes- sor, the learned Dr. Dyde, once told us that a university failed in its duty, failed in its purpose, if it did not, by a severe course, so harden men that they would find the world soft. There is some truth in the saying of the worthy professor. It is the humble opinion of the students here, that this uni-	minds in perception and reason, and crowned all by revealing to us the mysteries of philosophy. Ours the fault, have we not profited thereby. We owe it to ourselves, we owe it to the university not to stop here in the pursuit of knowledge. Lovingly, sorrowfully do we sever our connection with the college. Pleasan' recol- lections of our college life and of beautiful quiet Fredericton, must ever lnger in our minds. The old song of "Dear old alma mater standing half way up the hill" has a new meaning for us. Our best wishes are for the college. Her reputation in the past has been unblemished. May it be so in the future. From the depths of our hearts we wish her long life and prosperity. To our worthy and kind hearted chancel- lor, and to the members of the faculty, we would return our sincere thanks. They have been our guides and helpers. Charit- ably overlooking our many shortcomings, they have labored with us and led us on. Standing, now, with our feet on the thres- hold of a new life and looking back, we see this as we never saw it before. Should any measure of success attend our after life, it will-be due largely to the labors and ef- forts of our kthd tutors. Our only regret is that we have not taken more advantage of their counsel and instructions. I must not forget to thank the people of the city of Fredericton for the many favors that they have shown us during our stay among them, favors that can only be repaid by grateful remembrance. Gunter and wife were driving past the hospital when the horse got frightened at a man standing near the fence with a piece of board in his hand. At the first plunge, the harness broke and Mr. Gunter was thrown forward, the carriage passing over him. The horse then got into the gutter upsetting the carriage throwing Mrs. Gunter out. She escaped well having however received a severe bruise on the forehead. Mr. Gunter was badly shaken up	DEDUICS DE DUICS DE DUIC	Corner Queen and Regent Street. FREDERICTON. May 7, 1893. COAL.
