EXCELSIOR SCHOOL MAPS

44 Maps now ready, 16 lettered and 16 test, each 4 ft. x 5 ft., mounted on cloth and varnished, with rollers. Price, \$4.50 each.

An important feature - and one which gives the remarkable character to these maps - is the adoption of four separate color printings for the Outline, Names, Town-spots, and Hills. The various features thus strongly contrasting produce a clearness wholly unparalleled, and also enables the Physical and Political features to be separately studied and without confusion.

> Authorized for use in the Schools by the Protestant Board of School Commissioners, Montreal.
