**Christy Anatomical Saddle**

(THE PERFECTION IN SADDLE CONSTRUCTION)

IS FITTED TO YOUR BICYCLE.

The Christy Anatomical Saddle is moulded in anatomical conformity to the parts; comfortable cushions are so placed as to receive the bony prominence of the pelvis, and the frame being constructed of metal, maintains its correct shape under all circumstances. The horn of the saddle is just long enough to afford perfect security to the rider; it does not interfere in an uncomfortable way with the clothing, and this feature especially recommends it and is of great importance to women.

Manufacturers and dealers are notified that the Christy Saddle is fully protected by mechanical and design patents and infringers will be prosecuted.
