Dominion Oil Co., Limited

Chartered Under the Laws of Ontario, and Operating Raleigh Oil Fields, Chatham. Ont.

CAPITAL . . \$850,000 Divided into 850,000 shares, par value \$1, Fully Paid and Non-Assessable TREASURY STOCK-WORKING CAPITAL........\$400,000

No Bonds, Preferred Stock, Nor Indebtedness. No Bonds, Preferred Stock, Nor Indebtedness.

The recent acquisition by this company of leases on 360 acres in the Wheatley District, and 150 acres additional in the Raleigh field, makes its control of oil lands now over 2,000 acres in all, thus increasing its assets by nearly 32 per cent, with a corresponding increase in the intrinsic value of its stock. The fact that these additions were also made without drawing a dollar from its rapidly accumulating treasury funds, evidences the intent of its directors to continue the success of the company's operations, and let no opportunity pass to maintain its substantial character and leading position among Canadian enterprises.

At the customary oil field reckoning of one well to an acre, the probable output from these properties is almost beyond computation. The Wheatley property adjoins the several wells drilled and operated by the Union Gas and Oil Company, and is considered a very valuable acquisition; while President Woodward, of the Dominion Company, advises us that by the installation of the air compressor he expects to increase the output of the famous Gurd Gusher to 400 or 500 barrels a day—and this product is now bringing a higher price than any other petroleum oil on the North American Continent. Contracts are also under way for the immediate development of both the new properties, where a very high grade quality of oil has been found.

In view of these facts, as well as the sound financial position now occupied by the company, the directors have decided that the sale of stock shall

Close at 35c Saturday, March 14. Advance to 50c Monday, March 16.

The company is now paying dividend of one per cent monthly on par \$1.00 per share, fully paid and non-assessable), which at the present figure of 35c is practically 36 per cent per annum on the investment. The next dividend will be payable April 1, to all stockholders of record March 26th; but those who subscribe by March 14th will secure a 3 per cent monthly investment. We earnestly advise all who desire an interest in these wonderful fields to subscribe now, and thus make sure of the greater income, and the greater profit possible by the advanced market value of the stock.
