**Rheumatism
and Neuralgia**

These twin diseases cause untold suffering. Doctors admit that they are difficult to cure—so do their patients. Paine's Celery Compound has permanently cured the worst cases of rheumatism and neuralgia—so say those who have used it.
"Having been troubled with rheumatism at the knee and foot for five years, I was almost unable to get around, and was very often confined to my bed for weeks at a time. I used only one bottle of Paine's Celery Compound, and was perfectly cured. I can now jump around, and feel as lively as a boy." FRANK CAROLL, Kureka, Nevada.
After suffering with chronic rheumatism for several years, I was induced to try Paine's Celery Compound, and after using two bottles found myself greatly improved. In fact, after using three bottles, have not felt any rheumatism. Can conscientiously recommend it. Yours very truly,
MRS. P. COWAN, COWANSVILLE, P. Q.

Paine's Celery Compound

"I have been greatly afflicted with acute rheumatism, and could find no relief until I used Paine's Celery Compound. After using six bottles of this medicine I am now cured of rheumatic troubles."
SAMUEL HUTCHINSON, So. Cornish, N. H.

Effects Lasting Cures.
Paine's Celery Compound has performed many other cures as marvelous as these.—copies of letters sent to any address. Pleasant to take, does not disturb, but aids digestion, and entirely vegetable; a child can take it. What's the use of suffering longer with rheumatism or neuralgia?

40/52 CATARRH.

A New Home Treatment for the Cure of
Catarrh, Catarrhal Deafness, and
Hay Fever.

The microscope has proved that these diseases are contagious, and that they are due to the presence of living parasites in the lining membrane of the upper air passages and eustachian tubes. The eminent scientists—Tyndall, Huxley and Beale—endorse this, and these authorities cannot be disputed. The regular method of treating these diseases is to apply an irritant remedy weekly and even daily, thus keeping the delicate membrane in a constant state of irritation, accompanied by violent sneezing, allowing it no chance to heal and as a natural consequence of such treatment not only permanent cure has ever been recorded. It is an absolute fact that these diseases cannot be cured by an application made oftener than once in two weeks, for the membrane must get a chance to heal before any application is repeated. It is now seven years since Mr. Dixon discovered the parasite in catarrh and formulated his new treatment, and since then his remedy has become a household word in every country where the English language is spoken. Cures effected by him seven years ago are cures still, there having been no return of the disease. So high are these remedies valued, and so great is the demand for them, that ignorant imitators have started up everywhere, pretending to destroy a parasite—of which they know nothing—by remedies the results of the application of which they are equally ignorant. Mr. Dixon's remedy is applied only once in two weeks, and from one to three applications effect a permanent cure in the most aggravated cases. N.B.—For catarrhal troubles peculiar to females this remedy is a specific. Mr. Dixon sends a pamphlet describing his new treatment on the receipt of one cent in stamps. The address is A. H. Dixon & Son, 303 King Street West, Toronto, Canada.—Scientific American.

Sufferers from catarrhal troubles should carefully read the above.

Household Hints.

THE oftener flour is sifted for sponge cake the lighter the cake will be.
TRY CAMPBELL'S CUTICULAR COMPOUND for constipation or looseness.
OLIVE oil saturated with camphor makes an excellent application for inflammatory swellings also rubbing rheumatic joints.
PAIN-KILLER as a liniment is unequalled for Children's Pain, Bruises, Cuts, Sprains, etc.
A FEW drops of ammonia in a cupful of warm rain water, carefully applied with a sponge, will remove spots from paintings and chromos.

"Best cure for colds, coughs, common colds is the old reliable Eucalyptary Balsam. Cutler Bros. 447/26
Croup and Throat and Lung troubles are treated successfully with Allen's Lung Balsam.
Hersford's Acid Phosphate Makes Delicious Lemonade.
A teaspoonful added to a glass of hot or cold water, and sweetened to the taste, will be found refreshing and invigorating.
WATER ices are made of the juice of the fresh fruits pressed through a linen bag; to each pint of fruit is added half a pound of sugar, a gill of water, and a desert-spoonful of lemon-juice. When well-mixed freeze it like ice-cream and serve in a glass bowl.
CHEAP, trashy Baking Powder must go. Imperial Baking Powder is pure and reliable, it is made of the best Crystal Cream Tartar and English Soda. All grocers sell it.
STRAWBERRY DUMPLINGS.—Put one pint of sifted flour into a bowl, rub into it two ounces of butter, add a teaspoonful of baking powder and sufficient milk to moisten, about one gill; mix quickly, take out on a board and roll out into a sheet a quarter of an inch in thickness, cut into cakes with a round biscuit cutter, put about three strawberries in each cake, fold them over nicely and steam twenty minutes.
ONE small bottle worth more than carloads of other preparations. So says Timothy Baker of Lowell, Mass., of Wistar's Balsam of Wild Cherry, after being cured by its use of a terrible cough, accompanied by spitting of blood and loss of sleep.
PINEAPPLE PYRAMID.—Make some good calvesfoot jelly, or get it from your grocer. Surround a pyramid-shaped mould with ice, keeping the pointed end upward; put in enough jelly to cover the bottom of the mould; when firm add a layer of diamond shaped pieces of pineapple until the mould is full and all the fruit is used. Keep it as cold as possible until wanted, then dip the mould quickly into hot water and turn out the form on an ice cold dish.
COFFEE MOUSSE.—This is a comparatively new dessert, and has been popular of late at elegant dinners. Make a strong infusion by pouring one pint of boiling water over three heaping tablespoonsful of ground coffee in a strainer. Pour back and forth several times to get the full strength, and strain through a cloth. Add the yolks of four beaten eggs, and one cup of sugar, and set over the fire to thicken. When cold add one pint of cream which has been whipped to a stiff froth, and put in the can of an ice cream freezer and pack solidly with ice and salt. It must not be stirred, but requires five or six hours to harden. At serving time, dip the can for an instant in warm water, and turn out on a cold dish. It is a very light and delicate, and is supposed to resemble moss when cut, whence the name. If one does not possess an ice cream freezer, a tin pail set in a wooden one will answer.
RASPBERRY VINEGAR.—This is a luxury that may be indulged in by families living in the country who have an abundance of fruit. Put four quarts of berries in a stone jar, with one quart of best cider vinegar, and mash to a paste with a wooden pestle. Set in the sun twelve hours, and then place, all night, in a cool place. Strain off the juice the next day and pour it over four quarts of fresh berries. The second day strain, and to each quart of the juice allow one pint of water and five pounds of granulated sugar. Heat over a slow fire until the sugar is dissolved. Bring to a boil slowly, skimming off the scum. As soon as it reaches the boiling point strain and bottle while warm, sealing the corks with wax. This syrup, or cordial, although too expensive for ordinary use, is a delightful drink for summer evening gatherings. Put two tablespoonsful in a glass of ice-water, and embellish with any fruit in season.

There is some satisfaction in FARMING
When a farm produces a good living, a handsome one and at the same time makes its owner rich and increases in value on account of growth of trees and building of a house of comfort; in a word, if the country is full of farmers who are so situated as to be able to live well, and make a home and fortune can be had, as O. H. BARNES, Land Commissioner, Lanark, Canada, says.
