

23, August, 1933.

Professor J. F. Snell,
Macdonald College P.O., P.Q.

Dear Professor Snell,

I have your letter of the 21st,
together with copy of the regulations governing the
veterinary supervision of livestock and poultry.

These regulations are satisfac-
tory to me, and I hope they will result in the most
cordial co-operation between the different animal
departments and the director of veterinary services
at the College.

Ever yours faithfully,

Principal.
