NOTICE TO NATURAL PHILOSOPHERS.

Any document, however unworthy of notice it may appear, relative to the state of the atmosphere, or to the prevailing diseases in any part of our country, at all seasons of the year, will be thankfully and gratefully received by the Editor of this Journal. Such as might be disposed to comply with this request, will be presented with a complete set of instruments for the purpose, with also suitable directions and formulæ by which this labour may become a very instructive amusement, without occasioning neither trouble nor expence.

Nothing in this department will be void of interest for the Medical Journal, whether in the shape of note or otherwise.
