DOMINION DEBT SHOWS APPARENT REDUCTION

Statement for July—Decrease Due in a Large Measure to Transfer of Soldier Settlement Loans Account— Good Showing in Revenue and Expenditure

A N apparent decrease of \$65,622,115 in the net debt of the Dominion at the end of July, 1920, is shown in the statement issued by the Department of Finance. A despatch from Ottawa commenting on this remarks:—

"The figures are, however, more apparent than real, this exceptionally good showing being due in a large measure to transference from the consolidated funds to "investments" of \$40,000,000 covering loans to soldier settlers by the Land Settlement Board. Deduction of the \$40,000,000 still leaves the debt smaller than it was at the end of June by \$25,000,000, but this again is in a measure due to a change in the government's interest-paying period, which was largely responsible for a drop in expenditures for July to \$22,789,304 as compared with \$40,084,840 during July, 1919."

For the four months ended July 31st revenue amounted to \$145,049,589 as compared with \$99,621,970 for the same period last year, an increase of about \$45,000,000, which easily covered the advance in ordinary expenditure of \$28,000,000. Expenditure on capital account for the four months totalled \$6,990,918, as against \$117,276,824 last year, the principal reductions being in war and public works accounts.
