The letter of John Charlton to his friend, and the reference made in it to nationality and religion of Mr. Laurier, have made a deep impression on the Fre ch Cauadians. The Equal Rights you in Ontario has been scattered broad-cast among the warring waves of public ex-citement on the general issue. A circular issued by general manager Sagent of the Grand Trunk railway was published to-day, but it has created little comment. Its tenor is contained in the following sentence: "I wish to be under-stood that if any interpretation can be given to the recent manifesto of the C. P. R. as expressive of opinions contrary to the in-terests of the United States, the Grand Trunk has no sympathy with such opinions." This may mean anything or uothing. LONDON, March 4.—The drawing room held by Queen Victoria, to-day, at Bucking ham Palace, was notable for the unusually large and brilliant attendance. This was due to the presence of the Empress Frederick of Germany, and the desire or the part of the courtiers and others to show their sympathy with the Empress after the recent unpleasant experience in Paris. Every member of the royal family now in England made it a point to be pre-sent, and as the Court is now out of mourn-ing, the drawing room was one of the most successful ever held in Buckingham Palace.

the only place in the Dominion in which men who have been all their lives ardent Liberals have rejected Laurier's policy with indignation. There is not a town or a settlement in the Dominion in which there are not Liberals who seeing what Laurier's policy is certain to lead to refuse to sell their allegiance for the trade advantages which their leaders, without any warrant whatever, promise them : Perhaps the most remarkable political meeting ever held in the Dominion was that which packed the Mechanics' institute to-inght until even standing room was not available. It was a meeting of Liberals who had separated themselves from the party on the unrestricted reciprocity issue, and that they were in the deadliest earnest was evidenced by their enthusiastic greet-ing of all reference to Sir John's policy of Canade First and no slaughter market for our neighbors to the South. The meeting was presided over by Mr. Thomas Potta, a St. John commission mer-chant, an out-an-out Liberal, years ago re-sident immigration commissioner in Eng-inad, and one of the best of the Liberal orators in the campaign of 1887. His introductory speech was an astomish

nection with the visit of Empress frederick to Paris. Boulanger is believed to have inspired the assaults in the Boulangist press upon the Empress, and to have planned even a greater insult than was actually di-rected to her.
