Appointments Made Yesterday in Conference with the
Dominion Superintendent.

Some interesting charges have been
made in the local staff of the Versein
Coffer of Norses ettering the victor
offer of Norses ette Order of Nurses during the visit to London of the Dominion superintendent, Mrs. Hannington of Ottawa. As a result of this visit, Miss Symonds, who has been assistant superintendent in the Winnipeg district, has been appointed to the position of head of the Dominion of taking the newly-instituted university course in public health nursing. This position now carries with it as great responsibility, as the teaching and demonstrating of the practice work in connection with the Westming, will fail on the New Scalation. It as great responsibility as the teaching and demonstrating of the student nurses taking to the student nurses taking ourse, as they are given practical bed side instruction.

Spiendid Organizer.

Miss Symonds is a splendid organizer of the town of taking the newly provided decided the provided of the town of taking the newly-instituted in the town of taking the newly-instituted university course in public health nursing and demonstrating of the practice work in connection with the Westman and demonstrating of the practice of the student nurses taking this standard of the order.

Young and the practice of the local staff of the local staff of the local staff of the student nurses taking ourse, and has had atfaff of nurses. She will be transferred to distinguished Staff local to the practical of the local staff for some time pass will be transferred to the practical of the condition of taking the newly-institute of the local staff for some time pass will be transferred to another branch of the order.

Easy To Will be very easy the will be very easy to will be transferred with the world in the staff of nurses of the student of the practice of the pract

will be transferred to another branch of the order.

The above appointments were made only after due consideration at conferences held yestrday afternoon and Monday evening between the Dominion superintendent and Miss A. A. Harris, the local president, and her executive. And the changes made are largely due to the introduction of the largely due to the introduction of the raining centers have been abolished fraining centers have been abolished for public health nursing courses at the different Canadian universities.

Scholarships.

To help the nurses to qualify under the pages of the plane of the

ant superintendent at Mont-Miss McNair, head nurse at 3. C., are going to Toronto course to qualify for execu-

we positions.
While in the city Mrs. Hannington referred to the splendid work being lone in this district, and complimented to the spleng one out. Western University as being one out of but five universities in the Dominion which were undertaking the V. O. N. scholarship work at the present time.

And while in London she conferred with the Western University authorities as to the arrangements and line of study for the new scholarship work. involving the bile-apparatus. Now Dr. Frank Smithles of Chicago, employs the same principle not only in diagnosis, but

### **EDUCATIONAL SURVEY** OF INDUSTRIAL GIRLS TO BE MADE BY "Y"

Western University Will Co-operate With Y. W. C. A. In Helping Educate Giris.

The Y. W. C. A. Industrial Department has secured the co-operation of the Western University in its program the Western University in its plossifier the coming season, as announced at yesterday's meeting of the industrial wasterday's meeting of the industrial wasterday's means that the "Y" verge upon but perhaps do not definitely What is there in this notion about Answer—Nothing but tales. Of course, dustrial department during the past a cat may lie upon a helpless infant's year, and in co-operation with the face and smother the infant, just as a Technical School. It is understood that face and smother the infant, just as a reminder of the second of the careless mother does, and therefore cats and mothers should not sleep with versity lectures. While as yet no arrangements have been made for these careless mother does, and therefore cats lectures to lead to any special certi-ficate, it is possible that they may be tind of illness.

J. Meltzer of Rockefeller Inwho has pointed out some of who has pointed out some of much, how often, clear or diluted? 2. ## F. LINFORTH WILLGOOSE HARRY T. DICKINSON

The London Conservatory of Music has been entirely reorganized and fitted for its great work of 1921-2.

Its staff of teachers is unique, each one having peculiar and special qualifications for the particular grade they specialize in.

The equipment has been brought up to date to meet all demands made of it, and is one of the finest in Canada.

The directorate realizing that scholarships are frequently won by people well able to afford to pay for their tuition, have decided to replace these by several courses of FREE TUITION to such musically endowed people as may be, by existing circumstances, unable to equip themselves for a professional musical career. Information will be gladly received of any people so situated. so situated.

Special residence has been reserved and a matron's care provided for pupils from distant points.
