Manager of Market Stall Takes Exception to Mr. Forrestal's Statement.

"The statement that W. J. Forrestal made at a meeting of No. 1 commit-tee of the city council on Wednesday afternoon that fish have sold for 23 cents per pound in the city stall is untrue," declared James Jenkins, city

fish market manager, today.

Mr. Forrestal asked permission to locate a fish stall in the market house. He said that he was in the position to obtain large supplies of fish and sell them at a much lower cost than they were selling for in the municipal fish "We have never sold fish over 15

cents per pound," continued Mr. Jen-kins, "and we can prove it. At present our Lake Erie fresh-caught pickerel and perch are selling for 15 cents a pound; Lake Erie frozen herring, 14 cents per pound; British Columbia sea cents per pound; British Columbia sea salmon for 15 cents per pound; British Columbia plaice at 13 cents per pound; Lake Nipigon fresh-caught fish at 15 cents per pound, and Lake Nipigon salmon trout at 15 cents per pound. Any person who has bought fish at this stall will agree with me that they have never paid 23 cents per pound. All those who have not dealt with us will be of the opinion that we are profiteering."

sumed.

A manifesto issued by the Miners'
Federation tonight seems to render any
possibility of renewed negotiations hopeless, apart from such yielding on the side of the Government as the themselves say they can hardly expect. The Government yesterday met the miners half way by agreeing to give such financial assistance as would b necessary to start the regulation of wages on a national basis. The miners, however, insisted on acceptance, also, of the pooling of profits, which the Government throughout has declared to be impossible.

Miners Losing Support. This irreconcilable attitude is depriv-ing the miners of any support in the press, and apparently is tending to alienate the sympathy of a large section of the public, who had been impressed during the course of the dispute with the justice of the miners' claims for greater consideration than the owners had given in recent wage

The Government proposal was that wages should be fixed on a national basis and that committees in each district, composed equally of owners and miners, should consider exceptional cases requiring assistance from the

Rallwaymen May Strike. While the miners are thus losing the support of the general public, organized labor is steadily consolidating on the labor is steadily consolidating on the side of the miners. The Amaigamated Society of Locomotivemen and Firemen, society of Locomotiveners and Filemen, whose attitude previously had been doubtful, decided today to strike with the Triple Alliance. The executive of the Railway Clerks' Association also recommended joining the strike. The Electrical Workers of London, but not of the whole kingdom, threaten to

The premier's letter to the Triple Alliance was sent by special messenger after a full meeting of the cabinet to-night, and after the formal council night, and after the formal council Lord Birkenhead, Sir Robert S. Disgrace to Trade Unionism.

A manifesto issued late tonight by the Triple Alliance, in which this body emphatically supports the miners' claims, contends that such reductions in the miners' earnings "no trade union in the past ever accepted," and declared that if accepted "it would be a disgrace to trade unionism of the world."

It continues: "The Miners' Federation fully realizes that the present position of the industry is as bad as it has ever been in its history. They are prepared to do their share in helping the industry by accepting a reduction in wages of a national and uniform charactear, but not such as will reduce the miners below their pre-war standard of living.

Not Proclaiming Revolution.

"We are fighting for trade union rights, as they are understood by all national organizations. We resent the suggestion made in Government quarters that the miners' fight is a political one. We are not proclaiming revolution; we are standing shoulder to shoulder for fundamental trade union rights. If these are denied us now they of the collection in the past even benefit of the process of the collection in wages of a national and uniform charactear, but not such as will reduce the miners below their pre-war standard of living.

will be denied the whole trade union movement later.

"The fight must be won. British trade unionlism will triumph against the united efforts of British organized capital in its attempt to destroy trade union achievements legitimately gained by years of hard labor and sacrifice."

An Essential Condition.

The first statement respecting the grounds of the miners' refusal of the Government's offer was signed by Heristers and steers, the statement of the Miners' Federation, and Frank Hodges, secretary. It shows that the rejection was due to the Government's refusal to concede a national pool of mining profits, and the statement of the Miners' Federation and Frank Hodges, secretary.
