Bulgaria Surrenders Unconditionally.

(Continued from 3rd page.) **GERMAN PAPERS FOR PEACE.**

AMSTERDAM, Sept. 30.

The Frankfort Zeitung expresses regret that the government fails to press on friend and foe with truth that Germany did not go into the war of lust for power. This newspaper freely admits that the Bulgarians are justified in feeling war tired, and thinks the Bulgarian people will stand by Premier Malinoff. Finally the Frankfort Zeitung begs the government to make for peace unequivocally and sincerely. The Dusseldorf Nachrichten bewails the fact that troops will have to be sent to Macedonia from the west front where they are so badly needed. Its sister publication, the Essen Allgemeine Zeitung speaks of bad news coming thick and fast and repeats its previous assertion that Germans must be strong later in its editorial. The Essen journal falls into bitter abuse of blaspheming Wilson and his mob of vipers.

THE COWARDS QUIT.

AMSTERDAM, Sept. 30. Emperor William has accepted the resignation of Count Von Hertling and Admiral Von Hintze according to

the Zeitung Am Mittag of Berlin. No official announcement on the subject has been received.

GHELUWE CAPTURED.

LONDON, Sept. 30. British troops advanced in Belgium to-day, captured Gheluwe and are now about 2 miles outside of the Belgian railroad junction of Menin.

TURKISH FORCE SURRENDERED.

LONDON, Sept. 30. A Turkish force of 6000-7000 men has surrendered to the British in Palestine, according to an official announcement made this evening.

FIGHTING IN CAMBRAL.

LONDON, Sept. 30. Fighting is going on in Cambrai. The northeastern and southwestern suburbs have been captured, and the town probably will clear up the enemy shortly.

IN DRY DOCK.

WASHINGTON, Sept. 30. The battleship Minnesota, which struck a mine yesterday off the Atlantic Coast, has arrived safely at a naval station and is now in dry dock, the naval department announced to-day.

BRITISH AND FRENCH SUCCESSES.

LONDON, Sept. 30. British troops have crossed the Scheidt Canal and captured Chevrecoeur, south of Cambrai. Half of the Chemin Des Dames, from which the enemy is retiring, has been captured by the French.

AFRAID TO FACE THE MUSIC.

ARMISTICE AGREED TO.

PARIS, Sept. 30. Bulgarian representatives agreed to an armistice which is probably the first step in Bulgaria's withdrawal from her alliance with the Central Powers a few days less than three years after she entered the war on the side of Germany. It was on October

9, 1915, that Bulgaria issued a manifesto announcing her decision to cast her lot against the Entente alliance. She had been fifteen months in deciding her course. As the armistice has been arranged on terms laid down by the Allies it is probable that it calls for the occupation of Bulgaria by Allied troops with the assistance of the Bulgarian government.

Our American Letter.

Boston, Sept. 22.—The Americans are continuing their bombardment of the Metz fortifications and are using artillery of superior calibre and effectiveness. The Germans already assert that the stronghold is being hammered by a gun which exceeds in range the famous 75-mile cannon with which Paris was bombarded. The early fall of Metz is not looked for as the city is a second Verdun and we may have to wait sometime before victory for the attacking forces is achieved. General Pershing is taking an especial pride in his attack on Metz as the city is the key to Alsace-Lorraine where his forefathers were born. It will be a proud day for America when she succeeds in winning back for France her lost provinces and repays the debt which this country owes to the gallant Lafayette in the days of the Revolution.

The President's brief but emphatic reply to Austria's peace note has virtually slammed the door in the face of the treacherous Hun. It voices the sentiments which every human being not under Teutonic domination is holding to-day. There can be no peace with murderers and ravishers and hostilities will not cease until the Hun is ready to receive the punishment which is due them for their crimes of horror. President Wilson has practically told Austria that it is impossible for the United States to treat with the Central Powers in the manner accorded a brave and chivalrous enemy. The Huns have placed themselves outside the pale of civilization and decency and they must be treated only as mad dogs. The vile beast must first be slain before any kind of peace can be considered.

The documents captured in Russia by American agents have caused a sensation. They prove conclusively the treason of Lenin and Trotsky who sold their country for the sum of \$2,700,000. They also show that Germany, by means of paid assassins, disposed of many loyal Russians who were opposed to the treacherous crew now at the head of Russian affairs. One letter speaks of the lack of enterprise shown by one of the hired assassins in failing to murder certain generals and officials and expressed the hope that the deed would be finally consummated. Under German and Bolshevik control thousands are being massacred daily or thrown into loathsome dungeons to perish miserably. And these are the devils who have the presumption to ask us to sit at the same table with them for a discussion of peace terms. They shall sit at a table one day in the near future with shackles upon their wrists and the hangman's noose dangling in the distance. The Imperial hell-hound who stalks through the corridors of Potsdam Palace will on that day know the retribution of an outraged world.

It is expected that Spain will finally throw in her lot with the Allies, judging by the trend of affairs in that country. German propaganda has misled the Spaniards but they are beginning to see the light at last. That so brave and chivalrous a nation as Spain is, can continue to remain neutral under such trying conditions is unthinkable. The entrance of Spain into the conflict would mean an additional army of 1,000,000 men within striking distance of the foe. America, which fought the Spaniards 20 years ago and found them to be gallant and knightly foemen, would be proud, on this occasion to fight side by side with them against the common enemy.

It is the belief that Holland will eventually be forced into the fray as there is no question that Germany intends to invade that country unless something unforeseen occurs. And after Holland will follow Denmark, Norway and Sweden and perhaps Switzerland. The Hun will finally go down in defeat before the united forces of the entire world.

I came across in a Cornhill bookstore the other day a copy of "West Amid the Fogs," by Lt.-Col. McHae, who, I believe, was an artillery officer in St. John's in the later fifties. The writer shows considerable animus toward Newfoundland and exhibits a great deal of prejudiced feeling. This volume was reviewed in the Newfoundland press many years ago and is now out of print. One interesting chapter tells the story of the duel at Robinson's Hill and the tumultuous trial which followed. Some day a real history of Newfoundland will be written, not hodge-podges of what and what, principally the latter, which at present take the place of scholarly and exhaustive records.

Rev. Moses Harvey's history is at present the only standard work on Newfoundland, and is given this place because of the beautiful style of the gifted author. Prowse's history is impossible and the books which followed are merely the work of amateurs. Newfoundland has a stirring tale to tell and some future limner will tell it in the proper way. —W. M. DOOLEY.

Lords Protest Against Easy 'Honors' List.

A letter appears in the London Times, stating: "Even in the midst of the anxiety arising from the war we think it necessary to point out in public the serious danger which may arise from a continued bestowal of honors without any real safeguard against abuse."

"A new Order that of the British Empire, has been instituted, and in a recent Gazette the names cover no less than sixty quarto pages."

"We make no suggestion of corruption in connection with this Order, but the wholesale scale upon which it is granted makes it obvious that no responsible Minister can control the selection of the recipients, much less that it is a real mark of his Majesty's favor."

"Our feelings is that unless the bestowal of honors and titles is protected from this sort of cheapening

and is unmistakably cleared from the danger of a peculiarly mean kind of pecuniary corruption and reserved for real merit, honors may come to be regarded as dishonors, leaving no way out except their entire abolition." The signatories to this protest include Lords Balfour, Beresford, Loreburn, Sydenham, Parmoor and many others.

What About These Coal Shares?

The opportunity is a good one. \$25,000.00 worth of stock has been placed on the market, and to the purchaser of each one of these shares three extra shares are given free of cost.

This makes the purchaser of each one dollar share the owner of four fully paid up shares in the company.

The company also guarantees that none of the above shares will be subject to any further call.

The opportunity to invest is open to everybody. Get busy before it is too late; no bonus shares will be given after the present allotment is disposed of.

You can't lose. Invest to-day. For every single dollar you invest in this proposition you get four 1 dollar shares in return.
