The Board do not bind themselves to accept the lowest or any tender.
CHAS. RAYMOND, Chairman of Special Committee. dw
Guelph, July 16, 1873.

CARD OF THANKS.
To the Ladies and Gentlemen of the Managing Committee who so strenuously exerted themselves for the success of the Pic-nic lately held for the benefit of the Hospital, the Sisters of St. Joseph know not how to express their deep and heartfelt thanks.
Although on the appointed day the elements seemed rather unpropitious, yet neither rain nor clouds could damp the ardor of those devoted friends of the sick and poor who thronged within the palace walls anxious to contribute not only by the purchasing of tickets but also by their presence towards a work of charity deemed by the noble hearted of every class as one worthy a place in God's great account Book.
To the Members of the Town Council who on this occasion so kindly allowed the use of the building, the Sisters would also express their sincere and grateful thanks; that God may reward and bless them all the generous benefactors of the Hospital shall ever be the prayer of the Sisters of St. Joseph.
As the amount realized by the Pic-nic has not yet been ascertained, the Sisters on this point are for the present unable to gratify their friends.
Guelph, July 18, 1873. dw

FARM TO SELL.—Situate within two miles of the Town of Guelph, being 5 and 6. 2nd concession, Division D, Township of Guelph, containing 96 acres, of which from 70 to 80 are cleared and mostly arable, and more than 20 ploughed ready for seed. The buildings and fences are good repair, and a large orchard in full bearing.
Further particulars can be learned by application—1 by letter (prepaid), to John Mickle, Proprietor, Guelph, or to the undersigned.
CHAS. DAVIDSON, Town Hall Building. dw

A valuable building site on Quebec street, eligible for any kind of business.
THOMPSON & JACKSON, dw
Guelph, June 17, 1873.

DRRESS and MANTLE MAKING

The Fashionable West End.

To the Ladies:
We have during the past two years contemplated the establishment of a Dress MAKING DEPARTMENT, in connection with our other branches. The difficulty of obtaining a suitable person to take charge, has, up to the present time, only prevented us from doing so.

We have now great pleasure in informing you that we have secured the services of Miss MORRISON, of Toronto, a lady of first-class abilities, highly recommended to us, and we believe eminently qualified to give complete satisfaction in every respect. Miss Morrison has for the past ten years occupied the position of cutter and fitter in one of the leading fashionable Dress making Establishments in the City of Toronto.

Miss Morrison is also an experienced Mantle-maker, and all orders entrusted to her will be executed in a style equal to anything that can be obtained in the largest cities.

Orders for these departments will be received on and after Monday next, the 4th of May.

A. O. BUCHAN, Fashionable West End Dress, Mantle and Millinery Establishment.

Guelph Evening Mercury

FRIDAY EVENING, JULY 18, 1873

Town and County News.

BROKE DOWN.—A wagon loaded with lumber came to grief this forenoon on Wyndham Street by one of the wheels collaping. Nobody hurt.

RUNAWAY.—About 2 o'clock a span of horses attached to a carriage, took flight near the Grand Trunk Passenger Station and ran at a furious rate along Macdonnell street to the Union Hotel, where they turned into the shed, little or no damage being done to either horses or carriage.

A SAD ACCIDENT.—A young lad named James Murphy, whose widowed mother resides in Guelph, was drowned in the river, at Southampton, on Thursday. He was on a log, which turned over on him. The body has been recovered, and arrived in Guelph this morning.

KNOX CHURCH PIC-NIC.—The annual picnic in connection with this church is held this afternoon in Mr. Mitchell's grove. The weather is delightful, and indicates better luck for the Presbyterians than their Methodist brethren and sisters had yesterday.

FIRE BY LIGHTNING.—We regret to learn that the barn of Mr. Fletcher, Nagsaways, was totally destroyed on Thursday morning, being struck by lightning. The barn contained his hay crop and some farming implements, all of which were consumed. We have not learned whether the property was insured.

ERRATA.—We are obliged to a member of the Board for pointing out two errors in our report of the last School Board meeting. It was Mr. Raymond, not Mr. Knowles, who presented the report of the special committee on the Central school; and the remarks attributed to Dr. Keating were made by Mr. Peterson, who had taken the doctor's seat while the Board was in committee of the whole.

SONS OF TEMPERANCE.—An open meeting will be held in the Good Templars' Hall this (Friday) evening, by the Sons of Temperance, at which addresses will be delivered by the Rev. Messrs. Ward, Howie, and Wood. There will also be music by an efficient choir. The public are cordially invited. No doubt the proceedings will be of a very interesting character. See advertisement.

THE PIC-NIC AND THE WEATHER.—These two matters were so much mixed up yesterday afternoon that one does not feel inclined to separate them. Threatening clouds appeared during the morning, but cleared away, and a fine afternoon succeeded, though of an exceeding sultry character. The air and earth being so saturated with moisture, the hot sun acting upon them made poor mortals feel like being in a vapour bath without even the privilege of taking off their clothes. The children from the Wesleyan Sunday School were early in the field—that is, the grove, and yielded themselves up unrestrainedly to the delights of a good old romp, whilst the older boys worked hard at base ball and other games. One section engaged themselves in kicking a foot-ball about most vigorously, and their talented efforts were rewarded by releasing the imprisoned air inside of the ball through a rent in the cover soon after six. Tea for the elders began at six o'clock, the juveniles having just previously disposed of an abundant feast. Clouds gathered again in the latter part of the afternoon, and, in the town, at six o'clock there was a pelting shower of big drops. It was soon over, and with hearty full of sympathy for the drenched picnicers, our reporter and others strolled over to Mr. Peterson's grove, but were agreeably disappointed by finding, not a drenched, demoralised crowd of fugitives from the wrath of Jupiter Pluvius, but a merry party seated around the tea tables or strolling contentedly under the trees, whilst the boys and girls were still at play. It appears that the occupants of the grove only received a few drops from the outer edge of the heavy cloud which discharged its watery contents so liberally over the centre of the town. Whilst the substantial tea was being disposed of, the sky became heavily overcast, and occasional distant thunder was heard, culminating at seven o'clock in a heavy, steady rain, which finally dispersed the majority of the picnicers. Barring the weather, everything went off successfully, and as all the provisions provided were disposed of, the money taken at the gate will be sufficient to cover expenses, which, of course, is all that was aimed at.

Local and Other Items.

There was no demonstration in Elora on the twelfth.

Houses are scarce at Harrison, the Tribune says. So, they are at Guelph. On Tuesday week Mrs. Michael Smith, 19th con. Peel, fell down cellar and sustained very serious injuries.

Several thunder storms and heavy rains are reported throughout Western Canada yesterday (Thursday).

NEW SALT WELLS.—Mr. Disney, contractor for putting down the Teeswater salt well, will commence drilling on Monday next.

SAW MILL BURNED.—Skells' steam sawmill, near Southampton, with about \$2,000 worth of lumber, was totally destroyed by fire on Wednesday morning.

The congregation of the English Church at Harrison lately completed a substantial as well as ornamental picket fence around their Church.

We learn that the rain storm on Thursday, did considerable damage to the growing crops in Erin. In many places the grain has been completely levelled to the ground.

THE CROWS all look well in the townships of Garrafrax, Nichol and Pilkington. In some parts the turnips are much injured with the fly and grub. In some parts of Eramosa the grasshopper is very destructive.

MINTO TOWNSHIP HALL.—The Township Council are going to erect a Hall for municipal purposes. It is to be erected on the north boundary of the village of Harrison. Tenders to be received up to July 24th.

WELLAND CANAL.—The contract for some of the most important sections of the Welland Canal were signed on Thursday at Thorold by John Brown. In half-an-hour afterwards a part of the stone for the upper locks was delivered on the ground.

The patriotic Walworth is a clerk in the shoe department at Sing Sing. He is to work in the private office of the clerk of the department. This is hard labor with a vengeance, and many a clerk has to work harder and not far so well. But then they are not heroes and have no rich influential relations.

It has been resolved to take immediate steps to build a reservoir on the hill north of the Town of Brantford. Thousands of gallons of water could thus be thrown without the aid of the engine, as high as any building in the town, by the mere pressure of the water in the reservoir.

FEROUS MONTHLY FAIR was held yesterday (Thursday). There was a fair attendance for this time of the year, and some pretty good sales were made—amongst them that of Mr. Robert Kennedy, of Garrafrax, who disposed of three steers and a cow for \$190. The price of cows ranged from \$20 to \$35.

A VERY successful picnic was held by the Wesleyans of Rothay last Tuesday in behalf of their Trust Fund. In addition to what was taken in at the tables there was subscribed some \$550, completely covering the entire debt upon their church property.

The Toronto correspondent of the Montreal Witness says:—"Considerable curiosity is felt as to the course the Government are likely to pursue with respect to Sir Hugh—now that he stands confessed as a wholesale briber and corruptor. If he is allowed to retain the charter of the railway after this exposure, it will do far more to weaken the position of the Ministry, and disgust all right-minded men with its course, than anything that has hitherto transpired."

THE STREETS OF ST. LOUIS.—The St. Louis Democrat prints the following beautiful fragments of a poem of twelve verses with the above heading:
"Go and see what I have seen,
Go and see what I have felt,
Go out at early dawn,
And smell what I have smelt."
"They eat and drink, and scheme and plot,
And many are afraid of God,
And more of Mrs. Grundy."

MR. PATRICK MORRIS, 6th con. Peel, last week was engaged digging a well upon his own place, the farm lately owned by J. K. Barrett, Esq., last Tuesday. After digging to about the depth of 32 feet there came a far more powerful rush of water than was expected, and it was by great exertions that the man at the bottom of the well got safely from it; his tools were left there, and have not since been recovered, for in an hour and a-half the water was flowing over the top.

A PHENOMENON.—The somewhat rare phenomenon of a mock sun was visible here, says the Waterloo Chronicle, about 6.30 p.m., on Sunday evening. About 30° south of the true position of the sun, which shone indistinctly through a bank of cloud, and at the same elevation from the horizon, a similar appearance to that of the real luminary presented itself in another but lighter collection of clouds.

A faint spectrum covered the image of the counterfeit luminary, the red end of which was toward the real sun. This phenomenon was a beautiful example of the effects produced sometimes by the reflection and refraction of the solar rays among the clouds.

The Globe Printing Company are in receipt of between three and four thousand dollars worth of new type,—not before it was needed.

Judgment was delivered yesterday in the "City of Washington" investigation. Captain Phillips is expended for one year.

The East Ward Election.
Polling commenced in the Town Hall this morning at 9 o'clock, Mr. Geo. M. Todd fulfilling the duties of Returning Officer. During the morning Mr. Davidson had a majority of between twenty and thirty, but towards afternoon this was diminished considerably, and at 2:30 the returns were as follows:—
McCrean..... 84
Davidson..... 104

BY TELEGRAPH.

THIS MORNING'S DESPATCHES

The Spanish Troubles.

Cholera
The Queen on Arbitration.

London, July 17.
In the House of Commons this evening, Right Hon. Lord Otho Fitzgerald produced the Queen's reply to an address of the Commons on the subject of an International Arbitration, as follows:—

"I have received the address from my faithful Commons, praying that I would be graciously pleased to instruct my principal Secretary to enter into communications with a view to further improve International Law, and establish a general and permanent system of arbitration. I am sensible of the force and philanthropic motive dictating that address. I have at all times desired to extend the practice of closing international controversies by their submission to impartial friends, and to encourage the establishment of rules intended for the equal benefit of all. I shall continue to pursue a similar course with due regard to time and opportunity, whenever it is likely to be attended with advantage."
The House received the document with hearty cheers.

London, July 17.—Reports have reached here that several cases of cholera have occurred at Vienna. It is said the authorities of that city are endeavoring to suppress particulars.

MADRID, July 17.—The new Constitution is to be presented to the Cortes for action today. The report of the capture of the town of Estella, by Carlists, is confirmed.

Contreras has levied a forced loan of \$50,000 on the citizens of Carthagena. The Carlists are marching on Logroño.

The international Society of Barcelona is dissolved. The authorities are still apprehensive of an out-break at Valencia, and the commander of the garrison there has been ordered to use every measure of precaution to maintain order.

Bayonne, July 17.—The Carlists declare that all the arms and ammunition shipped for them have been safely landed on the coast of Biscay.

Colonel Aispurna has taken command of the force which was formerly led by the Cure of Santa Cruz, and which now numbers 1,000 men.

Lizarraga with 4,000 well disciplined infantry and some cavalry and artillery, is operating in Guipuzcoa. The Carlists, after capturing a company of Carabiniers near Puenle La Reina, have occupied that town. Their partisans report that they are crossing the Ebro at 24 points and recruiting, foraging, and levying requisitions.

They report that the Spanish Government intends to form a recruiting camp near Leida, also the Republican troops have received orders to shoot all priests taken with them in their hands. The priests are endeavoring to bring about a fusion between the Alfonsists and Carlists.

Bayonne, July 17.—Don Carlos has issued an order that the Cure of Santa Cruz be treated as a rebel.

Louisville, Ky., July 18.—Advice to the Courier Herald states that the cholera is prevalent in Elizabethtown, Owensboro, Millersburg and several other Kentucky towns.

Washington, July 18.—Yesterday afternoon a schooner from Georgetown struck the draw at Long Bridge, carrying a portion of it away, and destroying the working of the draw.

Elora and Salem Horticultural Show.

The Spring or Summer Show of the Elora and Salem Horticultural Society was held in the Drill Shed, Elora, yesterday (Thursday), and was in every respect a success, and one of which the members felt proud.

From early in the morning till nearly noon the choicest flowers, green-house and window plants, fruits, vegetables, etc., were carried into the building, until the collection was the finest and largest ever brought together before in Elora. On entering the hall there were seen a number of large plants of different classes, of luxuriant growth; and behind these, on a large table down the centre and extending nearly the whole length of the hall, was a splendid collection of ferns, anemones, duffie and single, fuchias, foliage plants, cactus, hanging basket, etc. a large number of which were from the greenhouses of Alex. Haig and John Brown.

On the right hand side of the hall were arranged fine collections of pinks, petunias, sweet william, double and single, verbenas, pansies, phlox drummondii, antirrhinums, balsams, cut flowers, bouquets, etc. We also noticed one good collection of holyhooks. At the further end of the hall on the platform were a couple of fuschias, one of which was loaded with bloom and as fine a plant as we ever saw. An oddity in the show was a small owl in a cage, who appeared rather sleepy during the day, but in the evening would wake up occasionally and stare the whole of the onlookers out of countenance. On the left hand side and the whole length of the hall were arranged collections of vegetables, fruits, flowers, etc. Beginning at the further end were the currants, white, red and black; cherries, gooseberries, raspberries, and strawberries, all very good, with the exception of the black currants, which were not so fine as usual. Further on were different classes of vegetables, among which potatoes and lettuce were very large. Nearest the door were collections of hydranges, cleander, petunias, etc. Amongst the principal contributors to the show were Rev. Jas. Middlemiss, and Messrs. Newman, Alex. Haig, John Brown, John Waddell, Godfrey, R. Wood, and Peter Simpson. The attendance in the afternoon was not very large, although the best time to see the different shades of the various flowers. In the evening the hall was comfortably filled and presented a gay appearance. The 30th Battalion Band were present and added to the evening's enjoyment.

The Mennonites.

The attack by half-breeds on the Mennonite delegation in Manitoba seems to have been nothing more than an unpremeditated row caused by the conduct of a solitary individual who had probably been celebrating Dominion Day by absorbing bad whiskey. There was some talk about Riel having indulged in inflammatory eloquence in the locality shortly before, and primed the half-breeds for the attack, but the friends of that injured individual came forward with an alibi in his favour, and showed that he was more lawfully and loyally employed. It is reassuring to be informed that this untoward occurrence will not deter the Mennonites from carrying out their original intention to settle in Manitoba in the townships set apart for them by Government, and it is to be hoped there is no foundation for the statement of the New York World that the thousand families who were thus to settle in the spring have been frightened by the conduct of the half-breeds and are going to the other side of the lines. This paper says the proposed colony numbers 12,000 persons, all industrious and well-to-do people, and that their value to the country in which they settle may be judged of by an order for \$20,000 worth of agricultural instruments which they gave at St. Paul's. The Manitoban press opposed to French ascendancy, while willing to exonerate the half-breeds as a class from the blame of the above outrage, nevertheless insist that they have been so courted and flattered by those in power that they imagine they can do as they please, and are apt to do illegal things, a course in which they have been allowed too much impunity.

The Elora Accident—Inquest.

We take the following particulars of the late fatal fall near Elora from the Elora News:

On Sunday last as Mr. Edward Dalton was on his way from Fergus to his residence, near the W. G. & B. R. station Elora, while in the act of crossing the trestle work approach to the bridge that crosses the Grand River, near Aboynne, he fell between the ties a distance of some 30 or 35 feet and was almost instantly killed. Dr. Gordon of Fergus was at once sent for; but before he arrived the unfortunate man was dead. Mr. Dalton came to this neighborhood about twelve years ago. He was brother-in-law to Mr. Hennesbery; for some years has been engaged in the flax mill. He has been married about 15 years and leaves a widow and four children to mourn his untimely end. Mr. Algine of Aboynne took the deceased to his own residence, where many kind friends at once tendered their kind offices of sympathy to the sorrowing family.

An Inquest.

Was held at the residence of the deceased at 10 o'clock on Monday morning, before Dr. Middleton, coroner.

James Algine, sworn—Am a mason, live in Aboynne; saw Edward Dalton about 11 o'clock yesterday on the trestle work; suppose I might have been about 300 yards away at the time; he was staggering a little and talking to himself; he had a stick in his hand; he made a stagger and put out his stick, steadied him a little; made another attempt and fell across the track; his legs went through between the ties; he did not cry out; hung for about a minute before he dropped; was unable to get to him in time; went down to where he had fallen; he was breathing; suppose he lived about ten minutes. The ties are 13 inches apart.

Henry Dalton, aged 13, son of deceased, sworn—Father and I left the house about 9 o'clock yesterday. He had taken one horn of whiskey before he left; he was a little the worse of liquor when he left; he was pretty drunk on Saturday night; we went as far as Aboynne tavern to get a drink; he was very drunk; saw him again in Fergus about 10 o'clock.

After some further evidence had been given, the following verdict was rendered:—"The jury find that Edward Dalton came to his death from injuries received by falling through the ties on the Wellington Grey and Bruce Railway bridge, near Aboynne, on Sunday the 13th day of July, 1873; and that deceased was under the influence of liquor at the time."

POLICE COURT.

Before T. W. Saunders, Esq., P. M. THURSDAY, July 18th.

THE WHISKY-STEALING CASE.
John O'Donnell was brought up on remand. Evidence was given in accordance with the facts we have already narrated, and prisoner was committed for trial.

NEVER MORE.
John Crogan was charged with drunkenness in the market place, yesterday, but as it was his first offence he was discharged with a caution, on a promise "never to do so again."

THE SINGLE SCULL-RACK between Biglin and Ward came off on the Connecticut River, Springfield, Mass., on Tuesday. Biglin took the lead at the start, but after rowing about two miles Ward, who had spurted and got two lengths ahead of his antagonist, was seized with vertigo, suddenly fell back in his boat, and thus prematurely ended the contest. After being carried ashore, he revived and explained matters.

EVERYBODY SAYS SO.—That is all who have either written the article themselves or witnessed its effects when used by others; all such, and they are only fit to judge, are unanimous in the opinion that "Darley's Condition" and Arabian Heave Remedy" is superior to anything of the kind heretofore or at present in use for coughs, colds, Thick Wind, and all diseases which affect the wind of horses. As a condition medicine it has no equal.
