

BRISTOL.

The *Timber Trades Journal* of Dec. 12th says:—Quebec sawn longitudinal are mostly imported this year, instead of railway timber. This is an advantage to the merchants, as the slab trade was very injurious generally. Stocks all around are moderate, there not being apparently a great excess of any class of goods. A cargo of Stettin oak (mostly butts) has arrived, and met with a very fair sale.

TYNE.

The *Timber Trades Journal* of Dec. 12th says:—The past seven days show a very short list of arrivals, and none of them call for any special comment. The weather has been extremely stormy, a very severe frost having come on, followed now by a snow storm of some severity, the two combined being amply sufficient to stop all outdoor employments, and in consequence thereof business has been practically suspended. Most of the saw mills are only partially employed, many of them working three-quarter time only. With the advent of winter in its severest form, a great number of men are out of employment, and the distress reported is very great. If not so great as last year, it is certainly sufficient to excite the sympathy of the more fortunate, and already in the city and neighborhood relief committees are being formed to cope with it if possible.

No ships of much importance are reported as being due, and in all probability we shall not have many more during the present season.

LEITH.

The *Timber Trades Journal* of Dec. 12th says:—The arrivals of wood cargoes during the week have not been numerous, but they include a cargo yellow pine timber, deals, etc., per Almedia, from Quebec, for Messrs. James Duncan & Co., and a large cargo pitch pine timber per Lanarkshire, from Pascagoula, for Messrs. Ferguson, Davidson & Co. The Almedia is the last cargo expected at this port from Quebec this season.

Business continues very quiet, and the trade from the yards is very restricted, the keen frost which has prevailed for the last few days being rather against orders being received from the builders.

Messrs. Wm. Thomson & Co. held a public sale on Tuesday, 8th inst., at which they offered the balance of the yellow pine timber, oak, elm and birch, recently landed ex Alagua, from Quebec, and thereafter a varied assortment of Baltic deals and battens. There was a fair attendance of buyers, but a great lack of competition in the bidding, and the waney board yellow pine was with difficulty cleared out at an average price of 2s. 6d. per cubic foot.

GLASGOW.

The *Timber Trades Journal* of Dec. 12th says:—A public sale of deals, result of which is given below, took place here on the 9th inst. The catalogue comprised large parcels of Michigan and Quebec pine deals, Dalhousie pine and spruce deals, California redwood, also birch and whitewood logs, &c. There was a numerous company, but very little disposition to bid was shown, and of the large variety of goods offered only a small portion was sold. Some transactions, however, were made privately at the close of the public sale. The trade, it is likely, will be better prepared for purchasing at the opening of the year.

Recent deliveries of deals and planks from Yorkhill yards, Glasgow, show a falling off compared with last year, the figures being: October and November, 1885, 163,271 pieces, and October and November, 1884, 194,447 pieces.

Cargoes from Canada have now all arrived here for the season, the import list for the past week comprising the closing arrivals from Quebec, viz., those per Magnificent and Choise. Other imports at Greenock for the week have been a cargo of teak and one of pitch pine. The Glasgow arrivals consist chiefly of birch timber and spruce deals. Considering the stock on hand, the import of birch is in excess of the market's requirements.

AUCTION SALE.

On 9th inst., at Glasgow, Messrs. Singleton, Dunn, & Co., brokers:

Quebec 3rd pine deals—	per c. ft.
13 ft. 11x3	1s. 2d.

Staves (all sizes)	Quantity.	Value.
Mahogany (tons)	53,006	467,173
Total of Hewn and Sawn	5,002,227	13,597,300

Catarrh—A New Treatment.

Perhaps the most extraordinary that success has been achieved in modern science has been attained by the Dixon treatment for Catarrh. Out of 2,000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent. of the patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at once adapted his cure to their extermination: this accomplished the Catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure Catarrh in this manner, and no other treatment has ever cured Catarrh. The application of the remedy is simple and can be done at home, and the present season of the year is the most favorable for a speedy and permanent cure. The majority of cases being cured at one treatment. Sufferers should correspond with Messrs. A. H. DIXON & SON, 306 King street west, Toronto, Canada, and enclose a stamp for their treatise on Catarrh.—*Montreal Star*, 19122.

ARE you made miserable by Indigestion, Constipation, Dizziness, Loss of Appetite, Yellow skin? Shiloh's Vitalizer is a positive cure. For sale by Ormond & Walsh, druggists, Peterborough.

CATARRH CURED, health and sweet breath cured by Shiloh's Catarrh Remedy. Price 50 cents. Nasal Injector free. For sale by Ormond & Walsh druggists, Peterborough.
