Godfrey. PROBABLY FATALLY HURT. George Hammond, a teamster in the employ of the London and Petrolea Barrel Company, met with a serious accident while driving on York street east, a day or so ago. He had a heavy load of wood on the wagon and was sitting on the front end of the pile. The horse was not going fast enough, and he applied the whip. The animal started forward with a jerk. This dislodged the wood the driver as sitting on and allowed him to fall under the horse's heels. The horse kicked the prostrate man. The wheels of the wagon also passed over his body, inflicting very serious internal injuries from which he may die. Hammond lives near the car shops in the East End, and was to have

been married shortly. KIND WORDS FOR LONDON. The War Cry this week contains an interesting illustrated descriptive account of London, its welfare and progress, especially as relating to army work. The illustrations consist of the waterworks, asylum, hospital, Simcoe of Orleans has been postponed owing to street school and postoffice. and factories, with their busy hands, may be observed on every side. It is said that this city, in proportion to its population, does a larger banking business than any other in Canada. In the center of a fine agricultural country, the food supply is abundant, fruit and vegetables developing in perpetual

No changes have been made, either in the hour of closing of the number of licenses. James James has been granted a license for the Western Hotel on condition that he sells out immediately and transfers the license to someone acceptable to the board. Charles Maker's application for a wine and beer license on King street, East London, was refused. Edward Barrell, corner of the Market Lane and Market, has not had his license renewed, and his case is left in abeyance for a couple of weeks. It is pretty well understood that this license will be transferred to the O'Neil House, corner of York and Talbot streets. Edward Shea's shop license streets. The Chronicle says: "Durrant was born in Canada, and is 23 years of age. He attended the public schools of London, Ont., and about eight years ago came to this city with his parents. In 1891 he entered the Cogswell school, and remained there until he graduated. He then entered the Stanford University, but pursued his studies there for only a year."

Miss Williams, one of the murdered girls, is also a Canadian. Her parents have been separated for nearly three years, and it is said that the father neglected the family. Mr. Williams resides in San Francisco, but the mother lives in Beamsville, Ont., and provides for several smaller children, Miss Min-

nie being the eldest. Miss Williams' purse has been found on Durrant, and the police say they will not have the slightest difficulty in proving that he committed both crimes. He affected religion, but his intimate companions state that he was hypocritical. If Durrant lived here in the eighties the names of his parents do not appear in any of the old directories.

## A TORTURED CHILD

FOR TWO YEARS

Its Head Rendered a Volcano of Fiery, Itching, Burning

Pains.

So speaks Maxwell Johnson, 112 Ann street ,Toronto: My six-year-old daughter, Bella, was afflicted with eczema for 24 months, the principal seat of eruption being behind her ears and on her face; her head was on fire with painful. burning itching, which was made worse by constant scratching and tearing it with her hands. We spent money without stint in constant endeavor to afford the little sufferer relief, every advertised remedy was tried; innumerable treatments with soaps and medicines and specific treatment by physicians having high endorsements in curing such diseases were of no relief in her case. A short time ago I purchased a box of Dr. Chase's Ointment, the first application of which showed the curative effect of the ointment; only one-half of the box has been used, with the marked change of an entire disappearance of the eruptions, and I can confidently say my child is permanently cured. Any enquiry cheerfully answered with enclosed stamp. cured.
