WHAT THE RECAMIER PREPARATIONS ARE AND WHY THEY ARE TO BE USED.

Recamier Cream, which is first of these world-famous preparations, is made from the recipe used by Julie Recamier. It is not a cosmetic, but an emollient, to be applied at night, just before retiring, and to be removed in the morning by bathing freely. It will re-move tan and sunburn, pimples, red spots or blotches, and make your face and hands as smooth, as white, and as soft as an infant's.

Recamier Balin is a beautifier, pure and simple. It is not a whitewash, and unlike most liquids, Recamier Balm is exceedingly beneficial, and is absolutely imperceptible except in the delicate freshness and youthfulness which lit imparts to the skin.

Recamier Lotion w Recamier Lotion will remove freckles and moth patches, is soothing and efficacious for any irritation of the cuticle, and is the most de-Slightful of washes for removing the dust from the face after travelling, and is also invaluable to gentlemen to be used after shaving.

Recamier Powder is in three shades, white, flesh and cream. It is the finest powder ever manufactured, and is delightful in the nursery, for gentlemen after shaving and for the toilet generally.

Recamier Soap is a perfectly pure article,

guaranteed free from animal fat. This soap contains many of the healing ingredients used in compounding Recamier Cream and

Lotion. The Recamier Toilet Preparations are positively free from all poisonous ingredients, and if contain neither lead, bismuth, nor arsenic. The following certificate is from the eminent Scientist and Professor of Chemistry, Thomas B. Stillman, of the Stevens' Institute of Technology:

THE CURE OF THE THROAT AND LUNGS.

Dr. Robert Hunter, of New York and Chicago, the founder of the practice of treatting throat and lung diseases by medicated air, who has made a specialty of these diseases for over forty years, in association with Dr James Hunter, has opened a branch office for Canada at 73 Bay Street, Toronto, where catarrhal, bronchial and consumptive diseases are now treated by medicated air as successfully as in New York and London. This treatment has been so successful as to cause its adoption in all hospitals for the special cure of the lungs in England and throughout Europe, where Dr. Robert Hunter introduced it in person, as he is now doing in Canada,

Patients can be treated at home. Those unable to come to the office for examination are sent a list of questions to be answered, on the return of which Dr. Hunter gives his opinion of the case and explains the treatment.

A little book explaining their mode of cure can be obtained free by applying at 73 Bay Street.
