Les Laboratoires Ronald Perrault Inc., incorporated in 1978, manufactures podiatric orthotic devices. The company is the sole podiatric device manufacturer using the "Drapage" method. This new procedure allows a precise fit not found in other orthotic devices. The company's braces and foot moulds are designed to correct most foot abnormalities.

Les Laboratoires Ronald Perrault also manufactures a unique diagnostic camera and developer for identifying podiatric problems.

The Podobloc is an advanced podiatric instrument manufactured by Les Laboratoires Ronald Perrault Inc. for nail treatment or surgery.
