BUILDING PERMITS AGAIN DECLINE IN SEPTEMBER

As Compared with a Year Ago, Total Shows Big Falling Off—Ontario Registered the Largest Decrease

BUILDING permits issued in fifty-six cities showed a decline during September as compared with the preceding month, the total value of building permits falling from \$9,439,807 in August to \$8,921,374 in September, a decrease of \$518,433, or 5.5 per cent. Prince Edward Island, Nova Scotia, Quebec, Alberta and British Columbia registered increases in this comparison, while in New Brunswick, Ontario, Manitoba and Saskatchewan there were reductions, that of \$639,635 in the last-named being the most pronounced.

As compared with the figures for the corresponding month in 1919, there was a decrease of \$4,382,458, or almost 33 per cent. in the permits issued, the value for September, 1919, having been \$13,303,832. The following are the details as prepared by the Department of Labor:—

DOMINION DEBT REDUCED TWO MILLIONS

October Financial Statement Indicates Healthy Condition— Revenues Continue to Expand

A DECREASE of more than \$2,500,000 in the net debt of the Dominion in October, as compared with an increase of \$22,000,000 in September and \$43,238,000 in October a year ago, would seem to indicate that the country's finances are in a healthy condition. Revenue continues to expand largely, although the October total was about \$500,000 below the previous month. Ordinary revenue also showed an increase of more than \$10,000,000 for the month, but, as compared with a year ago, a decline of a similar amount is recorded. Expenditure on capital account is being rapidly reduced.

The following are the details as submitted by the Finance Department:—
