

The true test of mechanical efficiency is found in the wear and tear of hard, every-day service. Tried by this exacting test, JOHN T. HEPBURN'S

Scotch Derricks

have never yet failed to make good. They are designed and built for hard work—under rigid inspection—from the finest materials only—with honest workmanship; built entirely in our own shops. They combine high efficiency and utmost safety, with low operating cost—effecting a labor saving of fully 50 per cent. over the old style derrick.

Write to-day for full particulars and quotations. By placing your order now you will secure early delivery.
