A Wonderful Discovery By a German Specialist

incurable. Physicians are employed without any avail, and so the disease is allowed to run on until the sufferer eventually succumbs. This is the story we hear day by day the world

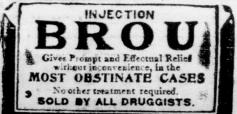

specialist started to work out his vonderful cure, and after nine years f labor and many disappointments he at last perfected SANOL'S ANTI-DIABETES, which during the last wo years thousands of sufferers have been cured of this disease, and many so-called incurables, people whose doctors had given them up, once again restored to their health and strength Slowly, but surely, it came to be a recognized fact, with both the people and the medical profession of Canada, that SANOL'S ANTI-DIABETES is the one remedy that nay be relied upon to cure this fata

The manufacturers of SANOL'S ANTI-DIABETES have received within the last nine months over three thousand letters of recommendation; many from some of the most prominent people in the city of Winnipeg, and all over the country. The remedy is indorsed by many of Winnipeg's leading physicians, who do not hesitate in recommending it to their own patients. This medicine is daily used in many of the hospitals and colleges in Canada. People using SANOL'S manufacturers of SANOL'S Canada, People using SANOL'S ANTI-DIABETES suffer from no illeffects, as the preparation is made from pure herbs, and absolutely no alcohol or poisonous matter is used

in its preparation. The greatest recommendation the SANOL MANUFACTURING COM-PANY have is from those who have used this treatment, and who recommend it to their friends.

> BARBARA II CROSSES LINE FIRST IN BIG RACE

> First Motorboat to Arrive at Bermuda in Race From Philadelphia.

[Canadian Press.] Hamilton, Bermuda, June 11. - The motorbeat Barbara II. crossed the finishing line at 3 hours, 25 minutes, 20 seconds, this morning, in the race from Philadelphia, which started on Saturday at 1:30 p.m. She had been first sighted at ten minutes after mid-

The skipper of the Barbara II. declared that he had encountered north-east winds during the entire voyage from Philadelphia. He estimated that the boat had lost two hours owing to Bermuda, is unofficially calculated at the course taken being too much to 85 hours, 14 minutes and 20 seconds.

Up to 7:30 nothing had been heard their respective allowance.

Coming and Going

THE smooth, clean, economical concrete road is coming—as certainly as the railroad, the steamship and the telegraph came.

And the muddy, sticky, deep-rutted dirt and macadam road is going -as surely as the stage-coach, the sailing ship and the spinning-wheel have gone.

It's simply a question of which communities will take advantage of the better, modern way of building roads now-enjoying its benefits from now on-and which ones will continue to "get along" in the poor old way until forced by competition to avail themselves of science's latest contribution to public convenience.

Concrete Roads

are not experiments. There is no "chance" taken with their adoption. They have up" with facts—facts that prove concrete been quietly proving their value for twenty to be the best and cheapest material for years. Concrete roads built twenty years road construction—either for city streets ago, when concrete construction was nothing like so far advanced as it is to-day, are still giving absolutely satisfactory

Concrete roads have proven themselves best-under all sorts of conditions, from the standpoints of both service and economy. Their first cost is near that of good macadam, their service is greatly superior, and their final cost—the only one to consider in comparing roads—is a great deal

might be stronger and then not over-state send free upon request.
