Argument of Counse' for Defendants in the Cronin Triai.

Continued from first page,

Mr. Foster then addressed the jury on behalf of John F. Beggs. He denounced the murder of Oronin as the most atrocious and cold blooded ever perpetrated, but warned the jury not to let any innocent man suffer for it. Mr. Foster and the spirit which engendered it. He said "No sconer was there an arrest made on account this murder than war was declared by what has been sermed the opposing camps in Chicago; war to the knife and knife to the hill. Is has been keps up incessantly from that time to this. Not satisfied with the provisions of the statute, with the ability of the State Attorney and all his assistants, they must engage three or four of the most able counsel in Chicago, man whose ability to sway juries by their eloquence is well known, to assist them in this case. After an eloquent description of the prosper-

ity of Ireland a century ago, and a vivid picture of its present condition under the insatiable greed of the English landlord, Mr. Foster asked if it was any wonder that Irishmen here organ-ized to benefit their native land. He then read Homtel, he said, tastified to occurrences which they claimed to have witnessed when the shadows had fallen, yet they were able to give minute descriptions of the persons con ized to benefit their native land. He then read a few lines of the spe-ch delivered at Indian-apolis during the last campaign by Beggs and a few lines of the response which President Har-rison made. "That shows,' said he, "what the President thinks upon the question of the work of the Irish people.' Mr. Foster then stated that he had a very unpleasant duty to perform, because of certain expressions of his client during the life of a man whose soul is now in elevaity. He said : "The man who supposes that Dr. Cronin, while here on earth, was an angel in disguise was very much mistaken. angel in disquise was very much mistaken. Whether or not this Olan na-Gael is an organization whose purpose was to send dynamite to England, the most active member in further-ing the object of that order, whatever it was, was Oronin

face. They must prove that or the prisoners must be set free. If they failed it was their own fault in making a blunder in the indict-ment. "I tell you, gentlemen," exclaimed Mr. The State Attorney objected to this, and said he wanted to prove that Grouin was expelled because he exposed the dynamite policy, and that he was opposing this policy at the time the circular was issued.

Mr. Foster said the action of Beggs from the beginning of the trial had been an open book to the jury. He had nothing to corceal, and con-cealed nothing, and he himself told Judge Longenecker of letters which passed between him and Speliman. It was in evidence that Beggs had said Cronin had no business to be on the committee. Beggs admitted it, and it was true. Oronin was prejudiced against Alexander Spllivan, who had caused his expulsion from the order. Cronin was an agitator, an organizer of rival camps, and had publicly denounced the "triangle," yet he was selected to act in the triple capacity of witness, counsel and judge to

white norms that work i.r. or only a way, and it was in the Carlson cottage that he was killed. Dinan is receiving \$100 per weak from a dime mussion manager where the horse is on exhibi-tion, and the Carlsons are making money fast by charging an admission fee to the cottage. "Now," he went on, "it is proven that the Clan-na-Gael throughout the United States is divided into two wings. One wing of the Clan sim in the prisoners' dock and the other wing eits in the witness seat. How does the wing that sits in the witness seat, and which envelopes this entire prosecution, how does that wing feel towards my cleans and the wing to which its side belonge? They may that the wing of the Clan-na-Gael, or the leaders, betrayed our com-rades to the British Government and sent our comrades to British prisons by telling who they were, So you find that this wing has been assisting the prosecution. That it has labored day and night, and so the, other parties have given their services and their money and the rest of these has called on Arobbishop Cerrigan and ob-tained formal approval of his mission to this country. Father Matthew is here to deliver lecturce, the moneys scorning from which are to be devoted to a two-feld purpose. In Outober, 1890, will occur the centenary of the birth of the Rev. Theobald Matthew, the great temperance reformer, and a centennial colebration will mark the anniversary in Cork. For this money is required. Father Matthew's church of the Holy Trinity was to have been a memorial to the apostle of temperance. It is not yet completed. One reason for this is, that during the Irish famines the tressury of the church was depleted to give food to the starving. Father Matthew hopes to carry home with him enough money to right, and so the other parties have given uner services and their money and the rest of these 15,000 Clan-na Gael's throughout the country have been atching the prosecution in this case. All these men have left Ireland for Ireland's good, because the English police are after them They come from Milbank, they come from the prisons finish this good work.

Father Vathew's first lecture will be on 'Liberty."

"I thought to have begun with a lecture on temperance," said the cowled and bearded Capuchin, when seen recently at the cooleiastic residence, 210 West Thirty-first street the prosecution, and you come here as a jury to pass upon the facts and to examine the motive behind it and it is the ancient Irish "but on reflection I concluded it would be too near election time for temperance to be very popular."

It is regarded as a singular coincidence that Father Matthew should have succesded "Now, gentlemen, there is not a witness that has been discovered in this case, since the Orroner's jury returned its verdict, that is not a suspicious witness. I never saw such a body Father Theobald Matthew at Cork. This Father Matthew joined, in 1876, the religious order to which his illustrious predecessor had of witnesses and you never did. They have eyes like the eagle. Like owls, they see longer and further by night than they can by day. Where St. Peter Said Mass

Mr. Forrest then, with much sarcasm and ridicule, analyzed the testimony of various wit nesses for the prosecution, claiming that they Among the acts of Vandaliam perpetrated by the Italians, none has been worse than the projected destruction in Naples of the Church of St. Pietro ad Aram, one of more than 60 condemned to make way for the improvements in the city. The Liberta Cattolica gives a history of this vonerable building, existing cerned in them, could tell their complexions and the kind of clothes they wore. The trouble with this evidence was that it was too circumstantial and its details fitted together too closely to be since the 9th century on a spet pointed out by tradition as the cradie of Christianity in Naples, where St. Peter said Mass and gave Communion by the first group of converts made there, headed to St. Aspreno and Sunta Oandida. In the vestionle is a chapel containing the altar on which the Apostle celebrated the Holy Sacrifice, placed under a abowed that the doctors could not decide definitely whether or not the wounds were in-flicted before or after death. The state, he said, had indicted these men for the murder of Dr. Cronin by inflicting blows on his head and tabernaole of precious marbles. The remains of St. Athanasius of Monte Cusine are deposited there, as well as the e of Robert Guiscard, Reger of Normandy, Charles I. of Anjou, with Ladislaus and other Neapolitan princes. the blows on Gronin's head caused death. They were not severe. The skull was nowhere frac-tured. The speaker then took up the matter of Look. — The market is firm under a good local demand, and holders of good spring wheat flour are asking 20c per bbl more than at this time last week. city strong bakers being now quoted at \$4.70, and patents at \$5. Winter wheat flour is quiet but firm, patents being quoted at \$5 to \$5.20. Straight rollors are somewhat steadier, but it is difficult to get prices up, and we quote \$3.50 to \$4.70, as to brand. The American markets are firmer, and

able red clover seed. We quote : Red clover, \$4.50 per bashel, and simothy \$1.50 to \$1.60 for American and \$1.79 to \$1.80 for Canadian.

PROVISIONS.

PORK, LARD & C. - In pork a fair volume of businers has been accompliabed during the work as steady prices, quite a number of city and country forders having been filled during the past few days, sales being mentioned of Western short out clear at \$13.25 to 18.75 and Western mess at \$12.50 to \$13.00. Canada abort cut is quoted at \$15 to \$15.50. Lard has been moving into consumption at 84 to 840 for Western and at 80 for Canadian in pails. Smoked meats are

at 50 for Canadian in paila. Smoked masts are steady. We quote :--Canada abort cut clear, per bbl, \$15.00 to \$15.25; Chicago short cut clear, per bbl, \$13.25 to \$13.75; Meas pork, Western, per bbl, \$12.75 to \$13.00; Hama, city sured, per lb, 120 to 130; Lard, Western, in pails, per lb, 820 to 83c; Lard, Canadian, in pails, per lb, 82 to 83c; Bacon, per lb, 11ge to 130; Shoulders, per lb, 00; Tallow, common, refined, per lb, 66 to 63c. 6a ta 61a.

DRESED Hogs .- The market is quiet, and under large offerings to arrive there is a slightly easier feeling, with sales reported at \$5.80 to \$5.90 per 100 lbs. for car lots. Choice light averages are quoted at \$6.00 to \$6 25 in small lots. A car way sold in the West yesterday at equal to \$5.85 here, and we quote \$5.80 to \$6 25 per 100 lbs.

DAIRY PRODUCK.

BUTTER .- There are no interesting fea.ures to report, the market during the week having ruled remarkable dull, even the local trade being blown to average for this season of the year. There are quite a few lots of creamery still held in the country which could have been placed at gool figures a few weeks sgo, but to-day it is said they would not bring the figures then offered. The only recent sale reported to us was that of a round lot of August, September and October at 21c. Holders of late made choice October at 21c. Holders of late made choice October creamery want 23c and 234c, and some ask even higher prices. In dairy butter there is said to be several good sized lots held in the Morris-burg district, which, it is thought, will find its way to this market in small quantities. Some, is is reported, have found its way to Toronto. It is thought that there is not much butter to some formade from the Brockville scottor al. come forward from [the Brockville section, al-though west of Toronto quite a few round lots could be secured by paying the price. Western butted is slow of sale on this market, as the Lower Ports are taking very little just now. There was tome enquiry, however, a few daya ago for Kamouraska dairy, but that butter is held in Quebec and Kamouraska at present. Sales of Western have been made in jobbing lose at 14c to 16c per lb for medium to fine qualities, with business at 12s to 13c for poor qualities suitable for confectioners. At the moment there is no export demand, nor any prospect of any in the near future. Stocks are quite liberal, amongst which is a good quantity of American in bond, both creamery and dairy.

We quote : Creamery, 21o to 23c; Eastern Townships, 16c to 21c; Morrisburg, 15c to 20c; Brockville, 14c to 19c; Western, 14c to 16c; Inferior, 12c to 13c

Retail selections are sold to the local trade at the usual margin above regular quotations.

ROLL BUTTER .- Receipts continue upon a liberal reale, and buyers have a decided advan-tage in prices. A lot of 7 pkgs (bbls and cases) was sold at 152, said to abow very good quality, We quote bbls and barres 140 to 16c, and fine to choice rolls in baskets at 17c to 19c. We note, however, that some very ordinary rolls have been received in baskets, for which it is difficult

to get over 13c UHEESE.-The market although quiet is steady, and a fair amount of business is being done on a quiet way over the cable. There are orders in this market to day for finest qualities at good limits, but which cannot be filled, owing to higher prices asked.

believed, however, that all the apples now held back in the country will be wanted during the sesson at fairly remunerative prices.

ORANGES. - A few Valencia oranges, the first of the season, have arrived, and sold at \$4.75 m oranges was sold as \$3 to \$3 25 per box; smaller lote are quoted at \$3.50 to \$3.75 per box. At the auction sale on Monday 150 bbls of Jamaica were sold at \$3.50 to \$3.75 per bbl, a few selling at \$5

LEMONS. - The market is quiet, and owing be poor offerings, low prices have been realized. At the auction sale on Monday 1,000 boxes were sold at \$2 to \$2.50 for good fruit, whilst poor stock want as low as 50c per box. We quote stock went as low as 50c per box. We quote prices irregular at \$1.50 to \$3.50 as to quality ORANBKEBIES. - In Boston and New York the

market is decidedly firmer, and it would cost \$1 per bbl more to lay choice cranberries down here from those places than they are selling for to day, which means that when present stocks have to be replenished higher prices will rule. Sales of ordinary have been made at \$7 to \$7.50 and choice dark are firm at \$8 to \$9 per bbl, one

dealer refusing to sell at the outside rate. POTATOES .- The demand appears to be still improving, and we learn of further business in round lots at 65c to 70c, with sales of small lots to the jobbing trade at 75c to 80c per bag of 90 lbs. Advices from points between here and Toronto state that if buyers would pay a little more than present market values a good busi-ness could be doue. A car lot of early rose posatoes was received here this week without a stove. This was pretty risky, and it is to be hoped that it will not be repeated. At New York the receipts of foreign potatoes were : from Bremen, 800 sacks; Hamburg, 1,200 sacks; Copenhagen, 500 do ; Bristol, 662 do : Dundee, 640 do ; Gisegow, 725 do ; and Liverpool, 1,524 co ; making a total of 6,041 sacks. Se veral shipments are reported to be in transit, but generally small.

W00L.

The market continues very strong and sales of foreign descriptions have beeen made at a further advance. Several loss of greasy Cape have changed hands at 20c, although the same lots could have been hought a week ago at 194c. Canadian wool is very scarce, and sales have been made at an advance.

THE CASE CLOSING.

CHICAGO, December 9 .-- At the opening of the Oronin trial to day Mr. Foster resumed his address to the jury on behalf of the defence. He angued on the unreliability of circumstantial evidence. "Now, gentlemen," said he, "I want to ask a few questions. Suppose that the anguet of mercian the anguet the second accident of ordering the men to clean the sewer had not occurred until after this trial, don't you anow that in every speech urged by the dis tingueshed orators you would have been told that Martin Burke was guilty because he sent Dr. Cronin's clothes over the sea? Ask yourseveles if that argument had been made to me and those clothes had not been discovered, would not I have given it weight? Cannot you learn, gentlemen, from that simple fact some lessons You can learn that these gentlemen that have been studying this case for six months are no afer guidas than we are. You learn that circumstantial evidence will lie and mislead. You learn another thing, that, although these defendants may not be able to disprove what they can prove to be true, as they say, it does not fol-low that they are guilty. You see the difficulty. gentlemen, that the defence is in when we are called upon to prove a negative.

SUPPOSE THE CLOTHES HADN'T BEEN FOUND ?

"How can we prove that the clothes were not over the sea if the accident did not turn them up in the north town sewer ? Call it faith, call it bind chance, call it over-raing Provid-ence, call it what you will, it did for Martin Burke, the humble laborer, what his counsel and all the witnesses in the world not could have done. Suppose the truth had not been disclosed suppose the clothes had not been found, suppose the augument had been made by these gentlemen that they had been sent made by these generations argument, too, they would have made. They could have described the box going across the the stormy sea, they could have talked about the sbip that held its guilty secret, they could have completed upon they may be a stored at the stored the ship that held its guilty secret, they could have speculated upon what was being done, and suppose all that had been done and you had believed it and drawn the conclusion that they urged you to draw in their opening—and that they would have urged you to draw in their closing-suppose, then, you had imposed the death penalty, and suppose then that the truth had been disclosed and the clothes found in the north town sever, what justification could you have made to the people of the state of Illinois? What justification could you have made in your breast to your God? What justifi-cation could you have made in the form of your .own conscience and yourself.

WHAT BEGGS' ACQUITTAL WOULD MEAN.

Mr. Forrest said the jury would be forced, mder Mr. Foster's argument, to acquit Beggs. The acquittal of Beggs was equivalent to saying there was no conspiracy in camp 20. There being no conspiracy, the case of course fails to the ground, and the acquittal of the other de-fandants follows as a locial consequence. the ground, and the acquittai of the other de-fendants follows as a logical consequence. So they must look elsewhere, and it was not diffi-cult to find twelve men who had some sort of connection with the murder outside of camp 20. Simonds was one of them and eleven others

were unknown. After reading authorities as to the credibility of witnesses, and alluding to the fact that in identifying certain men the State witnesses had evidently sgreed beforehand on all the details, Mr. Forest alluded to his clients being handi-

Some Statistics.

It is said, in the Pall Mall Guzette, that esch year fifteen people out ef every 1,000 marry. Of each 1,000 men who marry 861 are bachelors and 139 widowers, while of each 1,000 women only 98 have been married before, and 902 are spinsters. Twelve marriages. The average age at which men marry is about 27, while the average age at which women marry is about 25 years. Out of every 1,000 persons, 602 are unmarried, 345 are married, and 53 widowed. Over one half of all the women between 15 and 46 are unmarried. In all countries about 5 per cent. of marriagee preve barren. Among the English noblity 19 per cent. are childless. Married women live two years longer than single ones, although one in 70 dies in childbirth. If the mother dies first, the father survives nine and one-half years ; but if the father dies first, the survival of the mother is eleven and one-half years, as an average. Two thousand four hundred and forty-one births occur in England daily, about 33 for each 1,000 inhabitants. February is the month in which the greatest number of births occur. June the month in which occur the fewest. The average number of births for each marriage is 4 33. In every 1,000 births 11 are twins,

CHICAGO, December 5.-Mrs. Eda C. White CHICAGO, December 5.—Mrs. Ella C. White returned to Elmira this morning in charge of Sheriff Cassada, of Chemung county, on Gov-ernor Hill's requisition. Mrs White is wanted for forgery and swindling operations amount-ing to \$25,000. She is young and attractive looking, and had been residing at 50 Sheldon street for some months. She war known as Mrs. Ella O. Worth. In some way, however, it became known that she was speculating heavily, and chear investigation disclored the heavily, and closer investigation disclosed the fact that the lady was engaged in taking "flyers" through the medium of the bucket shops. In the meantime photographs of a woman wanted at Elmira, N.Y.. for for forgery, were sent to the police throughout the country, with the re-sult that Mrs. Worth was located as the right

party. When the woman was brought into Sheriff Matson's office and confronted by Sheriff Cassada, she admitted that her real name was White, and that the name of Worth had been assumed by her since her arrival in Ohicsgo. She was perfectly cool. Turning to Deputy Gleason, she said : "Well, I'll go. Let me pack my truck and then you can go ahead

as soon as you like," Sheriff Cassada and Deputy Sheriff Gross accompanied the woman to her residence, where accompanied the woman to her residence, where the former stood guard over her while she pack-ed her trunk. Gross remained outside the front door, which was not closed. Suddenly a man of powerful build sprang upon Deputy Gross, exclaiming . "What are you doing here? Clear out !" He aimed a blow at Gross, but Gross parried it and knocked his assailant down. The man, seeing he was overmatched, made his escape before Gross could arrest him. Mean-time the woman went on packing her trunk. Mr. Forest alluded to his clients being handi. CORN.-Sales of car lots of No. 3 yellows are reported at 440 to 450 in bond, and sales of old No. 2 mixed have been made at 510 along the

No. 2 mixed have been made at 51c along the line, duty paid. PEAS.—The market remains quiet but steady, with a little more enquiry, notwithstanding the drop of 1d in the English market. Prices are quoted at 56c per 66 lbs to 68c per 66 lbs in store, and west of Toronto sales have been made at 55c to 56c per 60 lbs for shipment via Boston and Portland. OATS—The market has ruled dull during the week, a few car loads of Lower Canada having been niceed at 80c per 32 lbs. and a car lot of

been placed at 30c per 32 lbs, and a car lot of Outario was sold yesterday at 31c. There is however no life to the market. BARLEY, —There is a little more doing in this

market, the principal trading being on brewers' account at a pretty wide range of prices. Two cars of good malting barley were placed at 500 to 520 respectively, and a choice lot of Western brought 550. Feed barley is very low, salss having been made at 400 to 450 per 48 lbs. Very little is doing on American account.

Ryg.-Several lots of rye have been offered at 45c f.o.b. at points back of Prescott, and we quote prices here 51c to 53c.

quote prices here 510 to 530. BUOKWHRAT.-Sellers are plentiful but buyers are scarce, and we quote prices more or less nominal at 84s to 400 per 48 lbs. A car is offer-ed at 87c f.o.b. west of Ooburg at 87c.

MALT.-A few sales have been made for country shipment and city account at 75s to 85s per bushel of 36 lbs, according to size of lot. Large contracts, however, could be made at

SEEDS.-Red clover seed is quiet and easy in sympathy with the easier market in the United States, but as far :: Onzadian accd :: concerned there is very little moving as yet. A letter re-ceived yesterday from Kohler, back of Hamil-ton, says : "There will not be over 200 bushels ton, says: "There will not be over 200 bushels of Alsike, in this section, but there is consider

sales of Montreal at 18c per doz, and most of the Western stock has been picked up. Held fresh are selling at 20c to 22c, and old musty stock at 16c to 164c. Strictly new laid are scarce and quoted at 25c to 28c, and even higher

tigures have been obtained. GANE.--Venison has been in better supply. and sales of suddles are reported at loc to lic and carcases at Sc to 9: per lb, a lot of four car-cases selling at 8:. Partridges are steady, with further sales at 50c to 55c per brace. Inferior, 30c to 35c.

Suc to 3oc. DERSED POULTRY.—Under a good consump tive enquiry poultry mests with good sales at firm prices, several good sized transactions in turk-ye being reported at 9c to 95c per lb, a lot of about 1,000 lbs of choice birds being placed at the outside figure. Sales have also been made at 81c to 9c per 1b for fair to good lots. Chickens have been sold at 6c to 7c and geese at the same figures. Ducks, 84c to 9c.

BEANS. — The market is quiet, although some dealers have been laying in stocks for the windealers have been laying in succes for the win-er's trade, and sales of round lots have been made in the West costing \$155 to \$1.70 laid down here as to quality. Sales have also been made on spot in small quantities at \$1.80 to \$1.90 per bushel French beaus have been imported into New York, which have had the effect of weakening prices there.

HONEY.--- A moderately fair enquiry is report-ed, with a few small lots seiling at from 10c to 11c for pure grades, but the artificial mixture can be had at 8c to 9c, with business reported of a good sized lot at the inside figure.

Hore, The advance in the price of finest foreign varieties referred to last week, has bot affected the price of Oanadian to any extent, good qualities of the latter being offered at 11 ic. out for choice parcels 15c is asked. Referring to the Cazaville bogs we learn from a large West-ern buyer that they are as fine as any grown in Canada for years, and just the right kind of flavor, and would have commanded a much better price had they been properly picked A few small lots of Canadian have been sold at from 96 to 1/6 for medium to good, but really choice would command 12c to 13c. Bohemian are steady at 21c to 23c as to quality and Bava-rian range from 17c to 19c per 1b duty paid. Some Washington Territory hops of splendid quality are offered at 19c duty paid. Old Canadian hops are quoted at 4c to 7c.

HAX.--A tair enquiry is experienced for cboice pressed hay, which is ecarce, and \$10 to \$10.50 per ton has been paid for car lots of this description. A car load was sold at \$9.50, but

description. A car load was sold at \$9 :00, but as the quality was not up to expectations part of the car was refused. We quote No. 1 \$10 to \$10.50: No. 2, \$8 to \$9; and No. 3, \$6 to \$7. Pressed straw sold at \$4 to to \$6 per ton as to quality and quantity. A lot of 500 tons of pressed hay is offered to a Montreal firm at \$8.50 f.o.b. Forest, Ont. There is some demand eminimum from Bootto and then Nort First springing up from Boston and other New England points, but it is exclusively for choice qualities. Advices from Boston state that fancy Canadian has been sold in that market ot \$19 to Loose hay in this market has been plentiful since our last report, with sales at \$9 to \$9.50 per 100 bundles for best offerings, at \$7.50 to \$8.50 for fair, and \$6 to \$7 for inferior. Loose straw sold at \$4 to \$6 as to quality.

FRUITS. &c.

APPLES.—Sales have been made during the past week of good sized loss at from \$2.75 to \$3 for good to choice qualities, with small loss of fauoy selling at higher prices. A great portion of the Niagara stock received in this market is very poor, being gnarled, spotty and dwarfed, sales of which have been made at \$2.25 to \$2.50 poor being faulte press received this mark from per bbl. A letter was received this week from Hamilton, which stated that a number of small dealers west of that place had apples to sell, but that they were asking too high figures to warrant shippers taking hold. It is generally

er, Uaution, ho should still be exercised by country collectors, as the foreign markets are not very encouraging. Dealers in manufactured furs have been doing better during the past week. The prices of raw

better during the past week. The prices of raw furs are as follows: Beaver, per 1b §4, to §4.50; Bear, per skin, \$15, to \$18; Bear cub, per skin \$7, to \$8; Fisher, \$5.00 Fox, read \$1, to \$1.50; Fox, cross, \$250; Lynx, \$4, to \$500; Martin, \$1, to \$1.25; Mink, \$1.25, to 1.50; Muskras, fall, 10c, winter 15c; Otter, \$10, to \$12; Raccoon, 50c to 75c; Skunk 25c, 50c, 75c to 1.

HIDES AND SKINS.

Business in hides has been quiet, owing to the limited demand, and no sales of any consequence have been made. The tone of the market remains steady, and prices are un-chauged all round, except for western packers' steers, which have ruled weak in Chicago, and values here in sympathy have declined tully to to be to the other to the large stock of to 9c to 10kc. Owing to the large stock of leather on hand at present, tanners are holding off and do not feel disposed to buy for future wants, notwithstanding the low range of prices wants, notwinktanding the low wange of prices now raing. We quote : No. 1 Toronto's at 530 to 6; No. 2 do at 540 to 650; No. 1 Hamilton's at 53c to 60; No. 2 do at 430 to 5c. Western buff and upper No. 1 at 8c, and No, 2 at 5c. The receipts of green hides have been fair, for which the demand has been quiet and prices steady at 410, 3c1 and 210 for No. 1, 2 and 3, tanners paying lo extra. Liambskins are un-changed at 56c to 70c, and caliskins continue

dull at 5c. MONTREAL STOCK YARDS.

The receipts of live stock for week ending Dec. 7th, 1889, were as follows :--

Cattle. Sheep. Hogs. Calves. 917 322 696 27 Over from last week. 22 Total for week. 939 322 696 27 . .

Left on hand..... 66 The receipts at these yards for the week have been large, though for the most part the class

was poor, few good prices being paid. Good cattle were quickly taken up, and owners were better satisfied. There was a fair demand for sheep, and prices if anything were higher. The hog trade still keeps dull, \$4.70 being the last uotation. Calves in good demand, but scarce. We quote the following as being fair values:-

Butchers good, 3h to 40; Butchers' Med., 3c to 3h; Butchers Culis, 2h to 3c; Sheep, 3h to 4c; Hogs, \$4 70; Calves, \$5.00 to \$10.00.

MONTREAL HORSE EXCHANGE.

The receipts of horses at these stables for week ending Dec. 7th were 105; left over from previous week, 58; total for week, 118; shipped during week, 18; left for city, 96; sales

supped during week, 10; lett for dity, 30; sales for week, 10; on hand for sale, 34. There has been a botter feeling in the horse trade this week and several sales were made at proces varying from #S0 to \$160, but there is still room for improvement, and horses must be bought cheaper in the country to sell in this market at a profit. We have on hand for sale 34 very fine workers and drivers wish on car load to arrive on Monday.

Decatur, Adams Co., Ind., Nov. 15th, 1886. I, Daniel Coffee of Decatur, Indiana, have had Epilepsy for seventeen years. I had epileptic attacks about once in eight days, and sometimes attacks about once in sign days, and sometimes two attacks in one day. In the month of Sep-tember, 1876, (22 years of age,) I applied to Rev. Ed. Koenig for treatment. He, Rev. Ed. Koenig, considered my case almost hopeless, yet I am happy to state that as long as I use his medicine I am entirely free from at-tacks. haoka.
