

The Coolest Yet!

No argument needed why one should seek the coolest nooks and be dressed in the coolest raiment, with the mercury flirting around the nineties the question is what and where and get it quick. In gentlemen's summer wear there's nothing so cool as a flannel suit made in skeleton style, approaching the negligee in appearance, but dressy enough for any man for business.

HENRY A. TAYLOR,

the Rossin Block, is showing some nice designs in stripe and small check flannel suits. They're an economical outfit because the pains he takes to make them good and the quality of goods that go into their make-up makes them almost everlasting.

A timely hint with the flannel suit is a fancy linen vest, made in the double-breasted style.
