If you desire a **SAFE AND PROFITABLE INVESTMENT** for unemployed moneys in large or small sums, then purchase **IMMEDIATELY BEFORE THE NEXT ADVANCE IN PRICE**, the Preferred Treasury Stock of THE

NEW ENGLAND AND COLORADO

MINING, MILLING

AND PROSPECTING CO.

It is **Guaranteed and Secured, \$1 per Share in Dividends,**

is full paid, and can never be assessed. The Company's capital stock is 500,000 shares, 375,000 of which are in the treasury for a working capital, of which 125,000 shares are declared preferred, being entitled to receive

First Dividends

paid by said Company, exclusive of all other stocks until it has received \$1 per share, which is payable out of the Company's first surplus revenues as fast as accumulated, but the entire amount within three years, being equivalent to more than

22 Per Cent per Annum;

after which it participates equally with all other stock in dividends. A tunnel, in process of construction, opens and develops 13 of the company's mining claims at a depth of 600 to 800 feet from the surface, and is intended to connect all the veins and deposits of mineral in the outlet. The Company have also recently purchased the "Sir Charles" and "Red Lion, No. 1" mines, which are situated near Alma, Colorado, upon what is believed to be AS RICH A MINERAL BELT AS ANY IN THAT STATE, and which are shown by the report of Richard Anderson, Mining Engineer, to have PRODUCED ORE YIELDING

\$200.00 to the Ton,

BY MILL RUNS. Work is progressing by night and day upon these mines with most satisfactory results. Since Nov. 1st, 1881, the character of the mineral has greatly improved, and it is believed the workmen are near the large veins or deposits of valuable ore, since which time the stock has steadily

Increased in value from \$1 to \$1.50 per Share.

49,000 shares have been disposed of, ensuring the vigorous prosecution of the Company's enterprises, and

A Limited Amount is now offered at \$1.50 per share

until May 1st, 1882, when it WILL ADVANCE TO \$1.75 PER SHARE, with continued advances thereafter, as work progresses, and rich deposits of mineral are reached. The par value of this stock is TEN DOLLARS per share, but it is sold at this low figure to procure money for machinery continue work, produce ore for market, and carry out the company's purposes. THE PROFITS TO BE DIVIDED AMONG THE STOCKHOLDERS; and it is believed that this stock will not only advance TO ITS FULL PAR VALUE OF \$10 PER SHARE and pay

Frequent Dividends,

but that the Company will become one of the largest and richest mining corporations in the country. The Company already has 15 mining claims, besides tunnel grounds, the latter being located and surveyed 3000 feet in length and will extend upon each side of the tunnel line, 750 feet along the course of mineral veins as cut and discovered: the whole comprising over 150 acres of rich mineral lands near Alma, Park County, Colorado, surrounded by several of the best paying mines in the State. Several of its officers have had a PRACTICAL EXPERIENCE in the mining districts of over TWENTY YEARS, and their ability and integrity is vouched for by leading business men and bankers.

Read an extract from "ZION'S HERALD," the leading Methodist paper of New England.

"This Company has been fortunate in securing mining properties which give promise of great value. Men of means, intelligence, and influence are interested in its management, and will apply their time and energies to the development of the mines. We have the strongest assurance that the gentlemen managing this Company are not simply manufacturing stock for the market, but are inaugurating a LEGITIMATE MINING BUSINESS, and mean that their stock shall be a GOOD INVESTMENT for the purchaser."

"Attention would not be called to this Company if we did not believe it was formed upon an HONEST AND PROPER BASIS, working forward in a fair and legitimate manner. The Company own over 150 acres of mineral lands, which give promise of a profitable yield of precious metals when fully worked."

"Their advertisement would not appear in our columns did we not believe that THE COMPANY IS MANAGED BY HONOURABLE MEN, and that they are in a HONOURABLE WAY trying to develop the value of mineral lands which they own."

The financial agent is Hiram Blaisdell, Esq., WHO ENJOYS THE CONFIDENCE OF BUSINESS MEN.

Mining, properly conducted, necessarily results in large profits. Colorado's bullion product, prior to 1881, is estimated at

\$125,000,000,

while for 1881 alone, it was nearly

\$23,000,000, which cost about 40 cents to the dollar to produce nearly 60 per cent being divided among Stockholders as profits. Carefully compiled statistics show that 77 Mining Companies in the United States, representing 11,663,333 Shares of Stock, 16 OF WHICH ARE COLORADO COMPANIES, HAVE PAID IN DIVIDENDS TO ITS STOCKHOLDERS

\$114,173,173,

or NEARLY TEN DOLLARS PER SHARE, demonstrating that Mining Securities ARE among the MOST PROFITABLE INVESTMENTS KNOWN.

Now, all cannot directly engage in mining, but by a purchase of stock, every man, woman and child can become interested in mining, and profit according to amount invested.

In these days of LOW INTEREST people are looking for a safe investment for unemployed money that will ensure large returns, which this Company aims to furnish.

The guarantee of dividends and security mentioned above is printed upon each certificate of Stock.

Parties should state in their orders the number of shares desired at \$1.50 per share. They can remit ONE-TWENTY the whole amount with order, and make balance payable in 30 and 60 days in equal instalments, and Stock will be sent immediately upon receipt of each remittance. This will secure the Stock at \$1.50 Per Share

Before the next advance in price on May 1st, 1882.

To \$1.75 Per Share.

MARK HODGSON, DIVIDE, COLORADO, Acting President, Mechanical and Mining Engineer.
