### ONTARIO'S EDUCATIONAL SYSTEM.

Able Lecture by Dr. Burns, o Hamilton, at the Teachers' Association.

The evening session of the London Teachers' Association held yesterday took the form of a lecture, elequent and instructive, on "Some Thoughts on Our Educational System," by Rev. A. Burns, LL. D., principal of the Ladies' College, Hamilton. Victoria Hall was crowded. On the platform were Dr. Burns, Inspector Carson and Principals McQueen, Stewart, Baker, Kirk and Edwards, and C. A. Barnes, P. S. I., East Lambton. Mr. McQueen presided. The teachers met, he said, every little while to study the methods of teaching the young, who would direct the destinies of our land at some would adopt any one system and listen to no improvements that might be suggested. Dr. Burns said he came to London to alk and suggest. There was not a man

living with whom everybody agreed. No-body's labor was more important than the teacher's. The teacher should treat all teacher's. The teacher should treat all pupils alike and be patient with and kind to them. The greatest blessing a country could have was to have a good corps of teachers. But the lecturer wished to speak particularly of system. Attendance should be compulsory, for every child should be educated. The children of the poor should be furnished them, for this was cheaper than paying for them in a reformatory. Very few boys and girls could hope for half the time in which to receive a liberal eduthe time in which to receive a liberal edu-

the time in which to receive a liberal education. How many business men had had four years' schooling before taking a professional training? In the country there were bad roads, the pupils had to walk a long distance to school, and there were ample opportunities for country boys and girls to absent themselves from school. The kindergarten was the paradise of the little ones. What a blessing to the parents that their children were off their hands and learning something. In the present system there was too much detail in teaching, too much attention was paid to examinations, the pupils were prepared for too many subjects, and there was a tendency to make the subjects too difficult. The examinations, as conducted in Ontario, did more harm than good. Protests from teachers came as often as examinations that good pupils had been humiliated, while poorer ones had been humiliated, while poorer ones adheen humiliated, while poorer ones had been humiliated, work and the closing session of the institution, and the closing session of the institution, and the closing session of the institution, and the closing had been present do the most add to the most date of the most add the st

pupils are advancing. The whole system of giving prizes in schools was wrong. In of giving prizes in schools was wrong. In conclusion, said the speaker, Ortario has a fine class of teachers. They are, how-ever, handicapped in having to work under such a temptation to cram, to sink in-

dividuality.

Principal Stewart and Inspector Carson moved a vote of thanks to Dr. Burns for his able lecture, and the meeting broke up.

### OUR EUSINESS MEN.

Regular Meeting of the London Board of Trade.

The Port Stanley Harbor-Members Will Kill Two B rds With One Stone While at Ottawa-The West Indian Scheme Dropped-Against Bonusing,

Messrs. Moses Masuret (president), John Bland (vice-president), John Campbell, L. H. Ingram, A. M. Smart, J. F. Jeffers, S. Stevely, W. J. Craig, W. H. Davis, Murray Ciancy, sitting two seats away, quickly moved up and caught Mr. Clarke, and with the assistance of several other members lad him upon the floor. Dr. Willoughby, Dr. McKay (Oxford), Dr. Gilmour and Dr. A. J. Johnson were at once at his side, but were unable to do anything. Death may be said to have been instantaneous.

Mr. Clarke had been troubled with heart disease for two or three years, and for the past year had been under treatment of Sir Andrew Clarke, of London, Eng., whom he consulted last summer. He was ordered to withdraw from active parliamentary work, but persisted in being in his place every day, and often spoke on the questions before the House. For the past few weeks his death was expected at any time.

As soon as it was evident that he was dead the House adjourned. The body was removed to the reception room. Mr. Willoughby, Mr. David Creighton, Dr. Pyne and Mr. Eels, his manager, proceeded to his residence to break to the family the sad news. The body was removed to the reception room.
