Prize Day at Spencer Col.

Last evening the pupils of Bishop Spencer College, the teachers and friends met in the T. A. Hall for the annual exercises and prize presentation.

There was an excellent display of club swinging, which attracted much favourable comment. The Operetta "The Twin Sisters" was presented tastefully and in a way which reflected credit on the performers: The May Queen, Jean Anderson; Florence, Dorothy White; Mary, Althea Hayward; Corinna, Rita Blackall; Anna, Edith Hayward; Preciosa, Marjorie Crane; 1st Gipsy, Mildred Coen; 2nd Gipsy, Olive Hayward; 1st Girl, Ina Clafie; 2nd Girl, Bessie Bolt. The singing was particularly pleasing.

After the performance Rev. Canon White took the chair, and on the platform with him were His Excellency the Governor, Lady Williams, T. C. Fitzherbert, Lieut. Gale, Miss Dean, Rev. Canon Bolt, the Secretary, Miss Stirling, the Principal, and the staff who assist her. Lady Williams distributed the prizes.

In the course of some introductory remarks Canon White referred to his connection with the College, from teaching for a time the sixth form and of the excellent impression the class had made on him.

Rev. Canon Bolt made his annual report. He made reference to the examination results, and emphasized the difficulty of arranging a syllabus of paper examination to suit all the subjects which it was desirable to undertake in a girls' school. He expressed the hope that in the near future more of the Synod Building would be available for College purposes, as the present school accommodation was much too small. He thanked Messrs. Fraser and Blackall for judging the needlework, and the T. A. & B. Society for the use of the hall at a nominal charge, and also the Principal and Staff of Bishop Feild College for the assistance they had rendered.

Mr. W. W. Blackall, Superintendent of Education, coincided with the opinions offered by Canon White as to the excellent work done in the College. The work was done conscientiously and in a painstaking manner, but under the disadvantage of insufficient accommodation. He hoped that the

entire Synod Building would be acquired for school purposes, or other arrangements should be made for housing the College. Greater space would not only facilitate better general training, but would improve the health of the pupils. He considered the curriculum made necessary by the C. H. E. exams, was hardly suitable for girls. He congratulated the girls on their club swinging, and with the permission of the Principal offered a prize to Miss Coen for her graceful movement.

After the distribution of the prizes, Rev. Canon Bolt proposed and Mr. R. R. Wood seconded a vote of thanks to Lady Williams which was carried by acclamation. His Excellency the Governor then delivered an address. He considered examinations necessary in some directions, and a nuisance in others. He knew many successful men who had never passed any high examinations. He had no desire to depreciate the value of knowledge, but he thought that matters of every day life should find a place in the school curriculum. The influence of woman in the world was wonderful, and while many women could turn their talents to account in going out in the world and competing with men, girls generally should train themselves to be useful in the home, as most Newfoundland girls are. He congratulated the Principal, the teachers and the pupils on their success, and wished them a great measure of success in the future.

The National Anthem brought the proceedings to a close.

MIXARD'S UNIMENT CURE FOR COLDS, etc.

Police Court News.

To-day His Honor Judge Knight had a large docket placed before him.

A drunk and disorderly was fined \$5 or 14 days, and another who appeared the 7th time was fined \$10 or 30 days.

A drunk and disorderly in his father's house was fined \$10 or 30 days, and a similar sum for assaulting and beating his parent and also for attacking Const. Green.

Four drunks were each discharged, two of them paying cab hire.

A woman charged with vagrancy was put down for 3 days.

Two boys summoned by the police for ill-treating a sheep were each fined \$2 or 7 days.

A saloon keeper was summoned by Head Const. Sheppard for having a man under the influence of liquor on his premises. Inspector General Sullivan prosecuted and Mr. Howley defended. The evidence of the police was taken and that of the bartender. His Honor from the evidence adduced said he would reluctantly dismiss the case as he believed defendant had no criminal knowledge, he thought, of the man's presence on his premises.

He deprecated the habit of publicans "filling up" men, but at the same time said he did not wish to be severe on any man but wanted only to see justice impartially done. He spoke of the extension of certain premises to by-streets and would bring the matter before the Licensing Board to test the legality of the sale of liquor on such premises.

A man who ill-treated his horse was fined \$1 or 3 days.

The case of a man charged with deserting his wife was also recorded and will be heard later.

To-Day's News.

Special to Evening Telegram.

LONDON, To-day.

Dr. Sun Yet Sen's arrival at Hong Kong will be the turning point in the history of China, was the opinion expressed yesterday by Dr. Cantile, the American surgeon of Harley Street, a close friend of the Chinese doctor, who is understood to be thoroughly informed as to the Chinese reformer's plans. If the reform parties as a body accept him, then Dr. Sun will nominate a cabinet. Premier Yuan will have a say in what he is going to do. The Reform Parties wish Yuan to act as vice-President. If Yuan accepts the proposition, the whole trouble will be ended within twenty-four hours. The Powers will then have no cause for action, because there would be a stable Government. If Yuan does not join the party, China may suffer from a further fear of civil war.

Special to Evening Telegram.

PARIS, To-day.

The Franco-German accord on the subject of Morocco, which was ratified by the Chamber of Deputies yesterday is the agreement signed in November last, by which France cedes to Germany a strip of territory in French Congo, while Germany cedes to France some territory on the frontier of Togoland and Dahomey. France's right to establish a protectorate over Morocco is recognized on condition she agrees to safeguard the economic and commercial liberty for all nations in that country. The original dispute arose through France, according to Germany's point of view, overstepping the provisions of the Algeiras agreement. In consequence Germany sent the gunboat, Panther, to Agadir, and a period of great tension followed in Europe.

S. MILLEY

Poultry Show.

Prof. Landry lectured to the members of the Newfoundland Poultry Association again last night, and the meeting was particularly interesting. A number of ladies were present and the President Mr. Justice Emerson presided. Before commencing proceedings the President referred in very complimentary terms to the work of the Secretary during the past year, and said the members, to show their appreciation, had subscribed for, and purchased a gift, which he presented on their behalf to Mr. Barker. The gift was a very handsome silver rose bowl mounted on an ebony stand, and bore the inscription "Presented to Wm. Barker Esq., by his friends in the Newfoundland Poultry Association in appreciation of his kind and unstinted services as Secretary, December 1911." Mr. Barker was completely taken by surprise but made a suitable reply. The Chairman then spoke of the very valuable services which had been rendered the Poultry Association and the whole Colony by Prof. J. P. Landry in coming to Newfoundland and lecturing on Poultry raising. His knowledge and experience had been freely given and in a thoroughly practical manner, and could not fail to be of very great benefit to all by his genial and obliging disposition. He had made a host of friends in St. John's, who will always remember his visit with pleasure, and it is to be hoped he will make it convenient to pay another visit to this colony. On behalf of the Newfoundland Poultry Association Prof. Landry was asked to accept a purse of money, not as the value of his services, but as a slight token of the respect and esteem of all the members. Prof. Landry thanked the members very heartily, and said he had never met with greater kindness and hospitality, than had been shown him in Newfoundland, and he never wanted to meet a better and more enthusiastic bunch of poultry men than the members of the Newfoundland Poultry Association. The Professor then gave a splendid address on Poultry matter showing a number of lantern views on the screen. He also judged and scored some Silver Wyandottes, Partridge Wyandottes and Rouen Ducks, explaining thoroughly the various points to be considered, after which he killed and plucked clean a fowl in 4 1/2 minutes. The meeting was most interesting and closed with a vote of thanks to the Professor, who leaves for home by to-day's express.

There's a Reason.

Horwood's Good Wood Goods come from their own forests where they are carefully selected and are carefully manufactured at their own mills. Result—
