IN ANY SEASON OF THE YEAR

WAMPOLE'S

PERFECTED AND TASTELESS PREPARATION OF THE EXTRACT OF COD LIVER OIL

can be administered without fear of digestive disturbance, disagreeable eructations or any other of those features which render the crude oil or its emulsions an abhorrence to patients.

WAMPOLE'S PREPARATION is as palatable as Curocoa.

It was over twenty years ago that we startled the medical world by the statement that a combination of the Extractives of Cod Liver Oil combined with the oxygen carrying Hypophosphites would build up tissue and restore emaciation better and faster than the crude oil alone.

This, then new, proposition met with much theoretical opposition. The doctors doubted it. The chemists said; "We do not isolate the alkaloids from Cod Liver Oil, so there cannot be any." Our business competitors were most severe and unrelenting in their criticisms and denunciations. Now the fact of the inferiority of their imitations is, so to speak, unrelentingly unchangeable.

But while the doctors doubted our contention that the virtue of Cod Liver Oil lay in the fact that it contains curative principles (alkaloids) that are not greasy nor greasy, while the chemists disputed and competitors ridiculed, no less an authority than Professor Armand Gautier, of the Faculty of Medicine, Paris, found some.

He separated six distinct and definite alkaloids, with which Drs. Morgues and Bouillot made a series of clinical experiments that proved conclusively that Cod Liver Oil owes its peculiar medicinal action to these alkaloids.

Their report stimulated both European and American physicians to the further study of this complex oil, and we were overwhelmed with requests for samples, to which the requests we cheerfully responded.

With full confidence in our claims, we invited the search-light of scientific investigation. Our attitude has always been **"TRY IT YOURSELF, USE IT OR REFUSE IT ON ITS MERITS."**

The doctors who tried it faithfully in those days are still using it; this fact in itself affording sufficient testimony of their approval.

WAMPOLE'S PREPARATION is the only one before the profession to-day that contains a solution of the alkaloids of Cod Liver Oil as they exist in the fresh livers, this solution being combined with equal volumes of Liquid Extract of Malt, the Compound Syrup of Hypophosphites and Fluid Extract of Wild Cherry Bark.
